Join Diaw as he escapes from stampeding wildebeests, comes face-to-face with lions, and discovers why you should never come between a hippo and its watery home. Through engaging stories and photos by Diaw, readers will discover a whole new side to this basketball champ. National Geographic Kids Chapter books pick up where the best-selling National Geographic Readers series leaves off, offering young animal lovers who are ready for short chapters lively, exciting, full-color true stories--just right to carry in backpacks, share with friends, and read under the covers at night. More than a story about one brave lion, this book offers an introduction to life science by looking at the workings of an ecosystem, the methods of scientists and environmentalists, and the interconnection between the plant, animal, and human systems. Provides information about these playful mammals, including their aquatic habitats, diet, physical characteristics, and behaviors. Adorably cute and amazingly fast, the cheetah is a perennial favorite among kids. This National Geographic Reader will delight kids with beautiful photographs and mind-boggling facts about this majestic and mysterious cat. Did you know a cheetah can go from 0 to 60 mph in less than 3 seconds? True to the National Geographic Kids' style and trusted reputation, snack size bites of information provide easily digestible learning that fulfills both the reader's curiosity and sense of achievement. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information. Describes the habitat, food habits, and social behaviors of meerkats, and explains how they protect themselves from predators. An introduction to lions covers where they live, what they eat, and how they communicate, and follows the animal's development from cub to adult. Little Lion wants to be the loudest, the biggest, and the prettiest animal on the savannah! But when the other animals outdo Little Lion again and again, who will lovingly remind the discouraged young cub that there are many ways to be the best? Celebrating the life, growth, and development of six baby animals, *Starting Out* narrates the tale of growing up in the wild. This new series employs simple language and a unique first-person perspective to introduce foundational biological concepts as it follows the adorable animal through the start of its young life. The straightforward text and large photos of the animal in its natural environment will both entertain and enlighten as readers learn how the animal's physical features, diet, habitat, and familial relationships play a role in its growth and development. A baby lion narrates the story of its life, describing how physical features, diet, habitat, and familial relationships play a role in its growth and development. An introduction to the worlds of the tiger, jaguar, leopard, and lion. Describes the physical features, habitat, and life cycle of African lions. Introduces readers to the life, diet, habitat, behavior, and physical description of lions. Colorful spreads, fun facts, diagrams, a range map, and a special reading feature make this an exciting read for animal lovers and report writers alike. Ponies is replete with brilliant photographs and catchy content that will both teach and entertain. Children will be captivated as they watch a brand new baby foal walk within minutes of being born then quickly turn into one of the most graceful animals on Earth. Like all of our level 1 readers written by skilled children's books authors, this title invites kids to learn more about their

favorite topics in a familiar format that instills success. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information. African lions are powerful hunters. Newborn cubs are born with their eyes tightly closed. Their eyes open at about a week old. Lion cubs grow up in a group called a pride. Cubs learn how to hunt by watching the adults. How do baby lions grow and change? Read this book to find out! This title also includes a life cycle diagram, a habitat map, fun facts, a glossary, and more! Combines engaging facts with photography in a species portrait that reveals the real-life survival challenges that have caused lions to become endangered, sharing information about what kids can do to help. In this charming picture book for pre-schoolers, curious kids will learn all about the wild world of lions - one of nature's most fascinating and charismatic creatures. From pigeon pizza parties in New York City to koala street crossings in Australia, wild animals all over the world show us how they live in cities, interact with humans, and strut their street smarts in this new reader from National Geographic Kids. Discusses physical characteristics, behavior, habitats, and life cycle of wild cats. Even the King of the Jungle needs help sometimes, but who is brave enough to help such a powerful beast? Courage comes in all sizes in Aesop's classic fable, The Lion and the Mouse. Readers who are familiar with this timeless tale and those who are new to the story will love the simple, beautiful language of this retelling. Endearing illustrations enrich the narrative and draw in even reluctant readers. The unlikely friendship between a grouchy lion and a fearless mouse introduces readers to important concepts such as respecting differences and using one's weaknesses as strengths. With relatable characters and a poignant moral, this book is sure to become a favorite in any library. 'Bravely pursued, acutely observed and elegantly told.' John Vaillant, author of *The Tiger* 'Urgent and important. This moving tale with a heroic cast of characters, leonine and human, is a must-read for anyone passionate about wildlife and wild places.' Tony Park, author of *Last Survivor* This is the riveting and illuminating story of Australian writer Anthony Ham's extraordinary journey into the world of lions. Haunted by the idea that they might disappear from the planet in our lifetime, he ventured deep into the African wilderness, speaking to local tribespeople and activists as well as to rangers, scientists and conservationists about why lions are close to extinction and what can be done to save them. In *The Last Lions of Africa*, we walk alongside Anthony as he reveals the latest extraordinary science surrounding the earth's dwindling lion populations and their often surprising relationship to mankind. As he uncovers heartbreaking and astonishing accounts of individual lions, prides and habitats, each chapter unfolds as both gripping campfire story and deeply researched exploration of larger mysteries in the natural world. Anthony's vivid storytelling weaves together natural history, ancient lore and multidisciplinary science to show us a world in which human populations are growing and wild lands are shrinking; where lions and indigenous peoples fight not for sovereignty over the land but for their very existence. In this gripping and crucial book, Anthony Ham brings Africa, its people and its endangered lions to magnificent life and shows the surprising ways those last lions might be saved. "Meet these amazing marine mammals! This book explores the ocean habitat and behaviors of sea lions, including pup raising and colony life. A folk talk explains why fishers in Japan respect these animals"-- From the UK bestselling author of *I, Cosmo* comes an inspirational guide to living your best life -- with a wild twist. Every animal is wonderful at being themselves, and if we're observant, we can let them teach us how to be our kindest, bravest, best selves as well. Humans are a unique species, but still very much a part of the animal kingdom. We dream like cats, grieve like whales, bond like barn owls. In *Roar Like a Lion*, you'll find advice from some of the wisest creatures on Earth: Dogs who exhibit mindfulness. Penguins who pick perfect pebbles and refuse to care about what other penguins think. Every animal illustrates how they thrive, offering a model of how you might choose to thrive too. If we're willing to listen -- to follow the pawprints that lead us to that kinder, braver, more courageous way of life. Bursting with fascinating facts, remarkable true stories and a whole lot of heart, Carlie Sorosiak has written an uplifting call to arms, inspiring children to listen to the roar of the wild and grow as human beings... while having plenty of fun along the way! Katie Walker's stylish illustrations build a real partnership between the words and pictures. A stunning package that can make a real difference in children's

lives, *Roar Like a Lion* sparkles with wit, wisdom and warmth. National Geographic Primary Readers is a high-interest series of beginning reading books that have been developed in consultation with education experts. The books pair magnificent National Geographic photographs with lively text by skilled children's book authors across four reading levels. Level 1: Early reader These books contain simple sentences and are just right for kids who can decode with ease and are beginning to read fluently. They are ideal for readers of Yellow and Blue banded books. Join the little lion cub on his day of adventures on the African savanna. Watch him run, jump, play, eat, and sleep, cuddle with Mum, and roll around with his brother and sister. Told in simple yet lively text, *Go, Cub!* will enchant kids who are just beginning their reading journey. National Geographic Primary Readers is a high-interest series of beginning reading books that have been developed in consultation with education experts. The books pair magnificent National Geographic photographs with lively text by skilled children's book authors across four reading levels. Level 4: Independent reader Perfect for kids who are reading on their own with ease and are ready for more challenging vocabulary with varied sentence structures. They are ideal for readers of White and Lime books. Did you know that a tiny golf ball-sized creature called the blue-ringed octopus contains enough venom to kill 26 adult humans? Or why the Sydney funnel web spider is one of the most dangerous creatures in the world? In this level 4 book, kids will be fascinated by 12 species that you hope you'll never come across!
