Readers will find more than 90 articles in this book distributed across three significant challenges to students' development: the academic, occupational, and personal. Advances in Intelligent Tutoring Systems Dec 17 2019 May the Forcing Functions be with You: The Stimulating World of AIED and ITS Research It is my pleasure to write the foreword for *Advances in Intelligent Tutoring Systems*. This collection, with contributions from leading researchers in the field of artificial intelligence in education (AIED), constitutes an overview of the many challenging research problems that must be solved in order to build a truly intelligent tutoring system (ITS). The book not only describes some of the approaches and techniques that have been explored to meet these challenges, but also some of the systems that have actually been built and deployed in this effort. As discussed in the Introduction (Chapter 1), the terms "AIED" and "ITS" are often used interchangeably, and there is a large overlap in the researchers devoted to exploring this common field. In this foreword, I will use the term "AIED" to refer to the research area, and the term "ITS" to refer to the particular kind of system that AIED researchers build. It has often been said that AIED is "AI-complete" in that to produce a tutoring system as sophisticated and effective as a human tutor requires solving the entire gamut of artificial intelligence research (AI) problems.

Equestrian Rebels Feb 17 2020 Mariano Azuela (Mexico, 1873-1952) was a medical doctor by profession, recipient of Mexico's Premio Nacional de Literatura (1949), a distinguished member of El Colegio Nacional and, by mid-century, one of Mexico's leading novelists and literary critics. The author of novels, novellas, plays, biographies, and literary criticism, Azuela served as field doctor under Francisco Villa during the Mexican Revolution and, after Villa's military defeats in 1915, published *Los de abajo* (*The Underdogs*, 1915) while in exile in El Paso, Texas. This book of essays commemorates the first centenary of *Los de abajo*, and traces its impact on twentieth-century autobiographies, memoirs and, more specifically, on the *Novel of the Mexican Revolution*. *Equestrian Rebels: Critical Perspectives on Mariano Azuela and the Novel of the Mexican Revolution* includes a full-length introduction and nineteen essays by leading international scholars who study Azuela and other novelists of the Mexican Revolution - such as Martín Luis Guzmán, Nellie Campobello and, among others, José Rubén Romero - from current, yet contrasting and innovative theoretical perspectives. Especially written for this volume, these critical essays are grouped into five sections that separately probe and analyze Azuela's realism

and contemporary affinities with photography; Azuela's literary criticism; centennial studies on Los de abajo; critical approaches to other novels by Azuela; three independent analyses of Nellie Campobello's Cartucho (1931); and a concluding section on literary representations of Mexican colonialism and revolution in the narratives of Juan Rulfo (El llano en llamas), Carlos Fuentes (Gringo viejo), and David Toscana (El último lector). This book will be of importance to scholars, teachers, students, and the general reader interested in topics related to the literary, cultural, and political forces and conflicts that led to the transformation of Mexico into a modern nation.

Failing Mr. Fisher Oct 15 2019 Jim Fisher is a first year teacher who quickly learns that his job is more than simply educating his students. He has to battle indolence in the classroom, enabling parents, and an educational system which caters to the lowest level of student and parental incompetence. Fisher tries to keep his standards and expectations high, even when he has to go head to head with an administrator who becomes his nemesis. The novel also takes a glimpse into Fisher's personal life as he tries to balance the perils of dating with the trials and tribulations of his profession. The result is a hilarious explosion of absurdity, both in and out of the classroom, that takes the reader on a rollercoaster ride of entertainment and edification. Failing Mr. Fisher is based on the teaching experiences of James Wintermote and his family and colleagues.

Using humor and candor, the novel gives us an insider's perspective into why the foundation of the American public education system is crumbling and how it affects not only the students, but more importantly the teachers who have been given the responsibility to educate our nation's children
