This book provides a summary of results from the 16th year of the BEACH program, a continuous national study of general practice activity in Australia. From April 2013 to March 2014, 959 general practitioners recorded details of 95,900 GP-patient encounters, at which patients presented 148,880 reasons for encounter and 151,675 problems were managed. For an 'average' 100 problems managed, GPs recorded: 65 medications (including 53 prescribed, seven supplied to the patient and six advised for over-the-counter purchase); 12 procedures; 24 clinical treatments (advice and counselling); six

referrals to specialists and three to allied health services; orders for 31 pathology tests and seven imaging tests. A subsample study of more than 31,000 patients suggests prevalence of measured risk factors in the adult (18 years and over) population who attended general practice at least once in 2013-14 were: obesity-27%; overweight-35%; daily smoking-17%; at-risk alcohol consumption-26%. One in four people in the attending population had at least two of these risk factors. A companion publication, A decade of Australian general practice activity 2004-05 to 2013-14 is also available. Australia is big, but so is Mr Chicken. He can't wait to go everywhere, see everything and meet everyone. Luckily, a helpful marsupial from Tourist Information helps Mr Chicken organise his hectic itinerary. This book is dedicated to the many children, teachers and librarians Leigh Hobbs met as the 2016-2017 Australian Children's Laureate. Collect all of Mr Chicken's adventures: Mr Chicken Goes to Paris, Mr Chicken Lands on London and Mr Chicken Arriva a Roma. "Getting Australia Active is a comprehensive update on the state-of-the-art of physical activity promotion. each year. This report is a companion to the annual report, General practice activity in Australia 2010-11. Risk Management in Outer Space Activities assesses selected risks associated with space activities, from an Australian and New Zealand perspective. The book explores the rise of commercial space activities and considers the development of Australia and New Zealand's regulatory frameworks, and how they are equipped to address new and emerging risks in the space sector. The book examines the juxtaposition of international space law against the domestic legal regimes of Australia and New Zealand, and how these regulatory frameworks are designed to create governance mechanisms to control space risk. Both national jurisdictions approach space risk from the perspective of liability and international legal obligations, but as a result of their different historical space trajectories, their risk approaches differ. This is illustrated by research that suggests that from an Australian point of view, much of its space industry development has been influenced by Cold War era military and national security concerns. On the other hand, the New Zealand perspective is grounded on the rapid market-led commercial development that is currently underway in the country. The book examines a variety of risks that can and do emerge in the course of undertaking space activities. It does this by presenting a series of space risk case studies. There are chapters devoted to examining commercial space risks, space insurance, the risks posed by space debris, cybersecurity and space assets, light pollution as a risk for astronomy and the risks inherent in landing objects on the Moon. The work contained in this book is intended to provide a clear, practical and informed approach to understanding risk management in outer space activities. It will appeal to policy makers, risk professionals, space lawyers, national space agencies as well as academics, researchers and students Online Classroom: Australian Geography Series - Year 1 is a package that includes: Interactive Online Geography Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year

1 students and bringing classroom lessons to life. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. Australian special days (blackline master) This report highlights changes in general practice activity in Australia over the most recent decade (April 2004 to March 2014) of the BEACH program, a continuous national cross-sectional study of general practice activity. Over this time 9,731 general practitioners (GPs) provided details of 973,100 GP-patient encounters. The report highlights changes that have occurred over the decade in the characteristics of GPs and the patients they see, the problems managed, and the treatments provided. Changes in prevalence of overweight and obesity, smoking status and alcohol use are also described for subsamples of more than 30,000 adult patients each year. This report is a companion to the annual report, General practice activity in Australia 2012-13. The Collaborate for Children scoping project sought to investigate how children's wellbeing could be better promoted in Australia through place-based initiatives. It reviewed the evidence for place-based approaches, identified current activities and policies in Australia, and considered the issues and opportunities involved. The findings from this work have been published in three reports. This fourth report summarises the findings and presents recommendations for accelerating place-based efforts in Australia. The Teacher's Book assists you with implementing Australian Signpost Maths, and includes the pedagogical background and suggested teaching program. Reproduced pages from the student book with answers are shown in the Teacher's Book to save you time correcting, with Australian Mathematics Curriculum references on each page of the Teacher's Book to help you follow how the content strands are covered. Teaching suggestions, extension work, maths language, resources and evaluations are available for each lesson, catering for differentiation and meeting individual learning needs of students. ID cards are also provided to help develop students'

mathematical language and concepts, and blackline masters are given to provide extra exercises for particular areas of the syllabus. Assessment options to help discover each student's strengths and weaknesses include progress tests and diagnostic tests. Both of these assessment options supply their answers and directly reference to each concept in the student book. The book provides a summary of results from the 14th year of the BEACH program, a continuing national study of general practice activity in Australia. A fantastic tour of Australia from A to Z with award-winning author and illustrator Frané Lessac. What is the Fremantle Doctor? Where is Qui Qui? And why are some islands named after days of the week? You'll uncover these exciting facts when you explore the A to Z of Australia - from Bondi to Kakadu and all the way to Taronga Zoo. Discover why Australia is one of the most amazing countries in the world! This report highlights changes in general practice activity in Australia over the decade from April 2002 to March 2012 of the BEACH program, a national cross-sectional study of general practice activity. Over this time 9,802 GPs provided details of 980,200 GP-patient encounters. The report highlights changes that have occurred over the decade in the characteristics of GPs and the patients they see, the problems managed and the treatments provided. Changes in prevalence of overweight and obesity, smoking status and alcohol use are also described for sub-samples of more than 30,000 adult patients each year. This report is a companion to the annual report General Practice Activity in Australia 2011-12. Sharpen geography students' critical-thinking skills with brain-teasing activities. Parents, students, and teachers will love these fun challenges, puzzles, and logical thinking pages. They're a great way to practice higher-order thinking skills.
