This "comprehensive and illuminating" biography of the Queen of Soul (USA Today) was hailed by Rolling Stone as "a remarkably complex portrait of Aretha Franklin's music and her tumultuous life." Aretha Franklin began life as the golden daughter of a progressive and promiscuous Baptist preacher. Raised without her mother, she was a gospel prodigy who gave birth to two sons in her teens and left them and her native Detroit for New York, where she struggled to find her true voice. It was not until 1967, when a white Jewish producer insisted she return to her gospel-soul roots, that fame and fortune finally came via "Respect" and a rapidfire string of hits. She continued to evolve for decades, amidst personal tragedy, surprise Grammy performances, and career reinventions. Again and again, Aretha stubbornly found a way to triumph over troubles, even as they continued to build. Her hold on the crown was tenacious, and in Respect, David Ritz gives us the definitive life of one of the greatest talents in all American culture. Is it possible that the way to win in business is to give employees exactly what they want? Yes. As RESPECT reveals, managers and organizations who give their employees what they want outperform those who don't. This is no hunch - it's a fact based on more than 25 years of global research. Drs. Jack Wiley and Brenda Kowske have amassed a research database unlike any other, and it all started with this simple question: "What is the most important thing you want from the organization for which you work?" Organizations that apply this research have more engaged employees, more satisfied customers, and better shareholder returns. It all boils down to seven key elements, summarized by the acronym RESPECT. These are the seven things that employees really want: Recognition, Exciting Work, Security, Pay, Education, Conditions and Truth. This book taps the authors' "in the trenches" consulting experience and offers real solutions on each element of RESPECT. Written for all types of leaders—from supervisors to the c-suite—readers can pick and choose the proven solutions that are relevant to their own organizations. By weaving stories and narrative, the authors make complex information easy to understand and fun to read. In addition, RESPECT meets the demands of the global economy, offering an international perspective with corresponding cultural nuances that are critical to helping leaders manage the needs of their workforces. This new edition brings this study of inner-city life up to date. Why does communication between couples remain the number one marriage issue? Because most spouses don't know that they speak two different languages. Communication expert Dr. Emerson Eggerich says that the problem is couples are sending each other messages in 'code,' but they won't crack that code until they see that she listens to hear the language of love and he listens to hear the language of respect. Dr. Eggerich's best-selling book, Love and Respect, launched a revolution in how couples relate to each other. In The Language of Love and Respect, you will discover: The basic communication differences between men and women A biblical perspective with easy-to-use tips and advice A quick review and summary for each chapter This book offers a practical, step-by-step approach for how husbands and wives can learn to speak each other's distinctly different language -- respect for him, love for her. The result is mutual understanding and a successful, happy marriage. Previously released as Cracking the Communication Code. With four years in the Parachute Regiment, ten years in the SAS and two Everest summits to his name, no one is better equipped than Jay Morton to reveal what it takes to become the best of the best. Teaching children how to manage their thoughts and words without interrupting. Louis always interrupts! All of his thoughts are very important to him, and when he has something to say, his words rumble and grumble in his tummy, they wiggle and jiggle on his tongue and then they push on his

teeth, right before he ERUPTS (or interrupts). His mouth is a volcano! But when others begin to interrupt Louis, he learns how to respectfully wait for his turn to talk. My Mouth Is A Volcano takes an empathetic approach to the habit of interrupting and teaches children a witty technique to help them manage their rambunctious thoughts and words. Told from Louis' perspective, this story provides parents, teachers, and counselors with an entertaining way to teach children the value of respecting others by listening and waiting for their turn to speak. Everything has a place. Things last longer when we take care of them. Respect, responsibility, and stewardship are concepts that even young children can relate to—because they have things they value. This book encourages children to pick up after themselves, put things back where they belong, and ask permission to use things that don't belong to them. It also teaches simple environmental awareness: respecting and taking care of the earth. Includes ideas for adult-led activities and discussions. On Respect is a defense for the right to show resentment, indignation and anger. Lars-Henrik Schmidt criticizes the established 'equality' way of thinking which maintains that everyone has equally much to offer. According to Lars-Henrik Schmidt, respect does not make sense if one is not allowed to show disrespect. By introducing the concept of 'deference', Lars-Henrik Schmidt shows how, fundamentally, respect is not about acknowledging the other, but about respecting the difference to the other. This means, for example, that one must do away with the notion that the various partners in the educational relationship are equals. Respectable respect means that teachers can show disrespect towards students who do not respect the learning environment the teacher is promoting. Like Lars-Henrik Schmidt's other writings, On respect is a social-analytical diagnosis of contemporary society. Among the themes covered are: the rise in decaying values; the lack of standpoints; the joyless society - and a suggestion as to how to make respect respectable. List of members in v. 1- . The book describes Ron Shuali's Shua Structure System which helps teachers develop "life skills toolboxes" to use when teaching young children. This stimulating collection of essays in ethics eschews the simple exposition and refinement of abstract theories. Rather, the author focuses on everyday moral issues, often neglected by philosophers, and explores the deeper theoretical questions which they raise. Such issues are: is it wrong to tell a lie to protect someone from a painful truth? Should one commit a lesser evil to prevent another from doing something worse? Can one be both autonomous and compassionate? Other topics discussed are servility, weakness of will, suicide, obligations to oneself, snobbery, and environmental concerns. A feature of the collection is the contrast of Kantian and utilitarian answers to these problems. The essays are crisply and lucidly written and will appeal to both teachers and students of philosophy. Children will learn why respecting authority is an important civic virtue through the use of easy-to-follow terms and real-life examples. Young readers will learn what authority means in different situations. They will learn how authority is granted and when it should and should not be respected. Students will learn how people with authority, like police officers and doctors, can help to protect and aid communities. They will be taught to consider the role authority plays in their lives as citizens. A book about respect. Arin acts careless and rude--and other people are angry and upset. His parents and teacher tell him he needs to show respect. Confused and unhappy, Arin asks Grandma for help. They talk about how he would feel if someone broke his things or laughed at what he likes. Arin makes an effort to show respect to others and learns that everyone treats him better when he does. Our Emotions and Behavior Series Small children have big feelings. The Our Emotions and Behavior series uses cheerful, vividly illustrated stories to help kids understand how their feelings and actions are related--and how they can get better at managing both. At the end of each book, a two-page series of pictures invites kids to tell a story in their own words. A special section for adults suggests discussion questions and ideas for guiding children to talk about their feelings. This classic picture book, illustrated by the award-winning artist Mike Gordon, explains to young children what it means to be a respectful member of society and the importance of having respect for other people's needs. It suggests ways of doing this, such as giving up your seat in a public place so that an elderly person can sit down. It encourages children to think about what respect means to them and looks at why it is important to have respect for library books, rules, animals, public places, as well as the concept of self-respect. This book is part of a series called Values, which helps children to develop their own value system and make responsible decisions. Notes for parents and teachers show how ideas in the books can be used as starting points for further discussion at home and in the classroom or in school assemblies. Other titles in the Values series: Taking Responsibility and Learning About Honesty The remarkable true story of footballing star and war hero Walter Tully is brought to life in this brand-new edition of a Barrington Stoke bestseller. Tully and his brother don't have much. But they do have each other. And Tully has an amazing talent. Football. But when the First World War begins, Tully must fight for respect on the battlefield not the pitch. Based on the amazing true story of Walter Tully, a First World War hero and one of the first black British professional football players. The WIPO Consumer Survey Toolkit on Respect for IP is intended for use by public- and private-sector bodies wanting to measure consumer attitudes towards pirate and counterfeit goods. The creation of the Survey Toolkit was made possible by Funds-in-Trust provided by the Ministry of Culture, Sports and Tourism of the Republic of Korea. This smart, savvy book helps teen girls get respect and hold on to it no matter what—at home, at school, with their friends, and in the world. Tips, activities, writing exercises, and quotes from teens keep readers involved. This “big sister” style inspires trust. Girls learn respect is connected to everything, every girl deserves respect, and respect is always within reach because it starts on the inside. This book is your guide to getting respect and keeping it. Most children aren't fans of rules, but this essential book will reinforce why it is important to respect rules. Young readers are taught to consider the role of rules in our society. They will learn how following the rules makes our communities safer and happier. Readers will learn how citizens create and agree upon different kinds of rules, like laws and professional codes of conduct and what happens when those rules are broken. This key civic virtue will be explained using easy-to-follow terms and real-life examples. Over recent years, the Government focus on anti-social behaviour has been replaced by a focus on respect. Tony Blair's 'Respect Action Plan' was launched in January 2006, Gordon Brown has spoken of duty, responsibility, and respect for others, and the Conservatives have launched their 'Real Respect Agenda'. Within government, the respect agenda has a cross-departmental influence, but like anti-social behaviour before it, 'respect' has not yet been tightly defined. And what is it about the contemporary UK that sees respect as lacking, that in order to tackle anti-social behaviour we first need to 'secure respect'? Until now, there has been little attention in the academic and policy literature on the Government's push for respect. Securing respect contains ten essays from leading academics in the field that consider the origins, current interpretations and possible future for the Respect Agenda. The contributors explore various policy and theoretical discourses relating to 'respect', behavioural expectations and anti-social behaviour. The book follows the five key themes of: respect in context; young people and children; communities and families; city living; and issues of identity and values. Securing respect is inter-disciplinary, linking theory and practice, and will be of value to practitioners, academics and students with interests in criminology, socio-legal studies, social policy, urban geography, housing, social history, sociology and landscape. It's time to brush up on respect! Take readers on a journey with a lively cast of characters as they learn about respect and why it's important to respect parents, peers, the environment, and more! Engaging sidebars illuminate concepts and promote further discussion, while 'Respectful Talk' sentence starters and STEAM activities encourage students to explore respect in the classroom and at home. Be yourself like Molly Lou Melon no matter what a bully may do. Molly Lou Melon is short and clumsy, has buck teeth, and has a voice that sounds like a bullfrog being squeezed by a boa constrictor. She doesn't mind. Her grandmother has always told her to walk proud, smile big, and sing loud, and she takes that advice to heart. But then Molly Lou has to start in a new school. A horrible bully picks on her on the very first day, but Molly Lou Melon knows just what to do about that. Showing respect is very important. But what does that mean? Readers will learn through examples in a fun question-and-answer format that treating others the way you would want to be treated shows respect. Despite the increasing concern for the issue of respect for persons displayed over the last decades by political philosophers, human-right thinkers, social and ethical theorists, a comprehensive treatment of the problem at stake from a historical-philosophical perspective is conspicuously absent. The present collection of essays aims to contribute to the fulfillment of this gap by offering a reconstruction of the seminal passages in the history of philosophy which testify to the evolution of the idea of respect for persons and the rich array of conceptual specifications that such an idea acquires across the centuries. By analysis of pivotal texts of ancient and modern contemporary philosophy, the volume will try to offer an articulated account of respect which, starting from its primeval connection with the search for esteem and the pursuit of human excellence, gradually evolves towards the recognition of the political status of each citizen and culminates into a true politics of human rights. Bringing together the expertise of classicists and scholars specialized in modern and contemporary philosophy, the volume is especially intended for scholars working in the fields of the history of philosophy, ethical and political theory. RJ's mouth is getting him into a lot of trouble. A rude comment

at school earned him a detention, and an insensitive remark at home earned him a scolding and made his sister cry. It's time RJ starts using a social filter when he speaks. He soon realizes he doesn't have to verbalize every thought that pops into his head. In fact, the less said the better! This book gives voice to a variety of college and university workers regarding the issue of respect on campus. Authors consider issues of respect from a variety of unique perspectives to determine how they might better assess their own roles in contributing to a more respectful future. This is the first anthology to bring together a selection of the most important contemporary philosophical essays on the nature and moral significance of self-respect. Representing a diversity of views, the essays illustrate the complexity of self-respect and explore its connections to such topics as personhood, dignity, rights, character, autonomy, integrity, identity, shame, justice, oppression and empowerment. The book demonstrates that self-respect is a formidable concern which goes to the very heart of both moral theory and moral life. Contributors: Bernard Boxill, Stephen L. Darwall, John Deigh, Robin S. Dillon, Thomas E. Hill, Jr., Aurel Kolnai, Stephen J. Massey, Diana T. Meyers, Michelle M. Moody-Adams, John Rawls, Gabriele Taylor, Elizabeth Telfer, Laurence L. Thomas. Young readers will be introduced to the concept of respecting property. Through the use of real-life examples, they will learn the difference between public and private property and why respecting both is important. Students will learn why caring for public property is a key civic virtue. Using easy-to-follow terms, students will learn how respecting property makes our communities better places to live. Readers will learn the role of public property, like parks, in our communities and how citizens can help support and maintain them. *Shortlisted for the 2020 North Somerset Children's Book Award* From the co-creator of the viral 'Tea Consent' video, this is the perfect introduction to consent for kids and families everywhere. Written in a simplified vocabulary and comprised of reading passages, graphic organizers, real-world activities, crossword, word search and comprehension quiz. Otis Redding's classic song "Respect"--as popularized by Aretha Franklin--becomes an empowering picture book exploring the concept of mutual respect through the eyes of a young girl. R-E-S-P-E-C-T / Find out what it means to me R-E-S-P-E-C-T / Take care, TCB Oh (sock it to me, sock it to me, sock it to me, sock it to me) A little respect Respect is a children's picture book based on lyrics written and originally recorded by Otis Redding in 1965. Aretha Franklin's iconic rendition of the song later peaked at #1 on Billboard's Hot 100 in 1967. Redding's lyrics continue to resonate with listeners today. With lyrics by Otis Redding and illustrations by Rachel Moss, this irresistible book shows a young girl, her brother, and her parents conjuring as many positive futures for each other as they can dream. Packed with playful vignettes as they imagine a life full of possibility, Respect provides families an opportunity to explore themes of mutual respect--while revisiting one of the greatest songs ever written. The Otis Redding Foundation. Redding was dedicated to improving the quality of life for his community through the education and empowerment of its youth. He provided scholarships and summer music programs which continued until his untimely death on December 10, 1967. Today, the mission of the Otis Redding Foundation, established in 2007 by Mrs. Zelma Redding, is to empower, enrich, and motivate all young people through programs involving music, writing, and instrumentation. This book explores consent and respect with children especially in relation to body boundaries, both theirs and others. A child growing up knowing they have a right to their own personal space, gives that child ownership and choices as to what happens to them. These concepts are presented in a child-friendly and easily-understood manner. Introduces young readers to the importance of showing respect for others, no matter how different they seem, and explains the difference between the types of respect that everyone deserves, and the types that must be earned by doing right. Arin acts careless and rude - and other people are angry and upset. His parents and teacher tell him he needs to show respect. Confused and unhappy, Arin asks Grandma for help. They talk about how he would feel if someone broke his things or laughed at what he likes. Arin makes an effort to show respect to others and learns that everyone treats him better when he does. The book is a contribution to the study of values, as they affect both our personal and our public life. It defends the view that values are necessarily universal, on the ground that that is a condition of their intelligibility. It does, however, reject most common conceptions of universality, like those embodied in the writings on human rights. It aims to reconcile the universality of value with (a) the social dependence of value and (b) the centrality to our life of deep attachments to people and countries alike. Building from there, the book explores personal love, the value of life, and the fundamental duty of respect for people.
