Patrick Leigh Fermor Nov 23 2020 This book revisits the trajectory of one section of Patrick Leigh Fermor's famous pedestrian excursion from the Hook of Holland to Constantinople. This S.O.E. officer walked into Hungary as a youth of 19 at Easter of 1934 and left Transylvania in August. "A cross between Indiana Jones, James Bond and Graham Greene" as the New York Times obituary put it in 2011, this intrepid traveller published his experiences half a century later. *Between the Woods and the Water* covers the part of the epic journey on foot from the middle Danube to the Iron Gates. It has been a bestseller since it was first published in 1986. O'Sullivan reveals the identity of the interesting characters in the travelogue, interviewing several of their descendants and meticulously recreating Leigh Fermor's time spent among the Hungarian nobility. Leigh Fermor's recollections of his 1934 contacts are at once a proof of a lifelong attraction for the aristocracy, and a confirmation of his passionate love of history and understanding of the region. Rich with photos and other rare documents on places and persons both from the 1930s and today, the book offers a compelling social and political history of the period and the area. Described by Professor Norman Stone as "a major work of Hungarian social archaeology," this book provides a portrait of Hungary and Transylvania on the brink of momentous change.

*Sailing Home* Mar 16 2020 Homer's *Odyssey* holds a timeless allure. It is an ancient story for every generation: the struggle of a man on a long and difficult voyage longing to return to love and family. Odysseus's strivings to overcome both divine and earthly obstacles and to control his own impulsive nature hold valuable lessons for us as we confront the challenges of daily life. *Sailing Home* breathes fresh air into a classic we thought we knew, revealing its profound guidance for the modern seeker. Dividing the book into three parts—"Setting Forth," "Disaster," and "Return"—Fischer charts the course of Odysseus's familiar wanderings. Readers come to see this ancient hero as a flawed human being who shares their own struggles and temptations, such as yielding to desire or fear or greed, and making peace with family. Featuring thoughtful meditations, illuminating anecdotes from Fischer's and his students' lives, and stories from many wisdom traditions including Buddhist, Judaic, and Christian, *Sailing Home* shows the way to greater purpose in our own lives. The book's literary dimension expands its appeal beyond the Buddhist market to a wider spiritual audience and to anyone interested in the teachings of myth and story.

*Burning Desire* Jun 18 2020 Centuries ago the Phoenix and Dragons were a force no one could penetrate. They fought together, mated together, and worked side by side, and then all that changed. The children of the leaders were dead and war had practically destroyed them all. The fighting stopped and they both went their separate ways. Daytona was the Captain of the Crystal fire department. He loved his small town and he loved his job. However, what none of the small town knew was that he was also a dragon. Crystal was a small location just outside Denver, and it was also the home to the Phoenix. He had lived amongst them for years, hiding his scent, until the day came that he could no longer keep his secret. When a fire claims his mother's life, Ethan rushes home. Having your mother being a victim of an arson is not something he was prepared to face, but discovering he wouldn't have to do it alone, should have been a relief. The thing is...that relief came in the form of a dragon, and the town believes that his mate is the cause of all the fires around town. When the arsonist strikes close to home, Day knows he must clear his name and find the culprit that is now trying to kill his mate.

*The Dancing Bear* Jul 20 2020 From the early sixties to the late seventies, defensive end Ron McDole experienced football's golden age from inside his old-school, two-bar helmet. During an eighteen-year pro career, McDole—nicknamed "The Dancing Bear"—played in over 250 games, including two AFL Championships with the Buffalo Bills and one NFL Championship

with the Washington Redskins. A cagey and deceptively agile athlete, McDole wreaked havoc on football's best offenses as part of a Bills defensive line that held opponents without a rushing touchdown for seventeen straight games. His twelve interceptions remain a pro record for defensive ends. Traded by the Bills in 1970, he was given new life in Washington as one of the most famous members of George Allen's game-smart veterans known as "The Over-the-Hill Gang." Through it all, McDole was known and loved by teammates and foes alike for his knowledge and skill on the field and his ability to have fun off it. In *The Dancing Bear* McDole the storyteller traces his life from his humble beginnings in Toledo, Ohio, to his four years at the University of Nebraska, his marriage to high school sweetheart Paula, and his long, accomplished professional career. He recounts the days when a pro football player needed an off-season job to pay the bills and teams had to drive around in buses to find a city park in which to practice. The old AFL and NFL blitz back to life through McDole's straightforward stories of time when the game was played more for love and glory than for money.

Independent Living Support Jan 06 2022 Independent Living Support - Vision Loss Resources in all states including Guam, Puerto Rico, and the Virgin Islands was written to help persons with low vision. This book will explain what low vision is, introduce the low-cost technology aids that are available, and offer you a way to get help locally by listing out the best resources in your community which can help you now. If you have low vision, you are not alone. According to the National Eye Institute, millions of Americans and about 135 million people worldwide have low vision. Having worked with technology in the blind and visually impaired field since 1990, I know this book is needed today. This book will give you some basic information about eye doctors, low vision, low-vision aids, and the great low-vision-support options in your state. I will describe the low-cost technology aids that can help you now and let you know where you can find them. Lastly, this book will provide you with contact information for the best organizations in your own state that can help you now. In 1985, author Patrick J. Fischer was sitting with his grandfather Francis, who had low vision and struggled with reading. He used a lighted magnifier with a 1.25-inch-square acrylic lens, which did help him read, although it was a very slow process. Grandpa told Patrick that day that reading was very important to him; all his life, he had read in order to learn new things and keep up with what was going on in his community. The importance of reading cannot be overstated-it allows us to learn, grow, worship, and imagine. Reading is fundamentally a part of healthy living which allows us to live independently, and that is why Patrick believes it is so crucial to help those with low vision retain the ability to read. Local resources and low-cost technology aides have greatly improved the lives of many people with vision loss, allowing them to live independently, but you may not have heard about all of them. Independent Living Support helps keep you abreast of these local resources and low-cost technology aides. Low vision may make daily activities difficult,

but with the right resources and aids, a person can live independently. Independent Living Support is a simple book and one that makes a great resource for anybody with vision loss living in all states including Guam, Puerto Rico and the Virgin Islands. This book will also help a person with low vision regain his or her self-confidence by providing ways to accomplish daily activities, remain independent, and continue to read.

Till Life Do Us Part Oct 11 2019 Barbara Heyer can hear voices of dead people. They whisper of their deaths, seek comfort for those left behind, and occasionally even warn her about future events. Becoming smitten with the handsome investigator, Detective Patrick Fischer, is a serious complication given his assignment to her brother's case. Barbara senses there is something far deeper-and perhaps much older-than the surface attraction between them. Could that be why she's visited by a mysterious woman named Emma in her dreams? Could past life regression tie all the seemingly unconnected events together? Barbara and Patrick must overcome heartache to find the truth to save Colin, and perhaps themselves.

People, Problems, and Proofs Aug 13 2022 People, problems, and proofs are the lifeblood of theoretical computer science. Behind the computing devices and applications that have transformed our lives are clever algorithms, and for every worthwhile algorithm there is a problem that it solves and a proof that it works. Before this proof there was an open problem: can one create an efficient algorithm to solve the computational problem? And, finally, behind these questions are the people who are excited about these fundamental issues in our computational world. In this book the authors draw on their outstanding research and teaching experience to showcase some key people and ideas in the domain of theoretical computer science, particularly in computational complexity and algorithms, and related mathematical

topics. They show evidence of the considerable scholarship that supports this young field, and they balance an impressive breadth of topics with the depth necessary to reveal the power and the relevance of the work described. Beyond this, the authors discuss the sustained effort of their community, revealing much about the culture of their field. A career in theoretical computer science at the top level is a vocation: the work is hard, and in addition to the obvious requirements such as intellect and training, the vignettes in this book demonstrate the importance of human factors such as personality, instinct, creativity, ambition, tenacity, and luck. The authors' style is characterized by personal observations, enthusiasm, and humor, and this book will be a source of inspiration and guidance for graduate students and researchers engaged with or planning careers in theoretical computer science.

Down Home May 30 2021 A sweeping chronicle of Jewish life in the Tar Heel State from colonial times to the present, this beautifully illustrated volume incorporates oral histories, original historical documents, and profiles of fascinating individuals. The first comprehensive social history of its kind, *Down Home* demonstrates that the story of North Carolina Jews is attuned to the national story of immigrant acculturation but has a southern twist. Keeping in mind the larger southern, American, and Jewish contexts, Leonard Rogoff considers how the North Carolina Jewish experience differs from that of Jews in other southern states. He explores how Jews very often settled in North Carolina's small towns, rather than in its large cities, and he documents the reach and vitality of Jewish North Carolinians' participation in building the New South and the Sunbelt. Many North Carolina Jews were among those at the forefront of a changing South, Rogoff argues, and their experiences challenge stereotypes of a society that was agrarian and Protestant. More than 125 historic and contemporary photographs complement Rogoff's engaging epic, providing a visual panorama of Jewish social, cultural, economic, and religious life in North Carolina. This volume is a treasure to share and to keep. Published in association with the Jewish Heritage Foundation of North Carolina, *Down Home* is part of a larger documentary project of the same name that will include a film and a traveling museum exhibition, to be launched in June 2010.

Strangers on the Shore Sep 14 2022 While the world's major religions differ in their beliefs, they share common spiritual values. Although Christians and Muslims disagree about the divinity of Jesus, the New Testament and the Qur'an affirm a common set of spiritual virtues that are also found in Hinduism and Buddhism. For Christians, the fundamental spiritual virtues are most memorably stated in the Beatitudes that begin the Sermon on the Mount. *Strangers on the Shore* explores the virtues in the Beatitudes as they are expressed in the New Testament, the Muslim Qur'an, the Hindu Bhagavad Gita, and the writings and traditions of Buddhism.

Living Religions Feb 19 2023 *Living Religions* presents a highly readable and stimulating survey of the modern religious world though an emphasis on the personal consciousness of believers and their own accounts of their religion and relevance in contemporary life. "Religion is not a museum piece. Religion is a vibrant force in the lives of many people around the world, and many religions are presently experiencing a renaissance." - Mary Pat Fisher, Preface to *Living Religions* Along with a team of specialist consultants in each faith, and drawing on a wealth of scholarly research and firsthand source material, Mary Pat Fisher provides a fresh and challenging insight into the historical development and teachings of traditional faiths, indigenous religions, and new religious movements. She considers how the contemporary beliefs and practices of each of these traditions have evolved, and explores the changing nature of each religion; particularly the role of women, and the issues and controversies such as fundamentalism, violence, globalization, and interfaith initiatives.

[Encyclopedia of Television Miniseries, 1936-2020](#) Jan 26 2021 In 1936, as television networks

CBS, DuMont, and NBC experimented with new ways to provide entertainment, NBC deviated from the traditional method of single experimental programs to broadcast the first multi-part program, Love Nest, over a three-episode arc. This would come to be known as a miniseries. Although the term was not coined until 1954, several other such miniseries were broadcast, including Jack and the Beanstalk and Women in Wartime. In the mid-1960s the concept was developed into a genre that still exists. While the major broadcast networks pioneered the idea, it quickly became popular with cable and streaming services. This encyclopedic source contains a detailed history of 878 TV miniseries broadcast from 1936 to 2020, complete with casts, networks, credits, episode count and detailed plot information.

The Legacy of Wilfred Cantwell Smith Dec 17 2022 First work to address the legacy of Wilfred Cantwell Smith and his influence on the development of religious studies and Islamic studies in the twentieth century. This is the first work to address the legacy of Wilfred Cantwell Smith (1916 – 2000), whose intellectual and institutional contributions helped shape the field of religious studies in the latter half of the twentieth century. As a young scholar, Smith taught Indian and Islamic history in Lahore for several years and witnessed the partition of India. Upon his return to North America, he obtained his PhD at Princeton University before embarking upon a long and distinguished career. He founded the Institute of Islamic Studies at McGill University and served as director of the Center for the Study of World Religions at Harvard University. Smith emphasized the place of the scholarly study of Islam in the Western academy long before Islam occupied its current position at the center of global politics, challenged the notion of monolithic world religions, and argued for the importance of dialogical processes and a personalist approach to the study of religion. Contributors to this volume, many of whom were Smith's students, provide a wide-ranging exploration of his influence and legacy

Fischer Black and the Revolutionary Idea of Finance May 10 2022 praise for FISCHER BLACK AND THE REVOLUTIONARY IDEA OF FINANCE "The story of Fischer Black. . . is remarkable both because of the creativity of the man and because of the revolution he brought to Wall Street. . . Mehrling's book is fascinating." —FINANCIAL TIMES "A fascinating history of things we take for granted in our everyday financial lives." —THE NEW YORK TIMES "Mehrling's book is essential reading for anyone interested in the development of modern finance or the life of an idiosyncratic creative genius." —PUBLISHERS WEEKLY "Fischer Black was more than a vital force in the development of finance theory. He was also a character. Perry Mehrling has captured both sides of the picture: the evolution of thinking about the pricing of risk and time, as well as the thinkers, especially this fascinating eccentric, who worked it out." —ROBERT M. SOWLO, Nobel laureate and Institute Professor of Economics, Emeritus, Massachusetts Institute of Technology "Although I worked closely with Fischer for nine years at Goldman Sachs and clearly recognized both his genius and the breadth and originality of his ideas, until I read this book, I had only the vaguest grasp of the source of his inspiration and no understanding at all of the source of his many idiosyncrasies." —BOB LITTELMAN, Partner, Kepos Capital "Perry Mehrling has done a remarkable job of tracing the intellectual and personal development of one of the most original and complex thinkers of our generation. Fischer Black deserved it: a charming and brilliant book about a charming and brilliant man." —ROBERT E. LUCAS JR., Nobel laureate and Professor of Economics, The University of Chicago

Cue the Bunny on the Rainbow Dec 05 2021 For director Alan Rafkin, television is probably

the silliest and most volatile business in the world. Yet whether he was catching a pie in the face or working with an array of eccentric and talented stars, Rafkin was addicted to television from day one. In this autobiography, Rafkin recounts his behind-the-scenes experience working in over 80 different television series. Some of the most beloved sitcoms of all time, such as The Andy Griffith Show, The Dick Van Dyke Show, M\*A\*S\*H, Murphy Brown, and Coach adorn his directorial resume and illuminate Rafkin's ability to change with the times and persevere in the young world of show business. He recounts how directing strung-out actors and dodging their blows made life on the set a world unto itself. Rafkin further describes how having a good sense of humor helped him survive three divorces and three open-heart surgeries.
