Dyer reveals how to change lifelong, self-defeating thinking patterns that prevent you from living at the highest levels of success, happiness and health.--Publisher. **Excuses, Excuses, Or, How to Get Out of Doing Practically Everything** Oct 08 2021 **Excuses Begone!** Jun 04 2021 Within the pages of this transformational book, Dr. Wayne W. Dyer reveals how to change the self-defeating thinking patterns that have prevented you from living at the highest levels of success, happiness, and health. Even though you may know what to think, actually changing those thinking habits that have been with you since childhood might be somewhat challenging.If I changed, it would create family dramas . . . I'm too old or too young . . . I'm far too busy and tired . . . I can't afford the things I truly want . . . It would be very difficult for me to do things differently . . . and I've always been this way . . . may all seem to be true, but they're in fact just excuses. So the business of modifying habituated thinking patterns really comes down to tossing out the same tired old excuses and examining your beliefs in a new and truthful light.In this groundbreaking work, Wayne presents a compendium of conscious and subconscious crutches employed by virtually everyone, along with ways to cast them aside once and for

all. You'll learn to apply specific questions to any excuse, and then proceed through the steps of a new paradigm. The old, habituated ways of thinking will melt away as you experience the absurdity of hanging on to them.You'll ultimately realize that there are no excuses worth defending, ever, even if they've always been part of your life—and the joy of releasing them will resonate throughout your very being. Be an Achiever Apr 21 2020

Be An Achiever of your goals! How to Stop Making Excuses and Achieve Your Goals. How many incomplete goals do you currently have on your agenda? If you're anything like the vast majority of us, then chances are that you have hundreds of projects that you started and never completed, countless goals that you told your friends but never saw through and all kinds of dreams that seem to

be getting less and less likely to come to fruition. And it's for this reason, that you may find people roll their eyes when you tell them your 'next big project'. When you start a new training program to lose weight and everyone - including you - knows that you're likely to have

lost interest by month two. Or when you talk about the app you intend to make, the website, or the business project. Or when you talk about that dream trip to Japan... This is the way of things for many of us. We work incredibly hard at

things we don't feel passionately about just to put food on the table but when it comes to fulfilling our dreams, we are remarkably ineffective. It's time to change all that and to start making those goals happen. But how can you turn it all around?
