[You Are a Champion](#) Apr 06 2021 I want to show you how you can be a champion in almost anything you put your mind to. Marcus Rashford MBE is famous worldwide for his skills both on and off the soccer field – but before he was a Manchester United and England soccer player, and long before he started his inspiring campaign to end child food poverty, he was just a kid from Wythenshawe, South Manchester. Now the nation's favorite soccer player wants to show YOU how to achieve your dreams, in this positive and inspiring guide for life. Written with journalist Carl Anka, *You Are a Champion* is packed full of stories from Marcus's own life, brilliant advice and top tips from performance psychologist Katie Warriner. It will show you how to be the very BEST that you can be. It shows kids how to: - Be comfortable with who you are – you can't be a champion until you're happy being you! - Dream big - Practice like a champion - Get out of your comfort zone and learn from your mistakes - Navigate adversity in a positive way - Find your team - Use your voice and stand up for others - Never stop learning With an afterword by Tim S. Grover.

[Embedding Young People's Participation in Health Services](#) Jan 23 2020 There is increasing interest in young people's participation in the design and delivery of health services. But young people's views are not consistently sought or acknowledged, and they are still often marginalised in healthcare encounters. Drawing on original research and a diverse range of practice examples, Brady explores the potential for inclusive and diverse approaches to young people's participation in health services from the perspectives of young people, health professionals and other practitioners. She presents a practical new framework, embedded in children's rights, that shows how young people's participation can be integrated into services in ways that are meaningful, effective and sustainable.

[The Young Champion](#) Jan 03 2021 Excerpt from *The Young Champion: One Year in Grace Aguilar's Girlhood* Few lives can be more helpful to our young people to-day, to our girls in particular, than that of Grace Aguilar. She possesses the distinction of being a modern author, instead of an ancient heroine. Doubtless some are still living that knew her, for she died only sixty-five years ago. There has been no conscious attempt to idealize her character or exaggerate her importance. To make her the centre of a group of happy girls of her age, it was thought, would serve to add to her influence. That certain liberties have been taken with Mrs. Hall's friendship, may be excused for a similar reason. There is no exact evidence that she met Moses Montefiore or Benjamin Disraeli, or that she quoted from Shakespeare on a certain walk with her friend in the streets of London. [Super Chess Kids](#) Jun 08 2021 If you want to improve in chess you usually have to settle for instructional material based on games played long ago by old masters with who you have no affinity at all. Or contrived puzzles that have little in common with the reality of your own games. Italian FIDE Master and chess instructor Franco Zaninotto has a different approach. He knows from experience how stimulating it is to study the games of the best players in your peer group. Zaninotto teaches elementary strategy and tactics by using games he has selected from recent Junior Championships all over the world. He shows that you don't need to have decades of experience in order to play clever moves. *Super Chess Kids* tells you all you need to know about recognizing and exploiting weaknesses in your opponent's position, about evaluating your position and developing a plan, and about calculating moves of attack and defence. You will also see typical errors that even the best young players tend to make. Included are more than 100 strategic and tactical exercises. There is little excuse for not finding the winning moves: after all, other kids already did!

The Champion's Mind Aug 10 2021 Even among the most elite performers, certain athletes stand out as a cut above the rest, able to outperform in clutch, game-deciding moments. These athletes prove that raw athletic ability doesn't necessarily translate to a superior on-field experience—its the mental game that matters most. Sports participation—from the recreational to the collegiate Division I level—is at an all-time high. While the caliber of their games may differ, athletes at every level have one thing in common: the desire to excel. In *The Champion's Mind*, sports psychologist Jim Afremow, PhD, offers the same advice he uses with Olympians, Heisman Trophy winners, and professional athletes, including: • How to get in a "zone," thrive on a team, and stay humble • How to progress within a sport and sustain long-term excellence • Customizable pre-performance routines to hit full power when the gun goes off or the puck is dropped With hundreds of useful tips, breakthrough science, and cutting-edge workouts from the world's top trainers, *The Champion's Mind* will help you shape your body to ensure a longer, healthier, happier lifetime.
