A Model of Freshman Use of Microcomputers Related to Intellectual and Social Development Sep 25 2020 The purpose of this study was to determine the relationship between freshmen's use of microcomputers and their social and intellectual development in a university environment. A review of related literature describes the theoretical foundation of this research and identifies questionnaire items for measuring the critical variables of microcomputer use and student development. To conduct the study, data obtained from 400 freshman students prior to entering Utah State University (USU) in the fall of 1996 were compared to data collected from the same students during Spring Quarter of 1997. Correlational analysis was used to study changes in freshman students' use of microcomputers and variables known to predict students' social and academic integration into the institution. Regression analyses were used to identify variables and dimensions of microcomputer use that contributed to and detracted from students' intellectual and social development. (268 pages)

Freshman Year of Life May 22 2020 How do you get a fulfilling job after college? What if you're still living with your parents? What's it like navigating hook-ups, dating, and new friendships outside campus life? Millions of books, blog posts, personal essays, and advice columns are written about college, but what about after college? Those first few years of finding your footing in the real world are filled with transitional crises and fraught introspection. You're a freshman all over again. The thirty-eight stories in *Freshman Year of Life* tell the truth about life beyond college graduation from the voices of people a few years out. Some of their experiences are funny, some heartwarming; some are about their successes, and others reflect their failures. There are stories about going from a committed college relationship to casual dating in an unfamiliar city, navigating a toxic work environment, learning how to stay patient in a part of your life that isn't defined by semesters and finals, and tackling the task of making new friends, something you may not have had to do since college orientation. The stories in *Freshman Year of Life* are just the beginning. There are a multitude of different experiences out there, and one of them will be your own. It's not the end of the conversation; it's the start. Find out how these writers survived their freshman year of life: Aaron Gilbreath • Aileen Garcia • Alana Massey • Alexandra Molotkow • Alison Gilbert • Ashley Ford • Bijan Stephen • Cameron Summers • Carvell Wallace • Chloe Angyal • Emily Gould • Eric Anthony Glover • Gala Mukomolova • Jamie Lauren Keiles • Jason Diamond • Jenny Zhang • Justin Warner • Kevin Nguyen • Kristin Russo • Lane Moore • Laura Willcox • Lauren Wachenfeld • Lincoln Blades • Lori Adelman • Mara Wilson • Mira Gonzalez • Molly Soda • Myisha Battle • Nia King • Nisha Bhat • Paulette Perhach • Sam Zabell • Sarah Mirk • Scaachi Koul • Shannon Keating • Skylar Kergil • Whitney Mixer This book came about through a collaboration with MindSumo.com, an online forum that reaches out to college students to solve business, tech, and design challenges. We asked MindSumo's community of students what book they wanted most upon graduating, and this is it.

My Freshman Year Oct 27 2020 After more than fifteen years of teaching, Rebekah Nathan, a professor of anthropology at a large state university, realized that she no longer understood the behavior and attitudes of her students. Fewer and fewer participated in class discussion, tackled the assigned reading, or came to discuss problems during office hours. And she realized from conversations with her colleagues that they, too, were perplexed: Why were students today so different and so hard to teach? Were they, in fact, more likely to cheat, ruder, and less motivated? Did they care at all about their education, besides their grades? Nathan decided to put her wealth of experience in overseas ethnographic fieldwork to use closer to home and apply to her own university. Accepted on the strength of her high school transcript, she took a sabbatical and enrolled as a freshman for the academic year. She immersed herself in student life, moving into the dorms and taking on a full course load. She ate in the student cafeteria, joined student clubs, and played regular pick-up games of volleyball and tag football (sports at which the athletic fifty-something-year-old could hold her own). Nathan had resolved that, if asked, she would not lie about her identity; she found that her classmates, if they were curious about why she was attending college at her age, never questioned her about her personal life. Based on her interviews and conversations with fellow classmates, her interactions with professors and with other university employees and offices, and her careful day-to-day observations, *My Freshman Year* provides a compelling account of college life that should be read by students, parents, professors, university administrators, and anyone else concerned about the state of higher education in America today. Placing her own experiences and those of her classmates into a broader context drawn from national surveys of college life, Nathan finds that today's students face new challenges to which academic institutions have not adapted. At the end of her freshman year, she has an affection and respect for students as a whole that she had previously reserved only for certain individuals. Being a student, she discovers, is hard work. But she also identifies fundamental misperceptions, misunderstandings, and mistakes on both sides of the educational divide that negatively affect the college experience. By focusing on the actual experiences of students, *My Freshman Year* offers a refreshing alternative to the frequently divisive debates surrounding the political, economic, and cultural significance of higher education?as well as a novel perspective from which to look at the achievements and difficulties confronting America's colleges and universities in the twenty-first century.

The Freshman Nov 08 2021 I started flirting with a guy while waiting for my car to be serviced. Now granted, he wasn't just any guy. Tall. Dark. Hot. Mysterious. Can you blame me for wanting to talk to him? He's in town visiting his parents. So am I. He goes to the same college as I do. Such a coincidence. Almost as if our meeting is destined... But I shouldn't believe in that sort of thing. I am single as a Pringle and always ready to mingle. Until I keep running into Mr. Tall, Dark and Mysterious everywhere I go. Tony Sorrento. Turns out he's on the football team. I mean, I'm not one to chase after a sexy jock but, okay. I'm down. And did I mention he's only a freshman? Our fathers are business rivals, and they forbid us from dating. We need to keep this on the low. Can we remain friendly? Sure. Maybe turn our friendship into friends with benefits? Most definitely. Here's the thing though. I didn't plan on catching feelings for him so quickly. Seems like he's falling pretty hard for me too. Defying our fathers' wishes is only asking for trouble, but is being with Tony worth the risk?

A Case Study of Seven Taiwanese English as a Foreign Language Freshman Non-English Majors' Perceptions about Learning Five Communication Strategies Jan 30 2021 The purpose of this study was to identify what were Taiwanese University English as a Foreign Language (EFL) learners' perceptions about learning communication strategies. This study collected qualitative data about students' beliefs and attitudes as they learned communication strategies. The research question guiding the study was: What are Taiwanese University EFL learners' perceptions about learning communication strategies? Twenty-four university students were trained for 10 weeks to use strategies in Faerch and Kasper's (1983a) taxonomy, and seven volunteers were interviewed. None of the students majored in English but were enrolled in a required Basic English course in a Freshman English Non-Majors' (FENM) program in Agriculture College at Tunghai University. In the middle and at the end of the training period, participants were interviewed and videotaped for 90 minutes. The results were displayed clearly with details in Chapter four. In Chapter five, significant themes associated with topic avoidance (1.), message abandonment (2.), meaning replacement (3.), interlanguage (4.), and cooperation (5.) strategies, mentioned by seven participants were revealed through the constant method of analysis. They were comprehension, politeness, intentionality, native language, face-saving (losing-face), interlanguage system, time-saving, and keywords. Chapter six includes a summary of this study, further discussions for the important issues mentioned by previous studies of this field and by participants of this research, and at the end, several important issues recommended as topics for further studies. The issues suggested to readers for future researches were variables in the learners and trainers, students' acceptance level of non-native like language, training pedagogies, the relationship between English proficiency and using strategy, the correlation between gender and strategy, communication strategy in a working situation, and examples through the interlanguage strategy.

My Freshman Year Sep 06 2021 After fifteen years of teaching anthropology at a large university, Rebekah Nathan had become baffled by her own students. Their strange behavior—eating meals at their desks, not completing reading assignments, remaining silent through class discussions—made her feel as if she were dealing with a completely foreign culture. So Nathan decided to do what anthropologists do when confused by a different culture: Go live with them. She enrolled as a freshman, moved into the dorm, ate in the dining hall, and took a full load of courses. And she came to understand that being a student is a pretty difficult job, too. Her discoveries about contemporary undergraduate culture are surprising and her observations are invaluable, making *My Freshman Year* essential reading for students, parents, faculty, and anyone interested in educational policy.
