**Christ Is a Native American** Oct 12 2019 During his 1984 visit to Canada, Pope John Paul II declared, Christ, in the members of his body, is himself Indian. Who is this native Christ? What is his place in the spiritual universe of native people?

Achiel Peelman examines these questions in this timely and groundbreaking book, which is the result of research he has carried out since 1982 in native communities across Canada. While Peelman's book is a work of theology and Christology, it is also a work of profound friendship that will help its readers know more deeply the Amerindian experience.

**Gardening in Iowa and Surrounding Areas** Jul 01 2021 On the East Coast, so the story goes, newcomers are asked where they come from; on the West Coast they are asked what they do for a living; in Iowa people ask them, "How's your garden doing?" Maybe this is not a true story, but it does epitomize the importance of gardening for Iowans, blessed as they are with the rich glacial soil so hospitable to corn and soybeans. Rural and urban Iowans alike start planning next summer's garden in midwinter, when their plots are still snow-covered and deep-frozen; by state fair time their trees, shrubs, vegetables--including the ubiquitous zucchini--and flowers are thriving. Veronica Fowler's month-by-month guide to gardening in Iowa is a concise, valuable resource for all novice and experienced gardeners. Beginning in January, Fowler presents a monthly checklist to allow gardeners to prioritize seasonal tasks. Her winter chapters focus on garden design, cold-weather gardening, and starting plants from seeds; in spring she moves into soil preparation, shopping for plants, wildflower and rose cultivation, and lawn care basics; summer brings landscaping, flowers for cutting, and organic gardening; and fall involves cold frames, winter-harvest vegetables, forcing bulbs and perennials, trees and shrubs, and ground covers and vines best suited for Iowa's climate as well as information on mail-order suppliers, gardens to visit, where to go for help, and garden club memberships. Tips from some of the more than two thousand members of the Federated Garden Clubs of Iowa round out this plentiful harvest of useful advice. On a day in February when the wind chill is, well, chilling and the forecast calls for more of the same, the arrival of the first garden catalog of the season brings warmth to any gardener. Veronica Fowler's accessible, information-packed book will become part of every gardener's life both indoors and out.

**American Indian Themes in Young Adult Literature** Jan 19 2023 This book analyzes American Indian characters and themes in young adult literature, outlining plots and evaluating content from a native perspective. Teachers, librarians, parents, and young adult readers will find essential analytical information about a cross-section of literature with American Indian protagonists, narratives, and settings. Reviews of young adult publications with American Indian themes are also examined, demonstrating how too many reviewers reinforce, and even honor, stereotypical works. Divided into three sections centering on a range of fiction and nonfiction featuring richly diverse tribal groups across a variety of settings and time periods, the book begins with contemporary selections, examining young adult fiction by non-Indian authors as well as a growing number of native authors. The next section is devoted to historical fiction, the most popular American Indian-themed novels for young adults. The last section examines nonfiction work, including memoirs, biographies, autobiographies, and poetry. A rich bibliography leads readers to other resources.

**Information Highlighting in Advanced Learner English** Jan 15 2020 This book presents the first detailed and comprehensive study of information highlighting in advanced learner language, echoing the increasing interest in questions of near-native competence in SLA research and contributing to the description of advanced interlanguages. It examines the production and comprehension of specific means of information highlighting in English by native speakers and German learners of English as a foreign language, presenting triangulated experimental and learner corpus data as corroborating evidence. The study focuses on learners' use of discourse-pragmatically motivated variations of the basic word order such as inversion, preposing, and it- and wh-clefts, an underexplored field in SLA research to date. The book also provides a critical re-assessment of the study of pragmatics within SLA. It has largely been neglected to date that L2 pragmatic knowledge includes more than the sociopragmatic and pragmalinguistic abilities for understanding and performing speech acts. Thus, the book argues for an extension of the scope of inquiry in interlanguage pragmatics beyond the cross-cultural investigation of speech acts. It also discusses pedagogical implications for foreign language teaching and will be of interest to applied linguists and SLA researchers, language teachers and curriculum designers.

**Hollywood's Native Americans: Stories of Identity and Resistance** Aug 02 2021 This book explores how the heritage and behind-the-scenes activities of Native American actors and filmmakers helped shape their own movie images. Native artists have impacted movies for more than a century, but until recently their presence had passed largely unrecognized. From the silent era to contemporary movies, this book features leading Native American actors whose voices have reached a broad audience and are part of the larger conversation about the exploitation of underrepresented people in Hollywood. Each chapter highlights Native actors in lead or supporting roles as well as filmmakers whose movies were financed and distributed by Hollywood studios. The text further explores how a "pan-Indian heritage" that applies to all tribes in terms of spirituality, historical trauma, and a version of ceremony and storytelling have shaped these performers' movie identities. It will appeal to a wide range of readers, including fans of Westerns, history buffs of American popular cinema, and students and scholars of Native American studies.

**The Native American Renaissance** Dec 26 2020 The outpouring of Native American literature that followed the publication of N. Scott Momaday's Pulitzer Prize-winning House Made of Dawn in 1968 continues unabated. Fiction and poetry, autobiography and discursive writing from such writers as James Welch, Gerald Vizenor, and Leslie Marmon Silko constitute what critic Kenneth Lincoln in 1983 termed the Native American Renaissance. This collection of essays takes the measure of that efflorescence. The contributors scrutinize writers from Momaday to Sherman Alexie, analyzing works by Native women, First Nations Canadian writers, postmodernists, and such theorists as Robert Warrior, Jace Weaver, and Craig Womack. Weaver's own examination of the development of Native literary criticism since 1968 focuses on Native American literary nationalism. Alan R. Velie turns to the achievement of Momaday to examine the ways Native novelists have influenced one another. Post-renaissance and postmodern writers are discussed in company with newer writers such as Gordon Henry, Jr., and D. L. Birchfield. Critical essays discuss the poetry of Simon Ortiz, Kimberly Blaeser, Diane Glancy, Luci Tapahonso, and Ray A. Young Bear, as well as the life writings of Janet Campbell Hale, Carter Revard, and Jim Barnes. An essay on Native drama examines the work of Hanay Geigomah, the Native American Theater Ensemble, and Spider Woman Theatre. In the volume's concluding essay, Kenneth Lincoln reflects on the history of the Native American Renaissance up to and beyond his seminal work, and discusses Native literature's legacy and future. The essays collected here underscore the vitality of Native American literature and the need for debate on theory and ideology.

**Native Provenance** Nov 05 2021 Gerald Vizenor's Native Provenance challenges readers to consider the subtle ironies at the heart of Native American culture and oral traditions such as creation and trickster stories and dream songs. A respected authority in the study of Native American literature and intellectual history, Vizenor believes that the protean nature of many creation stories, with their tease and weave of ironic gestures, was lost or obfuscated in inferior translations by scholars and cultural connoisseurs, and as a result the underlying theories and presuppositions of these renditions persist in popular literature and culture. Native Provenance explores more than two centuries of such betrayal of native creativity. With erudite and

sweeping virtuosity, Vizenor examines how ethnographers and others converted the inherent confidence of native stories into uneasy sentiments of victimry. He explores the connection between Native Americans and Jews through gossip theory and strategies of cultural survivance, and between natural motion and ordinary practices of survivance. Other topics include the unique element of native liberty inherent in artistic milieus; the genre of visionary narratives of resistance; and the notions of historical absence, cultural nihilism, and victimry. Native Provenance is a tour de force of Native American cultural criticism ranging widely across the terrains of the artistic, literary, philosophical, linguistic, historical, ethnographic, and sociological aspects of interpreting native stories. Native Provenance is rife with poignant and original observations and is essential reading for anyone interested in Native American cultures and literature.
