Civilization came crashing down. Billions died. A new Dark Age has begun. The descendants of the apocalypse's survivors scavenge the remnants of the Before Times, struggling to build a new life amidst the ruins of the old. In a savage world where the strong ravage and exploit the weak, the survivors' settlements are oases, connected only by convoys of armed and armored vehicles that run the gauntlet of raiders... and worse. Though the threats of chemical and biological agents and radiation have all but faded, their taint lingers on in every mutant born to man and beast. This is the world of Atomic Highway. Atomic Highway is a complete roleplaying game. All you need to play it is this book, a few friends, paper and pencils, and a few ordinary dice. First published in 1986, this book has become regarded as a classic and is being reissued by Haynes to meet popular demand. Presented in the format of a Haynes Manual, Vintage Motorcyclists' Workshop is aimed at the amateur, who is encouraged to attempt almost every aspect of restoration work himself, within the confines of the home workshop. It is packed with detailed practical information and illustration compiled by a highly respected motorcycle restorer. A young couple in Toronto starts house-hunting with a \$450,000 budget and ends up with a \$700,000 home, after losing fifteen bidding wars. In Vancouver the average bungalow soars past \$900,000. In Saskatoon, house values rock higher 56 per cent in one year. At the same time, real estate values in the US plunge for the first time since the Great Depression. Millions of families are forced out of their homes. Canadians are told it can't happen here, while first-time buyers outside Toronto sign up for monster houses with virtually no down payment and 40-year mortgages for 98 per cent of the cost. When the average family can no longer afford the average home, how can so many people be deluded into believing a boom will last forever when none has before? How could we have put so much money into something we might never be able to sell, except to a greater fool? Truth is, homeowners and homebuyers have been seduced by a cabal made up of real estate marketers, builders, lenders and bankers, along with a pliant media, to buy, buy, buy. Canada has its own, hidden debt crisis just as dire as the subprime mortgage fiasco, and the same self-dealing industry tactics have led us to put more than 80 per cent of our net worth into a single asset, ignoring the obvious threats and repeating the disastrous mistakes of others. Are we next? Yes. With a Haynes manual, you can do it yourself?—from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the motorcycle. Back on his motorcycle for the first time since his wife's passing, Dr. Tom Welton finally feels he is beginning to heal from the grief. His early morning ride is restoring his sense of self. But when he loses traction on the wet asphalt and slides off the road's curve into the dense woods of the east Texas Big Thicket, he comes face to face with his life-long spiritual deception. Trapped under the wreckage of his motorcycle, he believes his salvation lies in being found before it's too late. But too late for what? As his family mounts a search for their missing elderly father, Tom takes a journey through his life while lying

Each bike portrait is accompanied by a concise, authoritative profile of the machine. All the classic bikes are here—pre-World War II BMWs like the R5 that defined performance in that era; the military R12 that carried the Wehrmacht as it blitzkrieged its way across Europe; the R75M that accompanied Rommel's Panzers in North Africa; the Earles-forked R69S that offered the perfect platform for mounting a Steib sidecar; the R90S café racer; the K1 “flying brick”; and the GS (Gelände Sport) series that launched a dual-sport revolution. All the bike families are covered—the side-valve machines from the early years, the early overhead-valve performance bikes, the postwar Airheads and Oilheads, the four-cylinder and six-cylinder touring bikes, the early pushrod singles, the modern overhead-cam singles, the latest parallel twins, and inline-four cylinder sport bikes. From the first model, the R32 that launched BMW's motorcycle dynasty, to the latest (and fastest) model, the World Super Bike dominating S1000RR, this book captures nearly a century of motorcycling excellence. American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. Ali Cobby Eckermann, a Yankunytjatjara/Kokatha poet, is at the forefront of Australian Indigenous poetry. Inside My Mother is both a political and personal collection, angry and tender, propelled by the need to remember, yet brimming with energy and vitality – qualities that distinguished her previous, prize-winning verse novel, Ruby Moonlight. Tributes to country, to her elders, and to the animals and spirits that inhabit the landscape, coupled with the rhythms of mourning and celebration that pulse through the poems, make this a moving and personal collection. Grief is deeply felt and vividly portrayed in poems such as ‘Inside My Mother’ and ‘Lament’. There is defiance and protest in ‘Clapsticks’ and ‘I Tell You True’. In the final section there is a marked generational shift as the elders begin to pass away and the poet as grandmother comes to accept her rightful place as matriarch.
