Live Oak Branches: a Genealogy Oct 27 2022

Oak Tree Feb 16 2022 A seedling oak tree languishes in a field, unable to understand why a mature tree not far away in the same field gets so much attention from children and adults; who climb the tree, swing from its branches, and picnic under its massive structure of branches and leaves which dominate

the sky. Concerned townspeople replant the seedling next to the mature tree, hoping this will help it live, for it is surely losing its will to live. When the mature tree makes an overture of friendship to the seedling it is too fearful to respond. One day, however, the seedling summons the courage to ask what keeps him stunted while the old tree grows and spreads its branches. The mature tree explains that the seedling is fearful of life and until that fear is overcome it will always be stunted and shunned. Lightning strikes the old tree during a severe storm and it topples over. The young seedling was heard to cry out in grief and all were stunned to see it begin to grow huge branches and to spread itself for all to see. Six color illustrations done by the author convey symbolically the sense of the text, which is written in blank verse. This easy to follow story appeals to all ages, from early childhood to adult. The lesson the story teaches is one that has universal appeal to young and old alike with its message of individual growth, sharing one's life, and to open oneself to life's chances. The use of blank verse adds drama and heightens the impact of the story, allowing the reader to follow the story as it unfolds from each line to the next.

Rupert, the Sturdy Oak Tree Jun 30 2020 Rupert had an attitude. He thought he was better than all the other trees. Better than the ash, the elm, the birch, even better than the maple. Rupert, the sturdy oak, grew acorns. Acorns fed all the forest animals: the squirrels, the deer and the lowly blind moles

all depended on Rupert's acorns to get through the winter. Rupert was proud of that. Too proud. So proud that no birds would nest in Rupert's great branches. They didn't like being around someone who thought he was a little better than all the rest. The other trees couldn't be bothered with him either. Rupert was lonely. Rupert, the Sturdy Oak Tree tells the story of the change of heart Rupert must undergo to finally become part of the forest's family of trees and teaches its young listeners the value of being friendly and of seeing the worth in all others. J. Fitzgerald is the mother of five children, seven grandchildren and four great grandchildren, and she has been reading children's stories to all of them. She also loves to draw and has created all of the illustrations in Rupert, the Sturdy Oak Tree. Ms. Fitzgerald grew up on a farm and so easily writes stories about those things that she observed there as a child.

He guides them through some local Florida history and introduces them to the creatures who live among his branches. Daytona Oak is his name and he spreads his mighty branches over the author's home in South Daytona, Florida. The author is a retired teacher who has written several text books and children's books. This lap book brings the world of nature to young children and a little bit about Daytona Beach. The author lives in South Daytona and loves the giant oaks in her neighborhood, especially the one in her front yard. One day a snake fell from its branches while up above squirrels and birds screamed in protest. They must have pushed the snake out of the tree. The snake lay stunned for a few minutes and then slowly slithered back up the tree. This incident inspired the writing of this book.
