The draft Cabinet Manual was published by the Cabinet Office on 14 December 2010. Its development was first announced in February 2010, when, in a speech to the Institute for Public Policy Research, the then Prime Minister, Gordon Brown, stated that he had asked the Cabinet Secretary, Sir Gus O'Donnell, "to lead work to consolidate the existing unwritten, piecemeal conventions that govern much of the way central government operates under our existing constitution into a single written document." The concept of a Cabinet Manual appears to have drawn extensively upon experience in New Zealand. The full draft of the Manual (incorporating a revised version of the chapter on elections and government formation) was published with the agreement of the new Prime Minister, David Cameron, and the Deputy Prime Minister, Nick Clegg, and after its text had been approved by the Cabinet following consideration by the relevant Cabinet sub-committee and was made subject to public consultation. The Cabinet Secretary has stated that he expects to invite Cabinet to endorse a revised version of the Cabinet Manual in the spring of 2011. This report forms the Select Committee on the Constitution's response to the consultation. It is also intended to inform Members of the House about the issues which arise from the Manual's publication. This practical handbook provides guidelines and advice for hospital doctors and nurses looking after patients with a stroke. Whilst welcoming the motivation behind the Manual and the transparency it brings to the workings of Government, the Committee says that in practice the Manual may be treated as having greater authority than originally intended, particularly where its content extends beyond matters purely for the Executive. All the work of the Executive, including the Cabinet Manual, is subject to scrutiny by Parliament. The fact that the document is primarily directed at the Executive does not exempt it from this scrutiny. The Committee makes some practical suggestions for specific improvements to the text, focusing particularly on the chapters covering government formation and ministers and Parliament. The Committee also challenges some of the specific content of the draft: the failure to include the convention, acknowledged elsewhere by the Government, that Parliament should have the opportunity to debate decisions to commit troops to armed conflict; guidance on when a Prime Minister should resign following a hung Parliament. The Committee recommends that the House should hold a regular debate on the Manual. The Committee felt, despite dissatisfaction with parts of the original draft, there was no reason to delay production of an approved version. The new version need not be perfect as it will be subject to further review. Complete Manual for unlocking automobiles In this report the Political and Constitutional Reform Committee gives its assessment of the process of government formation following the May 2010 general election. In general, the committee finds that the process went well, but it also suggests some practical improvements and clarifications. Among the key findings is that clearer guidance is still needed on the circumstances under which a Prime Minister should resign and when he has a duty to remain in office. The report also proposes enhanced processes for ensuring that governments understand-and are discouraged from breaching-restrictions on their activity that apply before and immediately after general elections. The committee concludes that as a coalition government's programme for government cannot be put directly to the people, the House of Commons needs to have the opportunity to subject these proposals to full pre-legislative scrutiny. Filling a need for a case and materials book on constitutional and administrative law, this textbook reflects the latest thinking particularly in relation to the European Communities. Known as FReM. Ring binder available separately (ISBN 9780115601422). Also available with binder (ISBN 9780115601439) The Stationery Office annual catalogue 2011 provides a comprehensive source of bibliographic information on over 4900 Parliamentary, statutory and official publications - from the UK Parliament, the Northern Ireland Assembly, and many government departments and agencies - which were issued in 2011. A fresh look at the bridges and boundaries between foreign relations law and public international law. This new edition of the Manual is comprehensively updated to include the 2011, 2012 and 2013 World Championship winning Red Bull cars (the original book covers the 2010 RB6). In particular, the 'Anatomy' chapter, which includes details of developments introduced since the original book was published in June 2011, including KERS, DRS, developments due to rule changes concerning 'blown' diffusers, and the switch from Bridgestone to Pirelli tyres, as well as the change to 1.6-litre V6 turbocharged engines and the hybrid ERS (Energy Recovery System) introduced for the 2014 season. This report from the Public Administration Select Committee (PASC) responds to the Government's consultation on the Draft Cabinet Manual. PASC welcomes the Manual, and dismisses the notion that it represents the start of a written constitution. Instead it recommends a number of improvements to ensure it meets its primary purpose as a comprehensive and authoritative guide to government practice for ministers and civil servants. The Committee recommends that the Cabinet Manual should be clear about its aim; be fully and comprehensively referenced; and distinguish more clearly the legal or other status of the information. As such PASC also suggests that the name Cabinet Manual is potentially misleading and should be changed to better reflect its contents and objectives.
