Winner of the 2017 Tony Award for Best Musical “Dear Evan Hansen lodges in your head long after you’ve seen it or heard it or read it. It feels like a pure expression from young writers at a crossroad of coming to terms with who they are and what they want to say about the world. Its honesty and truths haunt and ultimately open us up to ask the same question, no matter what our age or crossroad: What are the lies we tell ourselves?” -James Lapine (from the Foreword) “A gorgeous new musical. Rarely—scratch that—never have I heard so many stifled sobs and sniffles in the theater. For those allergic to synthetic sentiment, rest assured that the show, with a haunting score by Benj Pasek and Justin Paul, matched by a book of equal sensitivity by Steven Levenson, doesn’t sledgehammer home its affecting story. On the contrary, the musical finds endless nuances in the relationships among its characters, and makes room for some leavening humor too. The musical is ideal for families looking for something more complex than the usual sugary diversions. But then it should also appeal to just about anyone who has ever felt, at some point in life, that he or she was trapped “on the outside looking in,” as one lyric has it. Which is just about everybody with a beating heart.” -Charles Isherwood, New York Times “Ravishingly bittersweet... A marvelous score by Benj Pasek and Justin Paul, and an equally accomplished book by Steven Levenson...Dear Evan Hansen rolls onto some highly sensitive terrain—the writers are taking a serious look here at the ways in which we as a culture exploit others’ misfortunes, a phenomenon abetted by the high-speed interventions of social media. The delight here is that Pasek, Paul, and Levenson do understand how to make this seemingly unmusical idea sing, and sing grandly.” -Peter Marks, Washington Post “So fine in its craft and rich in its themes that, like the best works of any genre, it rewards being seen again—and again.” -Jesse Green, New York Magazine “Terrific, gripping, and heartfelt. With a gorgeously melodic score by Benj Pasek and Justin Paul, and a smart and soulful book by the

playwright Steven Levenson, Dear Evan Hansen feels like a theatrical beachhead planted by (and, partly, for) millennials.” –Adam Green, Vogue “Dear Evan Hansen is smartly crafted, emotionally open-hearted, and ideally cast. It has been embraced by millennials—yet its appeal is universal. Whatever your age, you’ll watch Dear Evan Hansen with the shock of recognition, and be touched by the honesty with which it portrays the smothering sensation of being an adolescent misfit, an awkward loser trapped in an indifferent world of self-assured winners.” –Terry Teachout, Wall Street Journal

A letter that was never meant to be seen, a lie that was never meant to be told, a life he never dreamed could be his. Evan Hansen is about to get the one thing he’s always wanted: a chance to belong. Deeply personal and profoundly universal, Dear Evan Hansen is a groundbreaking American musical about truth, fiction, and the price we’re willing to pay for the possibility to connect. \*This publication includes the book and lyrics to the musical, as well as a foreword by James Lapine. Please note that it does not include the musical score.\*

Steven Levenson is the book writer for Dear Evan Hansen. His plays include *If I Forget*, *The Unavoidable Disappearance of Tom Durnin*, *Core Values*, *The Language of Trees*, and *Seven Minutes in Heaven*. A graduate of Brown University, he served for three seasons as a writer and producer on Showtime’s *Master of Sex*. Benj Pasek & Justin Paul are the song-writing team behind Dear Evan Hansen. Previous musicals include *A Christmas Story: The Musical*, *Dogfight*, *James and the Giant Peach*, and *Edges*. Their film projects include *La La Land* (for which they won the Academy Award for Best Original Song for “City of Stars,” with composer Justin Hurwitz), *Trolls*, *Snow White*, and *The Greatest Showman*. Their television credits include *The Flash*, *Smash*, and *Johnny and the Sprites*. Both are graduates of the University of Michigan Musical Theatre Program and members of the Dramatists Guild of America, Inc. IN 1975, legendary value investor Benjamin Graham wrote that his net-net stock strategy

worked so well that he had renounced all other value investing strategies. In his 2014 shareholder letter, Warren Buffett wrote that he earned the highest returns of his career employing this 'cigar butt' approach to investing. And despite the widespread assumption that net-net stocks are a relic of the past, Graham's net-net stock strategy is just as viable today for small private investors as it was for Buffett's 'superinvestors' during their early careers. Net-net investing remains the most powerful value investing approach a small investor can adopt. This book is your ultimate practical guide to implementing it - and reaping the rewards - in today's markets. Evan Bleker has spent ten years studying Graham's strategy to uncover its real-world performance, how to employ it, and why it works. He's also dug deeply to identify additional criteria to boost returns and ensure a greater number of winners. In this book, Evan defines the strategy for investors, then walks readers through the strategy's philosophy, as well as academic and industry studies assessing the framework, and its implementation by world-class value investors such as Benjamin Graham, Warren Buffett, and Peter Cundill. He also compiles selection criteria into a practical checklist for investors, and documents how the strategy works in today's markets with exclusive detailed case studies. In recent decades Protestant evangelicalism has become a conspicuous and--to many Americans, worrisome--part of this country's cultural and political landscape. But just how unified is the supposed constituency of the Christian Coalition? And who exactly are the people the Christian Right claims to represent? In the most extensive study of American evangelicals ever conducted, Christian Smith explores the beliefs, values, commitments, and goals of the ordinary men and women who make up this often misunderstood religious group. The result is a much-needed contribution to the discussion of issues surrounding fundamental American freedoms and the basic identity of the United States as a pluralistic nation. Based on data from a three-year national study, including more than 200 in-depth

interviews of evangelicals around the country, Christian America? assesses the common stereotype of evangelicals as intolerant, right-wing, religious zealots seeking to impose a Christian moral order through political force. What Smith finds instead are people vastly more diverse and ambivalent than this stereotype suggests. On issues such as religion in education, "family values," Christian political activism, and tolerance of other religions and moralities, evangelicals are highly disparate and conflicted. As the voices of interviewees make clear, the labels "conservative" and "liberal" are too simplistic for understanding their approaches to public life and political action. Unsure where to begin, Evan must turn to his trusted band of employees for help, in the process exposing them to untold dangers. In the meantime, Cale Liston, son of John Liston, the CEO of ListCorp, blames Evan for turning his father against him and threatens everything Evan holds dear. The Bell Bandit: Siblings Evan and Jessie must solve the mystery of a missing cherished family treasure while coming to terms with their beloved grandmother's unsettling behavior. In a highly personal account, the author, Don Bliss, tells how he coped with the sudden passing of his eldest son, Evan, at age 35. Evan was fulfilling his passion as a singer-songwriter as he pursued his day job as a health informatics specialist working on HIV/AIDS. Returning from Kenya where he was training Kenyan medical personnel, he suffered a pulmonary embolism after sixteen hours of flying. Bliss shares a tribute to his son and how, he, as a father, was enriched by Evan's life-his music, humor, independent thinking and insatiable curiosity, athletic prowess, and deep understanding and expression of love in all its dimensions. Sharing insights from family, mentors, classmates, bandmates, colleagues at work, and his fans, Bliss relates how much he has learned about the many impactful ways that Evan lived his 35 years to the fullest. He wrote and performed some 100 songs that expressed his insightful personal philosophy about life and human relationships, which deeply touched many. 'A Malcolm Gladwell-style social psychology/behavioural economics primer' Evening Standard Low-level dishonesty is rife everywhere, in the form of exaggeration, selective use of facts, economy with the truth, careful drafting - from Trump and the Brexit debate to companies that tell us 'your call is important to us'. How did we get to a place where bullshit is not just rife but apparently so effective that it's become the communications strategy of our times? This brilliantly insightful book steps inside the panoply of deception employed in all walks of life and assesses how it has come to this. It sets out the surprising logic which explains why bullshit is both pervasive and persistent. Why are company annual reports often nonsense? Why should you not trust estate

agents? And above all, why has political campaigning become the art of stretching the truth? Drawing on behavioural science, economics, psychology and of course his knowledge of the media, Evan ends by providing readers with a tool-kit to handle the kinds of deceptions we encounter every day, and charts a route through the muddy waters of the post-truth age. Molecular biologist Evan Pannick encounters complete powerlessness in the midst of a personal medical crisis that his doctors do not understand, when he and his girls soccer team are held hostage by an inmate at the Federal Correctional Institute in Lexington, Kentucky. Modern medicine is supposed to have all the answers. Inmates in Federal Prisons are not supposed to be able to take hostages outside prison walls. Molecular biologist Evan Pannick is just supposed to get his biomedical grant out on time, coach soccer and enjoy his quietly subdued academic life. On *One Freak Day* everything changes and Evan Pannick finds himself unwillingly transferred from his peaceful academic world to the center of a deepening dilemma fraught with multiple challenges in an escalating situation that threatens him, his daughter and the girls he coaches. Centered in Lexington, Kentucky, the story shuttles between hometown quirkiness and the Federal Prison on the outskirts of town. *Evans War* is the sweeping tale of a young coalminer whose life takes a dramatic turn when he joins the army at the onset of the First World War and is sent to fight the Turks at Gallipoli. The book traces the saga

of Evan Morgan from childhood in a small coalmining town in the Rhondda Valley of South Wales to Turkey and beyond. The cast of characters includes Welsh and English, Turk and Armenian, American, Australian and Indian. Leaving behind his childhood sweetheart, Gwyn, with a promise of marriage once the war ends, Evan arrives in Gallipoli unprepared for the horrors of trench warfare. But he finds an inner strength that sustains him during the terror of the landings and ensuing campaign against the solidly entrenched Turkish army. When he is wounded and taken prisoner, Evan finds himself in a prison hospital near what was then Constantinople. A series of events brings him to seek refuge from the war in a seemingly serene farming village on the shores of the Bosphorus populated by Turks and Armenians. Here, while seeking peace and contentment, he falls increasingly under the spell of a beautiful but mute Armenian girl with a tragic past. And it is here that the course of his life changes in ways he could never have imagined. Evans story is one of divided loyalties: the emotional pull of his homeland and the peaceful, bucolic life he finds in the village; his love for the free-spirited poet he left behind in Wales, and for the Armenian village girl. It is also one of conflict between nations, and between neighbors who cannot live together in peace. Above all it is a tale of Evan Morgans journey from childhood to maturity in a world gone mad.

Sixteen-year-old Hamilton Dinger leads a charmed life. He's got the grades for the top of the class, the abilities of a star athlete and Tetris player, and the charisma to get away with anything. Everything seems to be going along perfectly as he enters into tenth grade at Apollo Central High School. Everything, that is, until a meteor crashes into the city, releasing the Seven Deadly Sinisters and their leader, Orpheus, from their celestial prison, and awakening Hamilton's longtime dormant supernatural abilities. Suddenly Hamilton finds himself reluctantly allied with his self-declared mentor, Elysian, a changeling dragon, and Starry Knight, a beautiful but dangerous warrior, as they

seek to protect the souls of Apollo City from the Sinisters and their evil intentions. Can Hamilton give up his self-proclaimed entitlement to happiness in order to follow the call of a duty he doesn't want? More importantly, will he willingly sacrifice all he has to find out the truth? This is a revised and updated edition of Evan Mawdsley's acclaimed global history of World War II. Beginning with the outbreak of the Sino-Japanese War, Evan Mawdsley shows how the war's origins lay in a conflict between the old international order and the new and traces its globalisation as it swept through Asia, Europe and the Middle East. The primary focus is on the war's military and strategic history, though also examines the political, economic, ideological and cultural factors which influenced the course of events. The war's consequences are examined too, not only in terms of the defeat of the Axis but also of the break-up of colonial empires and the beginning of the Cold War. Accessibly written and well-illustrated with maps and photographs, the book also includes insightful short studies of the figures, events and battles that shaped the war, as well as fully updated guides to further reading. The book includes three full-length plays: *Shadow Anthropology* (a dark comedy about the U.S. occupation of Afghanistan), *Through the Roof* (a Faustian trip through the social history of natural disaster in New Orleans), and *Celestial Flesh* (a sacrilegious romp through the 1980s sanctuary movement, sacred sex, and CIA drug running in a Los Angeles Catholic Church). Placing the plays within an historical and thematic context, the author introduces the collection with an essay examining catastrophe, capitalism, and what he calls *Apocalypse Theatre for the Twenty-First Century*. You are stupid; My little sister in second grade reads better than you; You go to the Retard Class. These are the taunts heard by the people whose stories you will read. Some teachers and counselors added to the problem by remarks: You will never go to college, You need a vocation in which you can use your hands, You cant handle a college prep course, College for YOU You are

kidding yourself, No college will ever accept you. Drawing on never-before-published original source detail, the epic story of two of the most consequential, and largely forgotten, moments in Supreme Court history. For two hundred years, the constitutionality of capital punishment had been axiomatic. But in 1962, Justice Arthur Goldberg and his clerk Alan Dershowitz dared to suggest otherwise, launching an underfunded band of civil rights attorneys on a quixotic crusade. In 1972, in a most unlikely victory, the Supreme Court struck down Georgia's death penalty law in *Furman v. Georgia*. Though the decision had sharply divided the justices, nearly everyone, including the justices themselves, believed *Furman* would mean the end of

executions in America. Instead, states responded with a swift and decisive showing of support for capital punishment. As anxiety about crime rose and public approval of the Supreme Court declined, the stage was set in 1976 for *Gregg v. Georgia*, in which the Court dramatically reversed direction. *A Wild Justice* is an extraordinary behind-the-scenes look at the Court, the justices, and the political complexities of one of the most racially charged and morally vexing issues of our time. This volume is intended as a reference for those interested in the relationship between business strategy and business ethics, broadly conceived. Several articles have been selected from various leading journals in management, strategy and ethics. An introductory chapter provides an overview of the articles but it also relates them systematically to a fundamental dualism involving values, ethics and politics, all viewed from the perspective of business and business studies. In 2008, the University of Pittsburgh Medical Centers (UPMC) hoisted its logo atop the U.S. Steel Building in downtown Pittsburgh, symbolically declaring that the era of big steel had been replaced by the era of big medicine for this once industrial city. More than 1,200 miles to the south, a similar sense of optimism pervaded the public discourse around the relationship between health care and the future of Houston's economy. While traditional Texas industries like oil and natural gas still played a critical role, the presence of the massive Texas Medical Center, billed as "the largest medical complex in the world," had helped to rebrand the city as a site for biomedical innovation and ensured its stability during the financial crisis of the mid-2000s. Taking Pittsburgh and Houston as case studies, *The Medical Metropolis* offers the first comparative, historical account of how big medicine transformed American cities in the postindustrial era. Andrew T. Simpson explores how the hospital-civic relationship, in which medical centers embraced a business-oriented model, remade the deindustrialized city into the "medical metropolis." From the 1940s to the present, the changing

business of American health care reshaped American cities into sites for cutting-edge biomedical and clinical research, medical education, and innovative health business practices. This transformation relied on local policy and economic decisions as well as broad and homogenizing national forces, including HMOs, biotechnology programs, and hospital privatization. Today, the medical metropolis is considered by some as a triumph of innovation and revitalization and by others as a symbol of the excesses of capitalism and the inequality still pervading American society.
