In Effective Strategic Leadership John Adair teaches you everything you need to know to enable you to be clear about what you want to achieve and to lead with purpose in order to turn your strategy into reality. Among other things, he shows you how to: - Judge situations quickly and respond accordingly - Make decisions based on incomplete information - Pick the best second-tier leaders to achieve your objectives Presents new ways of thinking about parental involvement in the teaching of reading and writing aimed at both researchers and practitioners. It relates the recent growth of involvement to broader considerations of the nature of literacy and historical exclusion of parents from the curriculum.
