Blockaders, Refugees &
Contrabands Feb 16 2022
Blockaders, Refugees, and
Contrabands chronicles the
role of the East Gulf Blockading
Squadron in creating civil strife
and warfare along the west
coast of Florida during the Civil
War. This history illuminates

progrep.eiti.org

the Squadron's impact on
Florida - the Confederate state
most susceptible to actions by
the U.S. Navy - and the far-
reaching effects of its activities
on the outcome of the War.
Initially the East Gulf
Blockading Squadron gave no
indication that, with its allies -
Florida's refugees and
contrabands (escaped slaves) -
it would create a civil war
within Florida. When the
Squadron raided the mainland
it found sympathizers ashore
who helped the sailors cut out
blockade-runners, harass the
enemy, and destroy coastal salt
works. As the number of
refugees and contrabands
increased they became a
source of manpower for the

Squadron. After Confederate
conscripts and army deserters
fled to the impenetrable
swamps of Florida's Gulf Coast,
they turned to the Squadron for
succor and aid. In time the
blockaders, refugees, and
contrabands joined forces to
participate in fluid partisan
combat actions. When Federal
control of the Mississippi River
cut the South's supply of
western beef, the Confederacy
turned to south Florida. The
Union army enlisted the
Squadron's refugees into the
U.S. Second Florida Cavalry to
keep the beef from rebel
armies. This action elevated
the conflict from guerrilla to
conventional war. Additionally,
the Second Infantry Regiment,

U.S. Colored Troops, fought beside the blockaders and refugees, freeing and recruiting contrabands. All blockading squadrons had contacts with refugees and contrabands, but only the East Gulf Blockading Squadron utilized these allies to foster a civil war. The subsequent salt and cattle raids struck blows that were felt beyond the state and had a devastating impact on the balance of the Confederacy and on the ultimate course of the Civil War.

Suffering in Paradise Jul 29 2020 In *Suffering in Paradise*, Rebecca Totaro provides a unique and timely discussion of the bubonic plague as it shaped

Literary Studies in England from 1500 through the first half of the eighteenth century. Within the experience and accounts of bubonic plague, men and women found their own understanding of the body, of the human relationship with nature, and of the degree to which they had faith in their nation and their God. An early modern writer's reading of the plague shows us in detail what he or she believes to be the parameters within which life is lived. Focusing on the broadest of these parameters, Totaro examines hope and despair as displayed within a range of imaginary realms designed to include and control the bubonic plague. Each of the works in

this study--Thomas More's *Utopia*, William Shakespeare's *Timon of Athens*, Ben Jonson's *The Alchemist*, Francis Bacon's *The New Atlantis*, Margaret Cavendish's *The Blazing World*, and John Milton's *Paradise Lost*--provides literary and English answers that cohere in stunning form and resonate today.

Theories of the Policy Process

Nov 13 2021 Theories of the Policy Process provides a forum for the experts in the most established and widely used theoretical frameworks in policy process research to present the basic propositions, empirical evidence, latest updates, and the promising future research opportunities of each framework. This well-regarded volume covers such enduring classics as Multiple Streams (Zahariadis et al.), Punctuated Equilibrium (Jones et al.), Advocacy Coalition Framework (Jenkins-Smith et al.), Institutional Analysis and Development Framework (Schlager and Cox), and Policy

Diffusion (Berry and Berry), as well as two newer theories—Policy Feedback (Mettler and SoRelle) and Narrative Policy Framework (McBeth et al.). The fourth edition now includes a discussion of global and comparative perspectives in each theoretical chapter and a brand-new chapter that explores how these theories have been adapted for, and employed in, non-American and non-Western contexts. An expanded introduction and revised conclusion fully examines and contextualizes the history, trajectories and functions of public policy research. Since its first publication in 1999, Theories of

the Policy Process has been, and remains, the quintessential gateway to the field of policy process research for students, scholars and practitioners.

The Oxford Handbook of Organizational Paradox Apr 18

2022 Organisations are rife with paradoxes, evident in persistent and interwoven tensions for example between stability and change, flexibility and control, diversity and inclusion, long term and short term, social and financial, learning and performing. This handbook investigates paradoxes across various organisational phenomena and levels of analysis.

Urban Stormwater Management in the United

States Aug 30 2020 The rapid conversion of land to urban and suburban areas has profoundly altered how water flows during and following storm events, putting higher volumes of water and more pollutants into the nation's rivers, lakes, and estuaries. These changes have degraded water quality and habitat in virtually every urban stream system. The Clean Water Act regulatory framework for addressing sewage and industrial wastes is not well suited to the more difficult problem of stormwater discharges. This book calls for an entirely new permitting structure that would put authority and accountability for stormwater discharges at the

municipal level. A number of additional actions, such as conserving natural areas, reducing hard surface cover (e.g., roads and parking lots), and retrofitting urban areas with features that hold and treat stormwater, are recommended.

Director of Facilities

Planning Nov 01 2020 The Director of Facilities Planning Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: principles and practices of building

construction; building construction materials and standards, and their application; coordination of multiple contract projects; mechanical and electrical systems in buildings; preparing written material; and more.

Making the Sustainable

University Aug 22 2022 This book documents strategies for universities engaging sustainability challenges through the education of global citizens on topics such as climate change, habitat alteration, species loss, resource depletion and contamination, food access and sovereignty, economic equity, and energy use. Different disciplines and operational

units often have disparate ideas in mind when they work toward advancing sustainability. For example, some disciplines focus on environmental challenges (identifying impacts to ecosystems, mitigation and remediation strategies), some on greening of industrial and commercial practices while others address social equity—often there is little effort to connect these pieces especially while considering economic impacts. This book examines how Florida Gulf Coast University has attempted to infuse sustainability across curricula and operations as an integrated concept and our successes and shortcomings

are instructional for sustainability practitioners on college campuses and other industries in a wide audience. World Public Sector Report Dec 22 2019 The World Public Sector Report will be published every two years with the intention of reviewing major trends and issues concerning public administration and governance. This inaugural issue of the report considers the process of globalisation and the challenges and opportunities it offers for the role of the public sector in countries around the world. It is increasingly being acknowledged that the State is a key actor in the development process and has a major role to

play in making globalisation work for all, for example in alleviating poverty and income inequality, advancing human rights, promoting sustainable development and combating international crime. Issues discussed in the report include: the many facets of globalisation; its impact on the State; reinforcing state institutions and social policies; defining and measuring the size of the State.

Lectures on nursing Dec 02 2020

White Space Is Not Your Enemy Jan 03 2021 *White Space Is Not Your Enemy* is a practical graphic design and layout guide that introduces concepts and practices

necessary for producing effective visual communication across a variety of formats—from web to print. Sections on Gestalt theory, color theory, and WET layout are expanded to offer more in-depth content on those topics. This new edition features new covering current trends in web design—Mobile-first, UI/UX design, and web typography—and how they affect a designer’s approach to a project. The entire book will receive an update using new examples and images that show a more diverse set of graphics that go beyond print and web and focus on tablet, mobile and advertising designs.

The Restatement and

progrep.eiti.org

Beyond Jun 08 2021 "These essays provide a comprehensive survey of the most significant issues in contemporary U.S. foreign relations law. They respond to the recently published Fourth Restatement of the Foreign Relations Law. They review the context and assumptions on which that work relied, criticize that work for its analysis and conclusions, and explore topics left out of the published work that need research and development. Collectively the essays provide an authoritative study of the issues generating controversy today as those most likely to emerge in the coming decade. The book is organized in three parts. The

first provides a historical context for the law of foreign relations from the beginning of the twentieth century, when the United States first envisioned itself as a peer and competitor of the major European powers, to the present, when the United States, although a hegemon, faces deep unrest and uncertainty with respect to its position in the world. The second and largest part looks at contested issues in foreign relations law today, from the status of international law as federal domestic law to presidential authority to make, unmake, and apply international agreements to the immunity from domestic

lawsuits of international organizations and foreign government officials. The last considers what this body of law might look like in the future as well as the difficulties raised by using the Restatement process as a way of contributing to the law's development. These essays for the most part concentrate on U.S. law, but the problems they face are common to all democratic republics that seek to reconcile international relations with the rule of law"--

Official Florida Statutes Dec 14 2021

Journal of the Senate, State of Florida May 07 2021

Tampa Bay Magazine Jun 20 2022 Tampa Bay Magazine is

the area's lifestyle magazine. For over 25 years it has been featuring the places, people and pleasures of Tampa Bay Florida, that includes Tampa, Clearwater and St. Petersburg. You won't know Tampa Bay until you read Tampa Bay Magazine.

Higher Education: Handbook of Theory and Research Oct 20 2019 Published annually since 1985, the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities. Each chapter provides a comprehensive review of research findings on a selected

topic, critiques the research literature in terms of its conceptual and methodological rigor, and sets forth an agenda for future research intended to advance knowledge on the chosen topic. The Handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community. The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world.

Management Information

Systems Jul 09 2021

Management Information

Systems provides

comprehensive and integrative

coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases. Hotel Operations Management Mar 05 2021 Prepare future hotel general managers to efficiently supervise and run a midsize full-service hotel. Hotel Operations Management provides an up-to-date and comprehensive examination of all aspects of hotel

administration from the viewpoint of the hotel general manager. Detailed information addresses the operating departments of a full-service hotel: Human Resources; Controller; The Front Office; Housekeeping; Food and Beverage; Safety and Property Security; Sales and Marketing; Accounting; and Facility Engineering and Maintenance. In-depth discussions highlight the importance of human resources in the labor-intensive hotel industry, franchising and contract management of properties in an ever-decreasing "Mom and Pop" segment, and hotel management in a global environment. Updated

throughout to ensure that readers have the latest information, the Third Edition also includes new case studies, an entirely new chapter on guest services, and new end-of-chapter questions. This accurate book will give prospective hotel managers insight into all of the procedures effective managers use to ensure their hotel's--and their own--success. **Digital and Social Media Marketing** Jan 15 2022 This book examines issues and implications of digital and social media marketing for emerging markets. These markets necessitate substantial adaptations of developed theories and approaches

employed in the Western world. The book investigates problems specific to emerging markets, while identifying new theoretical constructs and practical applications of digital marketing. It addresses topics such as electronic word of mouth (eWOM), demographic differences in digital marketing, mobile marketing, search engine advertising, among others. A radical increase in both temporal and geographical reach is empowering consumers to exert influence on brands, products, and services. Information and Communication Technologies (ICTs) and digital media are having a significant impact on

progrep.eiti.org

the way people communicate and fulfil their socio-economic, emotional and material needs. These technologies are also being harnessed by businesses for various purposes including distribution and selling of goods, retailing of consumer services, customer relationship management, and influencing consumer behaviour by employing digital marketing practices. This book considers this, as it examines the practice and research related to digital and social media marketing.

Developing an Effective Evaluation Plan Aug 10 2021

This workbook applies the CDC Framework for Program Evaluation in Public Health. The purpose of this workbook

is to help public health program managers, administrators, and evaluators develop a joint understanding of what constitutes an evaluation plan, why it is important, and how to develop an effective evaluation plan in the context of the planning process. This workbook is intended to assist in developing an evaluation plan but is not intended to serve as a complete resource on how to implement program evaluation.

Leading and Managing Change in the Age of Disruption and Artificial Intelligence Nov 20 2019

This book explores disruption and artificial intelligence in an organisational context to

inform and prepare those that are in management positions now and into the future.

University Social Responsibility and Quality of Life Sep 11 2021

This book provides a critical review of the theory and practice of University Social Responsibility. In addition to addressing the nature of and concepts surrounding University Social Responsibility, as well as its ties to areas such as service learning or engaged scholarship, the book also presents effective practices from around the world.

Dedicated chapters demonstrate how University Social Responsibility can manifest itself in different

types (civic, moral, economic or global responsibility), levels (local, national, regional or international), and formats (partnership, venture or joint project), depending on local contexts and needs. The book also focuses on three areas of work - educating students to take on social responsibility, broadening access to education, and applying knowledge to societal problems - to highlight the potential and viable ways University Social Responsibility can be employed to promote quality of life in society. Offering a unique resource, it is intended to stimulate thinking and expand the repertoire of all educators, administrators, and

organizations who wish to incorporate societal needs into their core mission and promote quality of life in different communities around the world.

Reproduction of Copyrighted Works by Educators and Librarians Feb 28 2023

The White House Boys May 19 2022 Hidden far from sight, deep in the thick underbrush of the North Florida woods are the ghostly graves of more than thirty unidentified bodies, some of which are thought to be children who were beaten to death at the old Florida Industrial School for Boys at Marianna. It is suspected that many more bodies will be found in the fields and swamplands surrounding the institution.

Investigations into the unmarked graves have compelled many grown men to come forward and share their stories of the abuses they endured and the atrocities they witnessed in the 1950s and 1960s at the institution. The White House Boys: An American Tragedy is the true story of the horrors recalled by Roger Dean Kiser, one of the boys incarcerated at the facility in the late fifties for the crime of being a confused, unwanted, and wayward child. In a style reminiscent of the works of Mark Twain, Kiser recollects the horrifying verbal, sexual, and physical abuse he and other innocent young boys endured at the hands of their

"caretakers." Questions remain unanswered and theories abound, but Roger and the other 'White House Boys' are determined to learn the truth and see justice served.

Digital Diploma Mills Jan 23 2020 An analysis that cuts through the rhetorical claims of the higher education through internet that these developments will bring benefits for all.

Economics in Christian Perspective Apr 06 2021 Victor Claar and Robin Klay introduce students to the basic principles of economics and then evaluate the principles and issues as seen from a Christian perspective. This textbook places the economic life in the

context of Christian discipleship and stewardship. This text is for use in any course needing a survey of the principles of economics. Part Blood, Part Ketchup Feb 04 2021 Analyzes novels by 20th century authors - Edith Wharton, J D Salinger, Philip Roth, John Irving, and Jamaica Kincaid, looking at the trends that obliterate cultural divides.

Issues and trends in education for sustainable development Dec 26 2022 Education for Sustainable Development (ESD) is globally acknowledged as a powerful driver of change, empowering learners to make decisions and take actions needed to build a just and economically viable

society respect ful of both the environment and cultural diversity.

Bureaucracy and Democracy

May 27 2020 Given the influence of public bureaucracies in policymaking and implementation, Steven J. Balla and William T. Gormley assess their performance using four key perspectives—bounded rationality, principal-agent theory, interest group mobilization, and network theory—to help students develop an analytic framework for evaluating bureaucratic accountability. The new Fourth Edition provides a thorough review of bureaucracy during the Obama and Trump

administrations, as well as new attention to state and local level examples and the role of bureaucratic values.

Machine Scoring of Student Essays Mar 25 2020 The current trend toward machine-scoring of student work, Ericsson and Haswell argue, has created an emerging issue with implications for higher education across the disciplines, but with particular importance for those in English departments and in administration. The academic community has been silent on the issue—some would say excluded from it—while the commercial entities who develop essay-scoring software have been very active. Machine

Scoring of Student Essays is the first volume to seriously consider the educational mechanisms and consequences of this trend, and it offers important discussions from some of the leading scholars in writing assessment. Reading and evaluating student writing is a time-consuming process, yet it is a vital part of both student placement and coursework at post-secondary institutions. In recent years, commercial computer-evaluation programs have been developed to score student essays in both of these contexts. Two-year colleges have been especially drawn to these programs, but four-year institutions are moving to them

as well, because of the cost-savings they promise. Unfortunately, to a large extent, the programs have been written, and institutions are installing them, without attention to their instructional validity or adequacy. Since the education software companies are moving so rapidly into what they perceive as a promising new market, a wider discussion of machine-scoring is vital if scholars hope to influence development and/or implementation of the programs being created. What is needed, then, is a critical resource to help teachers and administrators evaluate programs they might be considering, and to more fully

progrep.eiti.org

envision the instructional consequences of adopting them. And this is the resource that Ericsson and Haswell are providing here. [Blockaders, Refugees, and Contrabands](#) Sep 23 2022 *Blockaders, Refugees, and Contrabands* chronicles the role of the East Gulf Blockading Squadron as an important Federal contingent in Florida. *Florida Administrative Weekly* Jul 21 2022 *Managing Housekeeping Operations (AHLEI)* Feb 22 2020 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book.

Housekeeping is critical to the success of today's hospitality operations. The third edition of this textbook shows what it takes to direct day-to-day operations of this department, from big-picture management issues to technical details for cleaning each area. **Can Life Prevail?** Jan 27 2023 With the train of civilisation hurtling at ever-increasing speed towards self-destruction, the most pressing question facing humanity in the 21st century is that of the preservation of life. *Can Life Prevail?*, the latest book by Finnish environmentalist Pentti Linkola, provides a radical yet firmly grounded perspective on the ecological problems

threatening both the biosphere and human culture. With essays covering topics as diverse as animal rights, extinction, deforestation, terrorism and overpopulation, *Can Life Prevail?* for the first time makes the lucid, challenging writing of Linkola available to an English-speaking public. "By decimating its woodlands, Finland has created the grounds for prosperity. We can now thank prosperity for bringing us - among other things - two million cars, millions of glaring, grey-black electronic entertainment boxes, and many unnecessary buildings to cover the green earth. Wealth and surplus

money have led to financial gambling and rampant social injustice, whereby 'the common people' end up contributing to the construction of golf courses, classy hotels, and holiday resorts, while fattening Swiss bank accounts. Besides, the people of wealthy countries are the most frustrated, unemployed, unhappy, suicidal, sedentary, worthless and aimless people in history. What a miserable exchange." Kaarlo Pentti Linkola was born in Helsinki in 1932. Having spent most of his life working as a professional fisherman, he now continues to lead a materially simple existence in the countryside. A renowned figure in Finland, since the 1960s

Linkola has published numerous books on environmentalism. Today, he is among the foremost exponents of the philosophy of deep ecology.

Managing Knowledge-Based

Initiatives Oct 24 2022

Managing Knowledge-Based Initiatives from Pilot to Enterprise Deployment shows practitioners how to take their successful knowledge management pilot programs and to successfully expand them throughout the organization. Keeping the unique challenges of knowledge-based work in mind, Stacy Land explores what knowledge managers/project managers must know to

effectively navigate within their organizations, position their work in a value-based framework, and publicize their work to increase buy-in. Topics include avoiding common sand traps, working with committees and multiple departments, compliance, entering a new world of politics and funding, achieving organizational alignment, developing and executing on a value proposition, negotiating executive sponsorship, and more.

[Ethics Management for Public Administrators](#) Mar 17 2022 As with the first edition, this practical book is dedicated to building organizations of integrity. It has been written

for students contemplating careers in public service, elected and appointed officials, administrators, and career public servants in America and abroad.

A World after Liberalism Apr 25 2020 A bracing account of liberalism's most radical critics, introducing one of the most controversial movements of the twentieth century In this eye-opening book, Matthew Rose introduces us to one of the most controversial intellectual movements of the twentieth century, the "radical right," and discusses its adherents' different attempts to imagine political societies after the death or decline of liberalism. Questioning

democracy's most basic norms and practices, these critics rejected ideas about human equality, minority rights, religious toleration, and cultural pluralism not out of implicit biases, but out of explicit principle. They disagree profoundly on race, religion, economics, and political strategy, but they all agree that a postliberal political life will soon be possible. Focusing on the work of Oswald Spengler, Julius Evola, Francis Parker Yockey, Alain de Benoist, and Samuel Francis, Rose shows how such thinkers are animated by religious aspirations and anxieties that are ultimately in tension with Christian

teachings and the secular

values those teachings birthed
in modernity.

Cases adjudged Nov 25 2022
