Brewer's Dictionary of Phrase and Fable Mar 23 2020 For over a hundred years 'Brewer's Dictionary of Phrase and Fable' has been one of the best-known and best-loved works of reference in the English language. But the book has not stood still for a hundred years. Although it is solidly based on the prodigious learning of Ebenezer Cobham Brewer, who first compiled it in 1870, this useful volume has always kept up with the times and with English as a world-wide language. Each revision has seen the judicious addition of new phrases to Brewer's firm foundation. The ephemeral has always been avoided but every phrase that has stood the test of time and become established in general use is included with both explanation and source. The present revised edition has about 300 new entries, while many of those already existing have been expanded and modified with the aim of increasing their interest and informativeness. New developments in scholarship have also been noted and have been treated with the familiar disarming quirkiness. With suggestions coming to the author from correspondents all over the world, more of those special "oddities" have been included.

The Noun Phrase in English Jul 19 2022 Building on a substantial earlier literature, the chapters in this volume further advance knowledge and understanding of properties of the noun phrase in English. The empirical material for the papers includes both historical and present-day data, with the two often shedding light on each other in a process of mutual illumination. The topics addressed are: the structure of nounless NPs like the poor and the obvious; the article/zero alternation in expressions like go to (the) church; developments in the early history of adjective stacking; the semantics of N + clause units in present-day English; the history of N + BE +

clause constructions; and the decline of two anaphoric NPs in Early Modern English. The volume will appeal to scholars working in this area and will also help those interested in the general field of English grammar to keep abreast of recent methods and results in NP-related work.

Noun Phrase Structure in the Languages of Europe Jun 06 2021 The result of over five years of close collaboration among an international group of leading typologists within the EUROTYP program, this volume is about the morphology and syntax of the noun phrase. Particular attention is being paid to nominal inflectional categories and inflectional systems and to the syntax of determination, modification, and conjunction. Its areal focus, like that of other EUROTYP volumes, is on the languages of Europe; but in order to appreciate what is peculiarly European about their noun phrases, a more comprehensive and genuinely typological view is being taken at the full range of cross-linguistic variation within this structural domain. There has been no shortage lately of contributions to the theory of noun phrase structure; the present volume is, however, unique in the extent to which its theorizing is empirically grounded.

Corpus Linguistics Beyond the Word Feb 20 2020 This volume will be of

particular interest to readers interested in expanding the applications of corpus linguistics techniques through new tools and approaches. The text includes selected papers from the Fifth North American Symposium, hosted by the Linguistics Department at Montclair State University in Montclair New Jersey in May 2004. The symposium papers represented several areas of corpus studies including language development, syntactic analysis, pragmatics and discourse, language change, register variation, corpus creation and annotation, and practical applications of corpus work, primarily in language teaching, but also in medical training and machine translation. A common thread through most of the papers was the use of corpora to study domains longer than the word. Not surprisingly, fully half of the papers deal with the computational tools and linguistic strategies needed to search for and analyze these longer spans of language while most of the remaining papers examine particular syntactic and rhetorical properties of one or more corpora.

The Traditional Phrase in Homer Aug 08 2021 This study attempts to bridge the now classic gap between fixed form and functioning context which continues to limit our understanding of the Homeric phrase. The first part of the study uses the presence of Homeric phrases in other Greek poetry, especially the notoriously "Homeric" Theognis 237-254, to help identify potentially significant phrases. The second part considers the epithets of Hector, in an attempt to re-examine Parry's notion of traditional fixed epithets and their importance for understanding the Iliad and the Odyssey. The author offers original interpretations of the workings of the traditional phrase in Homer, and also of Theognis 237- 254 and of the Iliad's much-debated characterization of Hector. Along the way, Sacks suggests how his

method may help with other problems, including contested emendations in Homer, the relationship of the Iliad and the Odyssey, and the relationship between epic and other genres. The central concern of the book, however, is the traditional artistry of Homer.

The study is based on an examination of the Nijmegen Corpus, which consists of slightly over 130,000 words of running text. The structure of the NP is described basically in terms of four constituents: DeterminerPremodifierHeadPostmodifier No fewer than 2,430 occurrences of postmodifying clauses in NPs were analysed. A highly intelligent teacher of long experience has happily laid down the correct method of teaching or learning the art of phrasing. If the teacher, he says, will take up one principle at a time, explain it to the pupil, and give him a sufficient number of phrases to accustom him to its application, and the next day take up another in the same way, and so on from day to day, he will find that the pupil will soon be able to write phrases as naturally as he writes single words. But where is the text-book by means of which phrasing can be thus learned or taught? Where is the book which will inspire the student, in the language.
