I hope you sitting down, cause I am laughing on the floor at the notion of hearing, one more little talk about "the Forex Indicators, and how you can be the next Forex Millionaire using such and such crossing lines" See, the reason there are winners and losers in life and Forex as well, is some can see deception coming from a 100 miles away and some refuse to look at the truth. See, I was taken for a sucker, and was brought on a roller-coaster of books, training, Forex education like there is no tomorrow... But it took me nearly 3 years, to wake up from the magic little cozy balloon of guru's webinars and the next Big Talking head. During this time of course, I was spending thousands of dollars on books and Forex Robots and all kind of crap...you know what I am talking about. My family and friends, thought I have lost my mind, spending all this time in front of the screen(you may recognize yourself here) and looking at "stupid charts" I kind of had become the laughing stock of the company " Look, the Forex Head is Alive" Eventually it got so bad, that I lost all interest in trading and was ready to quit... One afternoon, I overheard a conversation while at the golf course...yeah I am a snooper. There were two guys, sipping on something that came with a "small umbrella on top" and one of them was saying something so impressive, that made my ears become as big as an elevator shaft. The guys were speaking of a stock trader, turn to be a Forex trader, that was raking in the vicinity of 20 to 30k a month, from his house computer, doing it with couple trades a month. Listen to this, the guy was not a screen struck maniac like myself, he was not some kind of national television speaker, it turned out he was a member of the same golf club, I was a member too. Now, you can imagine my excitement and hopes came up, I was determined to meet this guy and squeeze every ounce of knowledge out of him... However, there was a big problem, that trader, I will call him trader X, for familiar reasons, did not go to the bars, was not in the social networks, and was not holding any training and educational courses on "how to be the next forex millionaire." He was quietly running the Forex Cash machine of his, had a large family and was

spending time in his huge house. Now, I came in with a plan, where I would meet Trader X at one of the Club Events...you know those fund raiser things, Trader X was known for one thing, dumping a large sums of money on different causes that he cared about. I was able to talk Trader X in to giving me a half hour short consult. At the end I offered trader X to pay him for his services, and that's where my frustration became full, Trader X was not for sale. It didn't matter what I offered...whatever that was, it was all I had, he would not chime in to my idea of training me. Finally after much bugging him, he gave in and we started a regular weekly meetings, but he refused to get any money. He was saying..."Boy you are my fun today, all that trading is too boring and makes me sad." I was like, "K, if it is that boring, make me sad too" you know, let the stashes of cash come down. Eventually I moved to a different city and never heard of Trader X again. What I am about to reveal in this book is the real dirty truth about Forex and how you too can be the next Trader X. Forex trading is not all it is cracked up to be, the real winners are not your daily gurus, I will teach you everything that Trader X Taught me and more. See you on the other side! You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A "V" day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily chores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. "Man," I thought. "If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life?" So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. So, on the other side... do you live in a self denial chasing the next best system? STOP... Enough is enough, enough ridicule from your relatives and friends, it's time to show your

guts. Face it, think about it, what would you think if you were on the other side looking through the eyes of your family and friends. All you see is a loser, getting ups and downs totally controlled by the next guru they read about. Doode, this gotta stop! Trust me, I know you feel the pain. I can kind of still remember it...kind of hard to do when I am sitting on my yacht in the Caribbean sipping from something that comes with umbrella on top. See, it didn't use to be that way, not too long, couple of years ago... but I will tell you about that later in my letter Ha! Forex trading is not all it is cracked up to be, it is a hard game controlled by robots and banks and foreign sovereign institutions. Keep reading if you know where I am coming from... Things didn't used to be all pink for me either, pain, loss, closed one losing account, opened second one, heard of such and such broker giving a certain deal on lots opened another account, lost all the money, started in the mini, macro, regular lots... Does that sound familiar, try to look from the outside, Forex is for crazy people, crazy winners or crazy losers. Now, if this is your first contact with Forex, I am really sorry you had to hear this small talk. I would rather be the nice guy, rather be the good news bearer, but please, don't kill the messenger, this is the bloody truth in Forex. You may be mad at me at this moment, but soon will come the moment you will thank me . Or you would rather stumble on a nice guru telling you all the lies, and how he can help you open a 10k account with a secret advantage. Or worse... He can even offer to manage your 10k, if you so willingly send him a check for the whole amount. The book you are about to read is the hard learned secrets of the successful traders and brokers and I am putting it all out for you. See I don't really need the 10 bucks, but I am making sure you appreciate the value you are getting. I have made my share trading the market, paid for all the yachts cars and toys and the farm, now it's your turn. I am sick and tired of the pain in the community and all the retail traders like yourself slaughtered by the hefty brokers. It is time to pay back, it is time for me to give back and to make sure the small trader has evened the plates no more secrets and golden grails uncovered. All the knowledge I am presenting in this book, comes from the school of hard knock, expensive paid Forex forums, where real traders hang out, not bothered by the rookies. Things I overheard on the golf course? Tell me about that, one of the guys I used to golf with executed only one trade a month, we used to call him the "ONE TRADE GUY...". How ridiculous that is? Hanging around, playing golf all month until a certain currency goes to a such and such monthly level, and pull the trigger to wipe out all the people with red eyes staring at the screens day and night, fighting with their spouses, wasting their lives in front of the broker platforms. I know what you are thinking...this guy is full of it! Well, I am fed up with the usual story that hits every newbie trader like you and I don't want you to have anything to do with it. So, I am giving you a choice: take this book read it, study and devour every single strategy, because is real, out of the trenches uncompromised, winning truth coming from a real trader. Take the leap of faith, you are a couple mouse clicks away from finding the real freedom and trading like a pro. Take the click of faith! See you on the other side! Trader X I hope you sitting down, cause I am laughing on the floor at the notion of hearing, one more little talk about "the Forex Indicators, and how you can be the next Forex Millionaire using such and such crossing lines" See, the reason there are winners and losers in life and Forex as well, is some can see deception coming from a 100 miles away and some refuse to look at the truth. However, there was a big problem, that trader, I will call him trader X, for familiar reasons, did not go to the bars, was not in the social networks, and was not holding any training and educational courses on "how to be the next forex millionaire." "Beat the Odds in Forex Trading provides traders with tremendous value by disseminating the trading methods and philosophy of one of the most remarkable Forex success stories since Soros." --Alexander De Khtyar, President, Forex International Investments, Inc. Add certainty and systematization into Forex trading with this practical approach. Author and industry professional Igor Toshchakov shows how recurring market patterns--which can be recognized on a simple bar chart--can be successfully used to trade the Forex market. Written for traders at every level, this valuable resource discusses the challenges of developing a trading method, while revealing the Toshchakov's approach to the market--both from a philosophical and tactical point of view. You'll discover specific trading strategies based on recognizable market patterns, get detailed information on entry and exit points, profit targets, stop losses, risk evaluation, and much more. You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't

see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How? Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A "V" day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily chores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. "Man," I thought. "If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life?" So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. I wanna tell you both how I did it and how you can be one of my "RBI"s. I've done all the hard work for you. All you have to do is quit your job and come on home. Here's my point ... You can have and do whatever the heck you want. You can, to a certain degree, create your own reality. But it's not easy. Which is why I've decided to create your reality for you. Wanna see it? Step into it even? You would if you knew what was on the other side. All ya gotta do is punch a few buttons and get this book. But you're going to have to take a click of faith. I will tell you more about my book later, but first, let me tell you a story to make my point even more clear. The other day I took my wife to a B&B to an island not too far from where I live. We drove about 30 min to get to the place. It was a beautiful day the sun was up. The ocean was calm and nice, no wind you could glide on the surface if you wanted to. Man...this island was beautiful, flowers blooming everywhere in February. Keep reading we will get to the strawberries! So I get to this B&B, my wife is like gleaming can't wait to see what's in the house, the house was set up in an old colonial style at least that's what my wife told me. So before I get in the house I go around, cause there is a beautiful garden and I see that there is a basement floor which is completely empty. By the way what I am telling you has a lot to do with Forex trading, I have a purpose to my madness, so bear with me. But before I go further let me tell you what happened. I go and ask the host about the basement floor... you know why they are not using it, looks decent to me. So she goes ahead and tells me at least a dozen hurricane stories and how last time there was a hurricane, the water stood up eight feet strong on the street and that floor was always stuck under water and had to be completely wiped out and cleaned and how they decided not to use it any more. See my friend Forex trading can be like that beautiful island and a gorgeous paradise... The problem is that storms and hurricanes are a normal event in tropical paradise. The reason I wrote this book is so you don't end up being on the basement of Forex and get flushed every time there is a hurricane. If

you are newbie or even a somewhat experienced trader, but live in the basement of Forex, you will get wiped out every single time. I promise you! The basement of Forex is full with indicator worship going on, in all kinds of indicator temples. Of course your broker is leading the main quire... fast to give you the free education and all of the stochastic, bands and other ropes so you can hang yourself fast. See in most cases your broker is on the opposite side of your trades unless he is an ECN broker (tip there is no guarantees the ECN brokers are not doing it, since they have all the info of your trades and stops.) So basically they have to hedge your trades, because they are not a price maker, but continually bidding for better quotes from the banks. So you the innocent retail trader enter the trade and the slaughter begins. I am sick and tired of seeing innocent hard working people, like you get slaughtered every day by the broker. I wrote this book for you, so it doesn't happen again. I have done all the hard work for you, and put a system that will give you a step by step guidance for success with Forex. You are just a few keyboard clicks away from getting your eyes open to the Forex reality and trading like the pros. Take a click of faith, punch few buttons and jump the gap. See you on the other side! Forex trading is not all it is cracked up to be. The picture painted by the gurus and the brokers has only one side, a pink one, and is missing the real feeling and pain that a average retail trader goes through until a success is reached. I can feel the pain in the Forex Community and the purpose of this book is to even out the planes. Here is what you can expect to learn and master after practicing the concepts in this book.

- Learn to move with the winners and tailgate on their profits (this strategy alone is worth every penny)
- How to avoid and react to The little dirty tricks of your broker
- The little known strategies of the successful Forex traders
- What are the best times to trade
- The best ways to trade any strategy (this little detail can make or break your trading record)
- Most important and little known price levels, that deliver profits at any currency pair
- How to profit from Weird Crowd Psychology (when used as suggested in the book this one is a massive cash puller)
- The one, little known way to enter the Forex market and have the price guaranteed to move your direction
- The well guarded price action strategies of the Forex Banks and Foreign institutions
- How not to use price action and when to be cautious about pulling the trigger, if a price approaches a certain deadly level
- Which are the favorite price patterns of the experienced traders
- How to avoid having spread slips of as much of a 100 pips, and have your profit and account swallowed by your broker (most of the retail traders have no clue, what I am speaking about)
- What are the most important factors, observed religiously by all the shakers and movers, and how not to break the rules of alliance that can cost you your account
- What are the sneaky falls break outs, practiced by the most of the platforms and how to fight the FOREX BOTS
- Strange practices of your broker, that causes your stops to be hit before your entries (this is a must know before you open an account with any platform)

The above strategies and lessons are not lessons from a book or science projects. These are the hard earned lessons from the Forex School of hard knocks. I promise you, you will not be disappointed. See you on the other side. You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had

thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?
