The author provides the details necessary to facilitate media literacy, rather than merely surveying why it is needed; integrates theory with practice; includes exercises to help readers improve media literacy; emphasizes examples and exercises that support the key ideas of any media studies; and invites students to think like a psychologist, an economist, an advertiser, a journalist, a media critic, a producer, and a policy maker. With engaging readings and proven writing instruction, Subject & Strategy guides students in selecting, practicing, and mastering writing strategies that will help them succeed in any discipline. Example-driven instruction models writing strategies in action, and innovative classroom exercises and writing assignments help students identify strategies in the readings and put them into practice. Students are encouraged to see themselves as writers, and comprehensive, accessible coverage of reading and writing, research, documentation, and grammar provides a foundation for success. In this edition, students are more at the forefront than ever. Student feedback helped to inform the selection of readings, and with every student essay featured in the book, real students share and reflect on reading and writing strategies that work. In the words of one student, “Subject & Strategy made my freshman year of college much easier. I learned how to actually read, not just say the words but to look deep into them and understand what the writer is trying to tell us.”

The idea of Peace Linguistics (PL) has been around for decades. However, the practice of PL has only occurred much more recently, only within the last few years, since the first creditbearing, university-level PL course was taught at Brigham Young University-Hawaii in 2017. Since then, the field of NPL has grown beyond its original goals, of using peaceful language and language that avoids or de-escalates conflict. The New Peace Linguistics (NPL) focuses on in-depth, systematic analyses of the spoken and written language of some of the most powerful people in the world, such as presidents of the USA, as it is they who have the power to start wars or to bring peace. As the first book to be published on PL and on NPL, this work represents a ground-breaking study of the power of language to hurt and harm or to help and give hope. The first four chapters of the book, which provide the foundation on which the rest of the book is built, introduce the concept of Peace Linguistics and the New Peace Linguistics, starting with the origins of PL and coming to the present day. The remaining Part Two and Part Three chapters present in-depth, systematic NPL analyses of George W. Bush, Colin L. Powell, Barack H. Obama, Donald J. Trump and Joseph R. Biden. The concluding chapter reiterates the most important distinguishing and recurring features of NPL, and looks at where the field may be headed in the future.
