Blood by Moonlight Jul 22 2020 Dark Ink Tattoo is a steamy paranormal romance series in the vein of Sons of Anarchy or True Blood if everyone in them was a werewolf, vampire, and queer. Angela: My secret is out, and now both Mark and Jack know that I'm a werewolf. Worse, my abusive ex-boyfriend, the one who made me this way, has escaped from prison and he's after one thing: our son. The Pack is a brutal, criminal motorcycle gang: I don't want that life for Rabbit. Jack says he can protect us, but the Pack is strong and if they catch us, they'll kill me and take Rabbit. But if I'm going down, I'm taking Gray with me. Jack: She's a monster like me, but that doesn't change how I feel about her. I'll do everything I can to save her and her son. When old enemies reappear and my Mistress betrays me, I might have to give up everything to protect them from the Pack. Angela's entrusted me with her son, and I won't let her down. A werewolf ready to make her last stand. A vampire who will do anything to protect the innocent from the unholy. Welcome to Dark Ink Tattoo, where needles aren't the only things that bite. Keyword note: Blood of the Pack is perfect for people who miss Charlaine Harris's Southern Vampire Series, featuring Sookie Stackhouse, which True Blood was based on...only everyone in it is bisexual and it's 5/5 spice.

Informed Societies Jan 28 2021 This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous. Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing a critical mindset towards it, requires skills, know-how, judgement and confidence – such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how

information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. *Informed Societies: Why Information Literacy Matters for Citizenship, Participation and Democracy* covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy's relationship with political science - information literacy's relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-profit sectors and politicians implications of information use and information/digital literacy.

500 Figures in Clay Mar 18 2020 It's an absolutely unequalled photographic gallery: no other book has ever presented such a varied, captivating collection of contemporary ceramics based on the human form. The works range from representational to abstract, from artful realism to provocative surrealism, and many of them come from leaders in the field such as Judy Fox, Kurt Weiser, and Andy Nasisse. Kay Yourist has produced female forms that are smooth, minimalist vessels with only the slightest hint of breasts and belly. The simple, rounded features of Diane Lublinski's black-and-white figures possess a fun, clown-like whimsy. Michael A. Prather's mournful ceramic portraits have frowning faces and pointed dunce-like heads in a muted color palette. Many of the ceramics come with detail images and illuminating artist's commentary.

Poet and Peasant Overture Oct 13 2019 Suppe's operetta "Dichter und

Bauer" (Poet and Peasant) was the first to earn him a reputation as a composer in Vienna. His reputation as a conductor was established two years before at the Theater in der Josefstadt, where he composed incidental music to the play "Ein Morgen, ein Mittag, und ein Abend in Wien," whose overture remains in the orchestral repertoire to this day. By the premiere of "Dichter und Bauer," at the Theater an der Wien on August 24, 1846, Suppe was no longer conducting for free. The operetta was successful and the overture entered the orchestral repertoire soon after. The opening cello solo was even quoted in the American song published in 1894 - "I've been Working on the Railroad." The study score offered here - for the first time in a convenient and affordable format - is a licensed reprint of the newly-engraved and reassembled large score first issued by E.F. Kalmus in 2007.

The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). *Mordin On Time* enables the reader to construct their own speed ratings wherever they live.

Sway Oct 05 2021 A YALSA 2015 Best Fiction for Young Adults Pick In Kat Spears's hilarious and often poignant debut, high school senior Jesse Alderman, or "Sway," as he's known, could sell hell to a bishop. He also specializes in getting things people want---term papers, a date with the prom queen, fake IDs. He has few close friends and he never EVER lets emotions get in the way. For Jesse, life is simply a series of business transactions. But when Ken Foster, captain of the football team, leading candidate for homecoming king, and all-around jerk, hires Jesse to help him win the heart of the angelic Bridget Smalley, Jesse finds himself feeling all sorts of things. While following Bridget and learning the intimate details of her life, he falls helplessly in love for the very first time. He also finds himself in an accidental friendship with Bridget's belligerent and self-pitying younger brother who has cerebral palsy. Suddenly, Jesse is visiting old folks at a nursing home in order to run into Bridget, and offering his time to help the less fortunate, all the while developing a bond with this young man who idolizes him. Could the tin man really have a heart after all? A *Cyrano de Bergerac* story with a modern twist, *Sway* is told from Jesse's point of view with unapologetic truth and biting humor, his observations about the world around him untempered by empathy or compassion---until Bridget's presence in his life forces him to confront his quiet devastation over a life-changing event a year earlier and maybe, just maybe, feel something again.
