**Old House Interiors** May 05 2021 National architectural magazine now in its fifteenth year, covering period-inspired design 1700-1950.

Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

*Laxton's Building Price Book 2002* Feb 02 2021

Laxton's gives you access to the most reliable and

current data. All 250,000 price elements have been individually checked and updated for the 2002 edition so that your estimates are always accurate and cost competitive. Laxton's makes analytical estimating simple and straightforward by displaying a complete breakdown for all measured items under 10 separate headings, all on a single page. This shows you a complete price build-up at a glance - and gives you the option to make price adjustments wherever necessary. You can find the sections you need quickly and easily, via the special marker system on the front cover and page edges. The free CD with this price book contains Masterbill's ESTIMATOR software and fully resourced data on all the price elements in Laxton's. Not only does the CD offer fast and efficient pricing at the touch of a button, it gives details of all the resources required to do the job. Laxton's approximate estimating section gives all in pricing for quick reference on the cost of composite items such as floors helping you calculate the cost implications of using plywood sheeting rather than softwood boarding, for example. Laxton's Basic Price section gives you a quick price on hundreds of items - from concrete work to roofing materials - to save you going through hundreds of lists from suppliers, manufacturers and building merchants. Laxton's Brand and Trade Names section lists over 12,000 brands and trade names and company addresses to help you locate specific items. Latest wage rates, fees and allowances All 250,000 price elements checked and updated

*Means Graphic Construction Standards* Nov 30 2020

Means Graphic Construction Standards bridges the gap between rough construction concepts and actual construction methods. With masterful illustrations of individual assemblies, systems, and components, you can see quickly which construction methods work best to meet design, budget and time objectives. Incisive discussion of each assembly...features, uses, advantages, limitations. Accompanying charts provide man-hours per unit-in-place by component and entire assemblies. The man-hour data enables you to compare assemblies by time and cost factors in minutes. Each graphic is labeled and sized, where appropriate, with unit and component terms to ensure you're completely familiar with what each segment of the assembly is called. By designing with assemblies and related components, you can develop construction concepts that meet use, budget and time goals with ease.

Construction Estimating Reference Data Feb 26 2023

Provides the 300 most useful manhour tables for practically every item of construction. Labor requirements are listed for sitework, concrete work, masonry, steel, carpentry, thermal and moisture protection, doors and windows, finishes, mechanical, and electrical. Each section details the work being estimated and gives appropriate crew size and equipment needed. This new revised edition contains National Estimator, a computer estimating program. This fast, powerful program and complete instructions are yours free on high-density 3 1/2" disk when you buy the book.
