In this sixth installment of the exciting Dragon Kingdom of Wrenly graphic novel series, Ruskin and his friends meet an ancient ice dragon. Ruskin and his friends travel to Flatfrost for the Winter Festival, which is extra special this year because the legendary, ancient ice dragon has appeared! Being thousands of years old, the ice dragon is perhaps the only living creature who knew the original dragon king. She also unknowingly holds an important piece to the puzzle of who the dark forces are that have been plotting against Ruskin. Can Ruskin and his friends uncover the secret and keep the ice dragon safe? The volcano at Stonewin is frozen over and the lands are blasted with a deadly cold. This is the work of Blaze the Ice Dragon, sent by wicked Wizard Malvel to thwart Tom's quest to save his father. Can he defeat Blaze and win the next piece of Amulet before it's too late? A stunning middle grade fantasy about a girl who used to be a dragon and her adventure to save her new home—from Even the Darkest Stars author Heather Fawcett. Perfect for fans of the Nevermoor and His Dark Materials series. Ember St. George is a dragon. At least she was before her adoptive father—a powerful but accident-prone Magician—turned her into a human girl to save her life. Unfortunately, Ember's growing tendency to burst into flames at certain temperatures—not to mention her invisible wings—is making it too dangerous for her to stay in London. The solution: ship Ember off to her aunt's research station in frigid Antarctica. Though eccentric Aunt Myra takes getting used to, Ember quickly feels at home in a land of ice storms, mischievous penguins, and twenty-four-hour nights. She even finds herself making friends with a girl genius called Nisha and a mysterious orphan named Moss. Then she discovers that Antarctica is home to the Winterglass Hunt, a yearly tradition in which rare ice dragons are hunted for their jeweled scales. Furious, Ember decides to join the hunt to sabotage it from the inside. But being an undercover dragon isn't easy—especially among dragon hunters. Can a twelve-year-old fire dragon survive the dangers that come her way in the Antarctic wilderness and protect the ice dragons from extinction? The reader becomes Sagard, the sixteen-year-old barbarian, and must face the Ice Golem, the Devil-Bear, and many other dangers before retrieving the Heart of the Ice Dragon and becoming a full-fledged warrior. What if only one dragon remained? All of the wide world's dragons have lived for eons in a secret valley, safe from the swords and arrows of humankind. All but one, that is—an ailing ice dragon who stayed behind with her egg when the other dragons fled the wide world. Sam Vargas, who first appeared as a sidekick in *The Abode*, returns as the hero of *The Ice Dragon's Daughter*. Sam's family of four are the only humans who know of and can visit the dragon valley. Itching to leave his parents and see more of the wide world, Sam hears the story of the lost ice dragon and decides he'll make finding her his personal quest. Sam sets off alone for the Far North. The wide world he encounters is both friendly and terrifying. Threatening visits from the evil spirit of a vanquished foe, crewing on a shapeshifting sailing ship; visiting a village of magical people—Sam's world expands with each encounter. With the help of a girl from another world, a shapeshifter, and a giant moose, Sam presses on. Will Sam reach the dragon and her egg before the egg dies, or will the evil spirits that haunt him prevail? *The Ice Dragon's Daughter* reintroduces some favorite characters from *The Abode* (Book 1 of the *Wingsong Trilogy*), and introduces a whole new cast of both good and evil folks. Those who love the *Brindle Dragon Series* or the *How to Train Your Dragon* books will surely enjoy the books of *The Wingsong Trilogy*. Martin. Lavish illustrations by acclaimed artist Luis Royo enrich this captivating and heartwarming story of a young girl and her dragon. In the world of *A Song of Ice and Fire* the ice dragon was a creature of legend and fear, for no man had ever tamed one. When it flew overhead, it left in its wake desolate cold and frozen land. But Adara was not afraid. For Adara was a winter child, born during the worst freeze that anyone, even the Old Ones, could remember. Adara could not remember the first time she had seen the ice dragon. It seemed that it had always been in her life, glimpsed from afar as she played in the frigid snow long after the other children had fled the cold. In her fourth year she touched it, and in her fifth year she rode upon its broad, chilled back for the first time. Then, in her seventh year, on a calm summer day, fiery dragons from the North swooped down upon the peaceful farm that was Adara's home. And only a winter child—and the ice dragon who loved her—could save her world from utter destruction. The legend of the Ice Dragon and its master began over 6,000 years ago. The lead up story began many years before the Ice Dragon was created due to the fact the right people had to be born, grow and evolve so they could be challenged in the right way to have the leadership to know that such evil has to be contained. This required them to have the foresight, intuition and destiny to do all that is required. Pucut was perhaps the worst of all historical warlords only to be equalled by horrific modern day events. Back six millennia there were no allied forces to fight what was a terrible army of unprecedented size, disregard for humanity and ferocity. Pucut and his entire army had to be stopped in one action that would take great courage and the ultimate sacrifice of many. The Ice Dragon got its name from a massive diamond found in a quarry to produce the rock needed to build the great citadel. The diamond was naturally formed in the shape of an Asian dragon and was named the Ice Dragon diamond. The fact this diamond was so perfectly formed, indeed sculpted the creators of the citadel fully understood they were on a destiny predetermined far beyond their imagination. While the citadel was to become the place of the destruction of Pucut and his army, on its own and with the few men known as monks had at their disposal, they were certainly not going to do the job on their own. They needed a power of unheard of force. That came by virtue of a stranger in search of herbs to make up healing potions and ointments. While staying with the monks in the early stages of building their primitive refuge from Pucut, this stranger accidentally made a compound that caught alight and devastated the stone hut used as his workshop. This was to become known as dragon powder and after some development it had been perfected to a high level of effectiveness. This dragon powder became the key to ending Pucut but also creating the Ice Dragon field of energy and thus needing a human Master to control it. After the first 4,000 year of an evolving Master's dynasty it was broken. In early 2012 a new Master had been created. *The Story of The Ice Dragon Rising* takes us through the first stages of the original Ice Dragon creation. This finishes with a brief introduction to the principle players of the modern Ice Dragon Master and their joint adventures. As Pucut and his army with the inhabitants of the great citadel were all destroyed, the soul energy field of all those that died that day rose high in the sky taking the shape of the Ice Dragon diamond. The first chosen Master has been the only person to see the Ice Dragon energy field in this form. Every other master since then is inducted into the force field on the appearance of the Ice Dragon diamond, which is a proxy. This is necessary due to the Ice Dragon force field now being so large thus impossible for any one person to see it all. This proxy process occurs in the form of coloured ribbons of light emerging from the diamond and pass through the new Master's body. Eventually they withdraw returning to the diamond, which then disappears in a bright ball of light. When this happens the force field's entire history and the necessary intelligence upgrades the Master's DNA coding, enabling him to interact with the Ice Dragon energy. All this is because there has to be a balance within the light and the dark forces. Without any constrains Pucut had pushed the balance so far into the dark field there was little chance of recovering the peace for a very long time. The higher power, which oversees this planet, had to devise the ice Dragon to restore the balance, bringing about a new period of confidence and calm in order that the population could recover and develop a new order. Now another dark energy has appeared that is intent on worldwide domination and a return to Pucut's barbarism. Perhaps this is why a new Ice Dragon Master has appeared at this time to control again and stop further potential damage.
