Forty years ago, Marcus Fleming and Robert Mundell developed independent models of macroeconomic policy in open economies. Why do we link the two, and why do we call the result the Mundell-Fleming, rather than Fleming-Mundell model? All you thirsty girls out there, meet Japan's hottest boyfriend! Plain, fantasy-loving Ellie and Year 1 heartthrob Omi-kun's relationship continues. As they enter their second year, Ellie is freed from the shackles of her hateful (?) lewd thoughts, and enters a realm of pure love ... only for Omi-kun to be entered into a beauty pageant for high school boys by one of his classmates! In the meantime, Ellie is juggling being part of the intense Sports Prep committee, and her days busily fly by. When Ellie and Sara-chan go to support Omi-kun at the Tokai Regionals, they run into Reo and Ayaka ... together ...?! You won't be able to tear your eyes away from Ellie and Omi-kun or Sara-chan and Reo-kun's escapades! If we can agree that creativity is the highest activity of the human mind, then Bingo! You have hit the jackpot. You have just walked into a powerhouse of fully illustrated, well written, creative prompts. They are accessible, entertaining, teeming with energy and as the art work on the cover indicates, original. Spend a few minutes perusing *The Review* and you'll see how the author has captured the dynamics of the King's English in such a way as to separate it from other books in the field. You'll enjoy it. In 1900, just a few months after the deadly hurricane of September, W. L. Moody Jr. and his family moved into the four-story mansion at the corner of Broadway and Twenty-sixth Street in Galveston. For the next eight decades, the Moody family occupied the 28,000-square-foot home: raising a family, creating memories, building business empires, and contributing their considerable wealth and influence for the betterment of their beloved city. In 1983, Hurricane Alicia damaged the mansion, and Mary Moody Northen, eldest child of W. L. Moody Jr., moved out so a major restoration could begin. When the mansion opened to the public as a museum, education center, and location for community gatherings in 1991, it had been restored to its original grandeur. The Mary Moody Northen Endowment then commissioned award-winning author Henry Wienczek to write a history of the Moodys of Galveston and their celebrated home. Robert L. Moody Sr., grandson of W. L. Moody Jr. and nephew of Mary Moody Northen, contributes a foreword, giving a brief introduction and personal tone to the book, which also features fifteen color photographs of the Moodys and their home. An epilogue by E. Douglas McLeod summarizes the family's accomplishments and developments associated with the mansion since Northen's death in 1986. "The Moodys of Galveston and Their Mansion" is a must-read for Galvestonians, for the thousands of visitors who tour the mansion each year, and for anyone interested in the captivating tale of this influential and generous family and their magnificent house. A definitive scholarly edition of the correspondence and papers of Thomas Jefferson Congress adjourns early in March, and Jefferson goes home to Monticello for a month. After his return to Washington, he corresponds with territorial governors concerning appointments to legislative councils. He peruses information about Native American tribes, Spanish and French colonial settlements, and the geography of the Louisiana Territory. He seeks the consent of Spanish authorities to a U.S. exploration along the Red River while asserting privately that Spain "has met our advances with jealousy, secret malice, and ill faith." A new law extends civil authority over foreign warships in U.S. harbors, and he considers using it also to constrain privateers. Federalist opponents bring up "antient slanders" to

question his past private and official actions. His personal finances are increasingly reliant on bank loans. He starts a search for a new farm manager at Monticello. Meriwether Lewis and William Clark write from Fort Mandan in April before setting out up the Missouri River. Jefferson will not receive their reports until mid-July. In the Mediterranean, William Eaton coordinates the capture of the port of Derna and Tobias Lear negotiates terms of peace with Pasha Yusuf Qaramanli to end the conflict with Tripoli. News of those events will not reach the United States until September. This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. *The Juggler of Notre Dame* tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in *The Juggler of Notre Dame* in the twentieth century and its place in mass culture today. *Volume 2: Medieval Meets Medievalism* deals with the influence of the tale in nineteenth- and early-twentieth-century Europe and America, and the development of literary medievalism at this time. *The Juggler of Notre Dame and the Medievalizing of Modernity* is a rich case study for the reception of the Middle Ages in modernity. Spanning centuries and continents, the medieval period is understood through the lens of its (post)modern reception in Europe and America. Profound connections between the verbal and the visual are illustrated by a rich trove of images, including book illustrations, stained glass, postage stamps, architecture, and Christmas cards. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies. This report uses recent economic modelling to relate cognitive skills – as measured by PISA and other international instruments – to economic growth, demonstrating that relatively small improvements to labour force skills can largely impact the future well-being of a nation. Following his fateful encounter with the two warrior slaves, Laura and Sara, Ryoma begins to plot his escape from the O'torimea Empire. But even as his strength and cunning are put to test, he must come to terms with the reality he might not be able to return home at all. And as Ryoma and his two female companions try to find his place in this new, brutal world, fate's hand reaches out to embroil him in a large-scale conflict that will change both his life and the history of the continent... A dazzling biography for readers of *The Great Gatsby* and other Lost Generation authors Gifted artist Gerald Murphy and his elegant wife, Sara, were icons of the most enchanting period of our time; handsome, talented, and wealthy expatriate Americans, they were at the very center of the literary scene in Paris in the 1920s. In *Everybody Was So Young* Amanda Vaill brilliantly portrays both the times in which the Murphys lived and the fascinating friends who flocked around them. Whether sunbathing with Picasso on the French Riviera or watching bullfights with Hemingway in Pamplona, Gerald and Sara inspired kindred creative spirits like Dorothy Parker, Cole Porter, and F. Scott Fitzgerald. Fitzgerald even modeled his main characters in *Tender is the Night* after the couple. Their story is both glittering and tragic, and in this sweeping and richly anecdotal portrait of a marriage and an era, Amanda Vaill "has brought them to life as never before" (*Chicago Tribune*). "This is the memoir of Kurdish revolutionary Sakine Cansu. Sakine, whose code name was 'Sara', co-founded the PKK in 1978 with Abdulah Öcalan and others, and dedicated her life to the cause of Kurdish freedom. On 9 January 2013 she was assassinated in Paris by a Turkish intelligence agent."--Page [4] of cover. FANTASY ~ NEW ADULT/COLLEGE FICTION ~ WOMEN'S ADVENTURE The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II, which covers Tomes VI-VII, is dedicated to shorter, individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible, and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies. This book presents a fundamental reassessment of Sara Coleridge. It examines her achievements as an author in the public sphere, and celebrates her interventions in what was a masculine genre of religious polemics. Sara Coleridge the religious author was the peer of such major figures as John Henry Newman and F. D. Maurice, and recognized as such by contemporaries. Her strategic negotiations with conventions of gender and authorship were subtle and successful. In this rediscovery of Sara Coleridge the author revises perspectives upon her literary relationship with Samuel Taylor Coleridge. Far from sacrificing her opportunities in service of her father's memory, her rationale is to exploit his metaphysics in original religious writings that engage with urgent controversies of her own times. Sara Coleridge critiques the Oxford theology of Newman and his colleagues for authoritarian and elitist tendencies, and for creating a negative culture in religious discourse. In response, she experiments with methodologies of collaborative, dialogic exchange, in which form as much as content will promote liberal, inclusive and productive encounters. She develops this agenda in her major religious work, the unpublished Dialogues on Regeneration (1850-51), which this book examines in its penultimate chapter. This completely revised successor to the Handbook of Microscopy supplies in-depth coverage of all imaging technologies from the optical to the electron and scanning techniques. Adopting a twofold approach, the book firstly presents the various technologies as such, before going on to cover the materials class by class, analyzing how the different imaging methods can be successfully applied. It covers the latest developments in techniques, such as in-situ TEM, 3D imaging in TEM and SEM, as well as a broad range of material types, including metals, alloys, ceramics, polymers, semiconductors, minerals, quasicrystals, amorphous solids, among others. The volumes are divided between methods and applications, making this both a reliable reference and handbook for chemists, physicists, biologists, materials scientists and engineers, as well as graduate students and their lecturers. NEW ADULT FANTASY - WOMEN'S ADVENTURE The handbook Language and Emotion is intended to give a historical and systematic profile of the area. It will aim to connect contemporary and historical theories, approaches, and applications and to cover eastern and western perspectives of language, communication, and emotion. It will present all relevant aspects of language and emotion and thus contribute significantly to research in the field of linguistics and semiotics of emotion. Bringing affect and emotion to the forefront of tourism studies, this book presents a new generation of scholars who consolidate emerging affective approaches and establish a route for scholarship that examines the roles of emotion and affect in tourism. Attuning to affect and emotion, this book steers the affective turn to encompass touring bodies and tourism places. Engaging the concept of affect as a constitutive element of social life often leaves academics grasping for terminology to describe something that is, by its very nature, beyond words. For this reason, as evident in the four interconnected sections of this volume, studying affect poses a significant and fruitful challenge to the status-quo of social scientific method and analysis. From African-American emotional labour while travelling, to visiting Banksy's Dismaland park, to affective heritagescapes, self-love, and travelling mittens, and across socio-spatial theories of emotions, decolonial feminist theory, and atmospheric politics, this book demonstrates the epistemic and empirical richness of affective tourism. Along with the contributors to this volume, the editors make a case for thinking about emotions and affects through collective and individual practices as interrelated shaping tourism encounters in and with places. That is, to break it down as doing, and as shared between bodies and places through the doing. The chapters in this book were originally published as a special issue of Tourism Geographies. This monograph is a grammar of Thangmi, an endangered Tibeto-Burman language spoken in central-eastern Nepal. Alongside a collection of glossed oral texts and a trilingual lexicon, an extensive ethnolinguistic introduction to the speakers and their culture is also provided. This fourth double volume of the Notebooks covers the years 1819 through 1826. The range of Coleridge's reading, his endless questioning, and his recondite sources continue to fascinate the readers. Included here are drafts and full versions of the later poems. Many passages reflect the technological interests that led to Coleridge's writing of Aids of Reflection, later to become an important source for the Transcendentalists. Another development in this volume is the startling expansion of Coleridge's interest in "the theory of life" and in chemistry--the laboratory chemistry of the Royal Institution for Great Britain and the theoretical chemistry of German transcendentalists such as Okeke, Steffens, and Oersted. Also contained in this volume is an important section on the meaning of marriage. Kathleen Coburn is Professor Emeritus at Victoria College of the University of Toronto.
