Federal Power Commission Reports Jun 21 2022

Contains all the formal opinions and accompanying orders of the Federal Power Commission ... In addition to the formal opinions, there have been included intermediate decisions which have become final

and selected orders of the Commission issued during such period.

Investigation of Post-office Leases Dec 27 2022

Regional Equations for Estimating Mean Annual and Mean Seasonal Runoff for Natural Basins in Texas, Base Period 1961-90 Jan 04 2021

Regional equations were developed for estimating mean annual and mean seasonal runoff for natural basins of Texas. The equations, which are based on the statistical relation between streamflow and basin characteristics, use streamflow data and basin characteristics from U.S. Geological Survey streamflow-gaging stations within natural basins and with at least 8 years of data during 1961-90. The State was divided into 11 hydrologic regions on the basis of previous studies. The final equations for estimating mean annual and mean seasonal runoff were developed from 228 streamflow-gaging stations. Contributing drainage area and mean annual or mean seasonal precipitation were determined to be the most significant basin characteristics in each region.

The Best in Tent Camping: Maryland Sep 12 2021 Maryland's natural beauty can be fully experienced only by visiting, and what better way to do so than to pitch a tent in one of the varied locations Maryland has to offer:

the Atlantic Ocean lies nearby, as do the Allegheny Mountains and the Chesapeake Bay. Maryland is a camper's dream, and this valuable guide assists outdoor enthusiasts of all stripes. Including a five-star rating system, detailed travel and contact information for each site, latitude and longitude coordinates, and regional maps, this guide is an incomparable resource for anyone roughing it in this beautiful state.
