Erosion Apr 04 2021 Fierce, timely, and unsettling essays from an important and beloved writer and conservationist Terry Tempest Williams's fierce, spirited, and magnificent essays are a howl in the desert. She sizes up the continuing assaults on America's public lands and the erosion of our commitment to the open space of democracy. She asks: "How do we find the strength to not look away from all that is breaking our hearts?" We know the elements of erosion: wind, water, and time. They have shaped the spectacular physical landscape of our nation. Here, Williams bravely and brilliantly explores the many forms of erosion we face: of democracy, science, compassion, and trust. She examines the dire cultural and environmental implications of the gutting of Bear Ears National Monument—sacred lands to Native Peoples of the American Southwest; of the undermining of the Endangered Species Act; of the relentless press by the fossil fuel industry that has led to a panorama in which "oil rigs light up the horizon." And she testifies that the climate crisis is not an abstraction, offering as evidence the drought outside her door and, at times, within herself. These essays are Williams's call to action, blazing a way forward through difficult and dispiriting times. We will find new territory—emotional, geographical, communal. The erosion of desert lands exposes the truth of change. What has been weathered, worn, and whittled away is as powerful as what remains. Our undoing is also our becoming. *Erosion* is a book for this moment, political and spiritual at once, written by one of our greatest naturalists, essayists, and defenders of the environment. She reminds us that beauty is its own form of resistance, and that water can crack stone.

By Love Undone Apr 16 2022 Madeliene Willits was shunned by London society for a scandal that was no fault of hers, and forced to seek a paid position in the country. So when Quinlan Bancroft, Marquis of Warefield, comes to direct the household during his uncle's illness, Maddie is determined to detest the nobleman on sight. But though the marquis is easy to dislike, the man himself is a different matter. Quinlan's aplomb in the face of mud, demented pigs, and musketwaving villagers is deucedly appealing. Small wonder, then, that Maddie quite forgets to repulse Quinlan when he enfolds her in a sweet embrace. . . MEETS THE NOBLE LORD. . . Caught kissing his uncle's lovely young companion, Quinlan feels she should make amends, and use his rank to re-establish Miss Willits in society. Unfortunately, it is soon apparent that Maddie has no idea how to resist importunate young rakes who believe her ripe for the plucking. But Maddie knows there is only one rake whose attentions she truly needs to fear—because only Quinlan Bancroft possesses the power to break her heart.

My Undoing Feb 26 2023 For the first time, porn legend Aiden Shaw takes fans behind-the-scenes to the gay adult film world that made him a star. *My Undoing* ventures from locales such as Los Angeles, San Francisco, New York, and London, to the sets of premiere studios like Falcon, Catalina, and Studio 200. Yet, this is not the typical adult film memoir, where stars drop names and titillate readers with explicit moments. Although *My Undoing* shares in unsparing detail all the hot stories about the sex and drugs that fueled Aiden's life, it more profoundly follows him through a course of rocky and unfulfilling relationships. As Aiden eloquently and often humorously points out, the romantic life of an adult film superstar is sometimes lonely and lacking in love. But not love only in the form of a relationship, rather also love from within himself. The book is equally moving for his revelations about his Irish Catholic family, his Positive HIV status in the sex industry, and his recovery from a near fatal car accident that left him temporarily paralyzed.

You Should Have Known Dec 12 2021 Grace Reinhart Sachs is living the only life she ever wanted for herself. Devoted to her husband, a pediatric oncologist at a major cancer hospital, their young son Henry, and the patients she sees in her therapy practice, her days are full of familiar things: she lives in the very New York apartment in which she was raised, and sends Henry to the school she herself once attended. Dismayed by the ways in which women delude themselves, Grace is also the author of a book *You Should Have Known*, in which she cautions women to really hear what men are trying to tell them. But weeks before the book is published a chasm opens in her own life: a violent death, a missing husband, and, in the place of a man Grace thought she knew, only an ongoing chain of terrible revelations. Left behind in the wake of a spreading and very public disaster, and horrified by the ways in which she has failed to heed her own advice, Grace must dismantle one life and create another for her child and herself.

Undo Motherhood Nov 30 2020 *Undo Motherhood* explores the reasons why a significant number of women around the world today regret becoming mothers. The women in this project love their children and are excellent mothers when judged according to society's standards, and yet they hate the oppressive mother role that robbed them of their own existence and suffer through it in silence, feeling it to be the worst mistake they have made. In this book, Diana Karklin combines two narrative languages: her photography and her interviews with women. It is divided into seven chapters: anger, fear, isolation, exhaustion, guilt, resignation and acceptance. The last chapter stresses the importance of accepting regret in order to be able to deal with it in a constructive way without harming the children. Diana chose to present the seven stories from seven different countries as separate booklets - each with a 'closed' cover - in a slipcase, to highlight the loneliness of these mothers trapped in their homes and condemned to silence. As much as Diana would want to see them as a collective voice, the reality is different. „An honest, courageous, and radical book that without passing judgement gives a voice to women struggling with the experience of a social role that they do not want, experiencing guilt and the burden of moral expectations. A book that allows us to explore the other dimension of motherhood, a dimension that is always hidden in the shadow. It is necessary to look at motherhood as it is in all its aspects, in order to free it from prejudices, and to present vital options to both mothers and children who find themselves in this situation," --Ana Casas Broda, photographer and author of *Kinderwunsch*, that explores the complexity of motherhood and the relationship with her two sons.

Returning the Self to Nature Jul 27 2020 Using the lens of ecopsychology, *Returning the Self to Nature* shows that the pervasive and extreme forms of narcissism we find in many modern societies are fundamentally the result of alienation from the natural world. But it doesn't have to be that way. *Returning the Self to Nature* is written for the person who no longer wishes to function in a world that revolves around selfish, disconnected identity models and yearns to step into healthy relationships with one's self, one's community, and our planet. Seeing the suffering of the planet and that of humans as inseparably linked—the ecological crisis as psychological crisis, and vice versa—opens the door to a mutuality of healing between people and nature. At the heart of both chronic and acute forms of narcissism is a socially constructed false self—an isolated, damaged ego in a delusional cycle of selfishness. Through unflinching analysis and meditation practices that encourage visualizing and embodying the wild naturalness of being human, the reader will gain skills to begin experiencing a courageous, pluralistic, and ecological self. This book is an invitation to wake up from the dream of the false self and join the movement toward social and planetary healing.

The Undoing of Saint Silvanus May 17 2022 Exciting fiction premiere from beloved New York Times bestselling author Beth Moore. 2017 Christy Award finalist (General Fiction category) Only God knew why Jillian Slater agreed to return to New Orleans on the news that her father had finally drunk himself to death. It's not like they were close. She hadn't seen him—or her grandmother, the ice queen—in almost 20 years. But when Adella Atwater, the manager of her grandmother's apartment house, called and said Jillian's expenses would be paid if she'd fly in for the burial, a free trip to New Orleans was too intriguing to resist. What Adella didn't tell her was that the apartment house wasn't a house at all and, whatever it was, bore the dead weight of a long and painful history. As soon as Jillian meets the odd assortment of renters and realizes that her grandmother had no idea she was coming, she hatches a plan to escape. But the investigation into her father's death quickly unfolds and Jillian is drawn into the lives of the colorful collection of saints and sinners who pass through Saint Silvanus. She soon discovers there is more at stake than she ever imagined. Who is behind the baffling messages and the strange relics left on the steps? Is it possible that her family is actually cursed? Or is it just this crazy old house that holds them all under its spell? Jillian walks into a web of spiritual and personal danger borne out of her family's broken history, and despite Adella's wildest efforts, only God himself can orchestrate the undoing of all that is going on at Saint Silvanus.

At the heart of Elkaim's technique is self-reference. He demonstrates how therapists can use their own experiences as powerful tools of intervention. Elkaim also shows how to work with crippling reciprocal double binds, when, for example, someone wants to be loved but pushes his loved ones away out of fear that love is followed by loss. And the cast of characters, many threaded plots, are all brought together at the close as a devious romance is shattered and new patterns established. Undoing Aloneness and the Transformation of Suffering Into Flourishing Feb 20 2020 This book updates clinical guidance and theory for

Accelerated Experiential Dynamic Psychotherapy (AEDP), an approach that gives patients corrective emotional and relational experiences that mobilize changes in the brain. Practitioners of AEDP understand psychopathology as a byproduct of internal working models, borne out of insecure attachment experiences, that now thwart adaptive functioning in adulthood. The goal of AEDP is to be therapeutically present with patients and their pain and to guide them to have a new experience—a good experience—thus rewiring memory and capacity to reflect. Updates to the AEDP approach (moving it into its second iteration, or "2.0") leverage emerging findings from the field of affective neuroscience to enhance individuals' healing and transformation. The authors demonstrate the power of relational work by sharing excerpts and analysis of clinical session transcripts. In each chapter, they engage different aspects of the AEDP model to show how emotional suffering can be transformed into adaptive connection, even for individuals with histories of neglect, abuse, and complex trauma.

Undoing Depression Sep 28 2020 Those who suffer from depression can come to believe that it is what they are, when it is merely something that they have - in the same way that they could have heart disease. Sufferers can become good at depression, hide it and work around it. Depression has been described as a modern epidemic, 10% of the population suffer from it. Richard O'Connor's approach avoids simplistic self-help solutions by combining many of the strategies used by mental health professionals and therapists, and offers an understanding that makes each sufferer an individual. Richard O'Connor demonstrates how to replace depressive patterns of thinking and relating with new, more effective skills. Learn how to 'undo' depression.

Undoing the Knots Jul 07 2021 A personal and historical examination of white Catholic anti-Blackness in the US told through 5 generations of one family, and a call for meaningful racial healing and justice within Catholicism Excavating her Catholic family's entanglements with race and racism from the time they immigrated to America to the present, Maureen O'Connell traces, by implication, how the larger Catholic population became white and why, despite the tenets of their faith, so many white Catholics have lukewarm commitments to racial justice. O'Connell was raised by devoutly Catholic parents with a clear moral and civic guiding principle: those to whom much is given, much is expected. She became a theologian steeped in social ethics, engaged in critical race theory, and trained in the fundamentals of anti-racism. And still she found herself failing to see how her well-meaning actions affected the Black members of her congregations. It seemed that whenever she tried to undo the knots of racism, she only ended up getting more tangled in them. *Undoing the Knots* weaves together narrative history, theology, and critical race theory to begin undoing these knots: to move away from doing good and giving back and toward dismantling the white Catholic identity and the economic and social structures it has erected and maintained.

Undoing Hours Oct 10 2021 Selina Boan's debut poetry collection, *Undoing Hours*, considers the various ways we undo, inherit, reclaim and (re)learn. Boan's poems emphasize sound and breath. They tell stories of meeting family, of experiencing love and heartbreak, and of learning new ways to express and understand the world around her through *nêhiyawêwin*. As a settler and urban *nehiyaw* who grew up disconnected from her father's family and community, Boan turns to language as one way to challenge the impact of assimilation policies and colonization on her own being and the landscapes she inhabits. Exploring the nexus of language and power, the effects of which are both far-reaching and deeply intimate, these poems consider the ways language impacts the way we view and construct the world around us. Boan also explores what it means to be a white settler-*nehiyaw* woman actively building community and working to ground herself through language and relationships. Boan writes from a place of linguistic tension, tenderness and care, creating space to ask questions and to imagine intimate decolonial futures.

[This Will Be My Undoing](#) Jun 18 2022 From one of the fiercest critics writing today, Morgan Jerkins' highly-anticipated collection of linked essays interweaves her incisive commentary on pop culture, feminism, black history, misogyny, and racism with her own experiences to confront the very real challenges of being a black woman today—perfect for fans of Roxane Gay's Bad Feminist, Rebecca Solnit's Men Explain Things to Me, and Chimamanda Ngozie Adichie's We Should All Be Feminists. Morgan Jerkins is only in her twenties, but she has already established herself as an insightful, brutally honest writer who isn't afraid of tackling tough, controversial subjects. In This Will Be My Undoing, she takes on perhaps one of the most provocative contemporary topics: What does it mean to "be"—to live as, to exist as—a black woman today? This is a book about black women, but it's necessary reading for all Americans. Doubly disenfranchised by race and gender, often deprived of a place within the mostly white mainstream feminist movement, black women are objectified, silenced, and marginalized with devastating consequences, in ways both obvious and subtle, that are rarely acknowledged in our country's larger discussion about inequality. In This Will Be My Undoing, Jerkins becomes both narrator and subject to expose the social, cultural, and historical story of black female oppression that influences the black community as well as the white, male-dominated world at large. Whether she's writing about Sailor Moon; Rachel Dolezal; the stigma of therapy; her complex relationship with her own physical body; the pain of dating when men say they don't "see color"; being a black visitor in Russia; the specter of "the fast-tailed girl" and the paradox of black female sexuality; or disabled black women in the context of the "Black Girl Magic" movement, Jerkins is compelling and revelatory.

[Undoing Drugs](#) Sep 09 2021 Journalist and author of the New York Times bestselling Unbroken Brain tackles the revolutionary concept of harm reduction, how it can transform the treatment of addiction, and how it holds the potential to revolutionize our treatment of behavioral and societal issues. In her New York Times bestseller Unbroken Brain, journalist Maia Szalavitz took an unflinching look at addiction, challenging the idea of the "broken brain" to offer a groundbreaking perspective on addiction as a learning disorder. Now she turns her keen eye and narrative powers to the surprisingly simple—and extremely divisive—practice of harm reduction, which is a revolutionary means to solving the drug addiction crisis. Drug overdoses now kill more Americans annually than guns, cars or breast cancer. But in the name of "sending the right message," we have criminalized drug addiction, denied those who are addicted medical care, housing and other benefits, and have deliberately allowed the spread of fatal diseases. Yet there is an alternative to our present system, one that has been proven to work, but which runs counter to the received wisdom of our criminal and medical industrial complexes. It is called harm reduction. A surprisingly simple idea with enormous power, harm reduction takes the focus off of drug use and instead works to minimize associated damage. It represents the philosophy behind needle exchange programs and providing heroin addicts with the overdose medication naloxone instead of arresting them. It is focused not on punishing pleasure but on minimizing harm; in essence, it is a wholesale refutation of the American way of justice. Undoing Drugs tells the story of harm reduction. It will show how this concept has begun to transform the treatment of addiction and how it holds the potential to revolutionize how we deal with a range of other urgent behavioral and societal issues. Harm reduction challenges people to prioritize radical empathy and kindness over punishment as a way of not only dealing with drug use, but also in questions related to racism, sexism, disability and inequality. And, as Szalavitz shows, it says unequivocally that we must be more concerned about saving lives and health than about criminalizing quality-of-life crimes. Szalavitz argues for a practical application of the Hippocratic oath to "First, do no harm" beyond medicine and to those who urgently need it most.
