100 Writers Oct 26 2020 The National Portrait Gallery, London, holds a large collection of portraits featuring sitters who have played an important role in British history and culture across the periods, many of which have also made significant contributions as writers. **100 Writers** will be the first Gallery publication to bring together portraits of writers from varied disciplines and periods into one publication. An illustrated introductory text will explore the range of writers' portraits held in the Gallery and the important role they have played in British culture. It will also look at the relationship between the written word and visual arts, encompassing the variety of writers and themes. This new title will include earlier sixteenth-century works through to contemporary portraits, with a focus on writers who have made an important contribution to a number of areas such as literature, history, philosophy and politics. Select works will also be accompanied by quotations taken from interviews, essays and acclaimed works by a number of the writers. The book will be of the same compact format as earlier 100s titles such as **100 Photographs** and **100 Portraits** and will be a welcome addition to this series of books, presenting highlights from the collection through the lens of literature.

Postcards Dec 08 2021 E. Annie Proulx's first novel, **Postcards**, winner of the 1993 Pen/Faulkner Award for Fiction, tells the mesmerizing tale of Loyal Blood, who misspends a lifetime running from a crime so terrible that it renders him forever incapable of touching a woman. Blood's odyssey begins in 1944 and takes him across the country from his hardscrabble Vermont hill farm to New York, across Ohio, Minnesota, and Montana to British Columbia, on to North Dakota,

Wyoming, and New Mexico and ends, today, in California, with Blood homeless and near mad. Along the way, he must live a hundred lives to survive, mining gold, growing beans, hunting fossils and trapping, prospecting for uranium, and ranching. In his absence, disaster befalls his family; greatest among their terrible losses are the hard-won values of endurance and pride that were the legacy of farm people rooted in generations of intimacy with soil, weather, plants, and seasons. Postcards chronicles the lives of the rural and the dispossessed and charts their territory with the historical verisimilitude and writerly prowess of Cather, Dreiser, and Faulkner. It is a new American classic.

Tradition in the Frame Sep 05 2021 Sfakians on the island of Crete are known for their distinctive dress and appearance, fierce ruggedness, and devotion to traditional ways. Konstantinos Kalantzis explores how Sfakians live with the burdens and pleasures of maintaining these expectations of exoticism for themselves, for their fellow Greeks, and for tourists. Sfakian performance of masculine tradition has become even more meaningful for Greeks looking to reimagine their nation's global standing in the wake of stringent financial regulation, and for non-Greek tourists yearning for rootedness and escape from the post-industrial north. Through fine-grained ethnography that pays special attention to photography, *Tradition in the Frame* explores the ambivalence of a society expected to conform to outsiders' perception of the traditional even as it strives to enact its own vision of tradition. From the bodily reenactment of historical photographs to the unpredictable, emotionally-charged uses of postcards and commercial labels, the book unpacks the question of power and asymmetry but also uncovers other political possibilities that are nested in visual culture and experiences of tradition and the past. Kalantzis explores the crossroads of cultural performance and social imagination where the frame is both empowerment and subjection.
