New York Times bestselling adult author of *The Bear and the Nightingale* makes her middle grade debut with a creepy, spellbinding ghost story destined to become a classic. After suffering a tragic loss, eleven-year-old Ollie only finds solace in books. So when she happens upon a crazed woman at the river threatening to throw a book into the water, Ollie doesn't think—she just acts, stealing the book and running away. As she begins to read the slender volume, Ollie discovers a chilling story about a girl named Beth, the two brothers who both loved her, and a peculiar deal made with "the smiling man," a sinister specter who grants your most tightly held wish, but only for the ultimate price. Ollie is captivated by the tale until her school trip the next day to Smoke Hollow, a local farm with a haunting history all its own. There she stumbles upon the graves of the very people she's been reading about. Could it be the story about the smiling man is true? Ollie doesn't have too long to think about the answer to that. On the way home, the school bus breaks down, sending their teacher back to the farm for help. But the strange bus driver has some advice for the kids left behind in

his care: "Best get moving. At nightfall they'll come for the rest of you." Nightfall is, indeed, fast descending when Ollie's previously broken digital wristwatch, a keepsake reminder of better times, begins a startling countdown and delivers a terrifying message: RUN. Only Ollie and two of her classmates heed the bus driver's warning. As the trio head out into the woods—bordered by a field of scarecrows that seem to be watching them—the bus driver has just one final piece of advice for Ollie and her friends: "Avoid large places. Keep to small." And with that, a deliciously creepy and hair-raising adventure begins.

Complete with demonstrative illustrations and photographs, *Small Space Living* offers more than one hundred space-saving ideas from Roberta Sandenbergh, a.k.a the Small Space Architect. Sandenbergh will introduce you to the idea of space opportunities—untapped areas in every home that can be expanded for storage and organizational purposes. A space opportunity might be as simple as using an empty space under a stairway or above a doorway or as complicated as dividing your entire apartment for rental income. Each chapter addresses a different kind of space opportunity area, including closets, corners, walls, windows, ceilings, and floors. In these areas, you will be inspired by Sandenbergh’s creative approaches to divided spaces, stacked spaces, empty spaces, mirrored spaces, and multipurpose furniture. Learn from the author’s stories of her own designs for “small-by-choice” homes—for herself and for her clients—in which she tried to make the best possible use of varied living spaces. Allow Sandenbergh to help you create more space-efficient and attractive areas in your home whether you live in a studio apartment, a tiny home, or a larger home that needs more of a cozy feel. Shows you how to make the most stylish and effective use of the space you can afford. It looks at inventive storage ideas and appropriate furniture as well as classic “cheats” that help create the illusion of space. The book begins by helping you to equate your needs and what you actually have. Then it turns to specific issues: the allocation of rooms to make the best use of available space; the possibilities offered by small-scale alterations and extensions; and the effects of color, pattern and lighting. It goes on to demonstrate, room by

room, the clever ways people have contrived to solve their particular problems. The final section focuses on twenty designs for items of furniture and accessories, such as the coffee table that converts to a dining table or a wall-mounted chopping board and knife rack.--From publisher description.
