The Valley of Lost Stories Feb 01 2021 Beautiful, beguiling and treacherous ... Big Little Lies meets Picnic at Hanging Rock in a secluded

valley over the Blue Mountains. Four women and their children are invited to the beautiful but remote Capertee Valley, west of the Blue Mountains. Once home to a burgeoning mining industry, now all that remains are ruins slowly being swallowed by the bush and the jewel of the valley, a stunning, renovated Art Deco hotel. This is a place haunted by secrets. In 1948 Clara Black walked into the night, never to be seen again. As the valley beguiles these four friends, and haunts them in equal measure, each has to confront secrets of her own: Nathalie, with a damaged marriage; Emmie, yearning for another child; Pen, struggling as a single parent; and Alexandra, hiding in the shadow of her famous husband. But as the mystery of what happened seventy years earlier unravels, one of the women also vanishes into this bewitching but wild place, forcing devastating truths to the surface. Praise for *The Lost Summers of Driftwood*: 'McCausland is a natural storyteller who weaves love, loss, mystery and secrets into a satisfying tale' *Herald Sun* 'Full of mystery and romance, this is the perfect atmospheric summer read' *Who Weekly*

In the Valley of the Sun May 16 2022 Nominated for the 2017 Bram Stoker Award and the 2017 This Is Horror Award One night in 1980, a man becomes a monster. Travis Stillwell spends his nights searching out women in honky-tonk bars on the back roads of Texas. What he does with them doesn't make him proud – it just quiets the demons for a little while. But when he crosses paths with one particular mysterious pale-skinned girl, he wakes up weak and bloodied, with no memory of the night before. Finding refuge at a small motel, Travis develops feelings for the owner, Annabelle, but at night he fights a horrible transformation and his need to feed. Half a state away, a grizzled Texas Ranger is hunting Travis for his past misdeeds, but what he finds will lead him to a revelation far more monstrous. A man of the law, he'll have to decide how far into the darkness he'll go for the sake of

justice. "By turns spare and solemn – but also vast and treacherous – as the Southwest." Jeffrey Stayton "Davidson's rich prose plunges the reader into a hell all the more terrifying for its banality... grabs you by the throat and drags you down a twisted road." E.Z. Rinsky "A beautiful nightmare. A book that haunts, teases, and compels. a must-read for any brave horror fan." Erik Storey "Like some knives, a work of art—sharp, frightening, and elegant." Nicholas Mainieri "A perfectly paced thriller that's chillingly fun to read, but Davidson's prose transcends genre like a fresh Cormac McCarthy." Dana Chamblee Carpenter "A flint-hard, gorgeously-written nightmare." Laird Barron "With lyrical prose and creeping dread, Davidson turns the screws." Kelly J. Ford "A riveting blend of vampire horror, a serial killer's tale, and police procedural." Dana Cameron "[A] beautifully written novel that combines literary horror with police procedural." Lisa Gray, Daily Record "In this bold, confident debut, Davidson takes the vampire myth to 1980s West Texas, perfectly capturing the feel of the era and place... Davidson successfully makes the lines between genre and literary fiction bleed together in a complex novel of horror, human nature, and the American South." Publishers Weekly "This is not your typical vampire novel, rather it is actually a lyrical modern western, with a large dose of suspense...The story drips with atmosphere, and the plot and the characters will play with readers' minds. Hand this hauntingly dark, yet oddly beautiful debut to fans of literary psychological suspense who don't mind a touch of the supernatural, and especially target fans of ...Cormac McCarthy. This is one that readers won't easily forget after turning the final page." Booklist "An original synthesis of horror and Western with a dollop of police procedural. Intricately plotted, fast-paced, packing serpentine twists... Relentless momentum ... a powerful, audacious debut." Lone Star Literary Top 10 Novels of 2017 "Turns out there's a middle space between Tender Mercies and Preacher and

Henry: Portrait of a Serial Killer. It's called In the Valley of the Sun. And if I didn't know Andy Davidson had written it, I'd swear this was some long lost William Gay. I burned through this. It's got teeth on every page." Stephen Graham Jones, author of Mongrels "In the Valley of the Sun is a flint-hard, gorgeously written nightmare." Laird Barron, author of The Beautiful Thing That Awaits Us All "In the Valley of the Sun is a riveting blend of vampire horror, a serial killer's tale, and police procedural...Here is first-rate storytelling that grabs your attention and keeps you guessing." The Valley of Light Aug 19 2022 A lyrical and poignant gift from one of America's great storytellers. On a sunny summer day in 1948, Noah Locke arrives in Bowerstown, a small North Carolina community bordered by lakes and set deep in the Valley of Light. A quiet, simple man and a war veteran, Noah has a mystical gift for fishing, yet he remains haunted by the war and by the terrible scenes he witnessed when his infantry unit liberated Dachau. His wandering -- doing odd jobs and catching fish for sale or trade -- is both an escape from his past and a search for a place to call home. In the valley, Noah is initially treated with amusement by the locals he meets at Taylor Bowers's general store -- until he begins fishing. Once they see his almost magical skills, however, he becomes the talk of the valley and is urged to stay long enough to participate in the annual school fishing contest. He agrees, accepting a job offer by Taylor to paint his store when he isn't filling orders for fish. He finds lodging in an abandoned shack by a small lake the locals call the Lake of Grief and, also, the Lake of No Fish, because they think all the fish have disappeared. Noah knows they are wrong. Beneath the water is a warrior bass waiting to test Noah's gift. In the way that innocence creates powerful events, Noah meets Eleanor Cunningham, a young widow whose husband supposedly killed himself after returning home from the war.

Over the course of a week, Noah will be led into the secret lives of the residents of the Valley of Light, will join them as they mourn a tragedy, and will experience a miracle that will guide him home at last.

Luminous, memorable, and deeply moving, The Valley of Light is the finest work to date from a brilliant storyteller.

Valley of Genius Jul 26 2020 "This is the most important book on Silicon Valley I've read in two decades. It will take us all back to our roots in the counterculture, and will remind us of the true nature of the innovation process, before we tried to tame it with slogans and buzzwords." -- Po Bronson, #1 New York Times bestselling author of The Nudist on the Late Shift and Nurtureshock A candid, colorful, and comprehensive oral history that reveals the secrets of Silicon Valley -- from the origins of Apple and Atari to the present day clashes of

Google and Facebook, and all the start-ups and disruptions that happened along the way. Rarely has one economy asserted itself as swiftly--and as aggressively--as the entity we now know as Silicon Valley. Built with a seemingly permanent culture of reinvention, Silicon Valley does not fight change; it embraces it, and now powers the American economy and global innovation. So how did this omnipotent and ever-morphing place come to be? It was not by planning. It was, like many an empire before it, part luck, part timing, and part ambition. And part pure, unbridled genius... Drawing on over two hundred in-depth interviews, Valley of Genius takes readers from the dawn of the personal computer and the internet, through the heyday of the web, up to the very moment when our current technological reality was invented. It interweaves accounts of invention and betrayal, overnight success and underground exploits, to tell the story of Silicon Valley like it has never been told before. Read it to discover the stories that Valley insiders tell each other: the tall tales that are all, improbably, true.

But when one of his jokes goes too far, he reawakens an old blood feud and finds himself on a hero's quest after all. Along the way he meets a ruthless thief, a murderous rival, and a girl who may just be as fearless as he is . Jonathan Stroud has created an epic saga with a funny, unique spin, and an unforgettable anti-hero.

The Great Gatsby Apr 03 2021 At the height of his wealth, powerful

and envied, isolated in the splendor of his mansion on the Hudson, lives a man condemned to unhappiness. The young Nick Carraway, the narrator of the novel, moves to New York in the summer of 1922 and rents a house in the prestigious and dreamy Long Island, inhabited by many newly rich people frantically engaged in celebrating each other. One neighbor strikes Nick in particular: the mysterious Jay Gatsby, who lives in a huge, gaudy house, filling it every Saturday night with guests at his extravagant parties. Yet he lives in desperate loneliness and in senseless love for Nick's cousin Daisy.... In the setting of a brilliant and unsatisfied society, where the world of alcohol smugglers mixes with that of bankers and stars, Gatsby desperately pursues his dream of love for Daisy. To no avail now is its power, except to arouse in both lovers a sweet madness, which will end in tragedy.

Road to Nowhere Oct 09 2021 How to build a transportation system to provide mobility for all Road to Nowhere exposes the flaws in Silicon Valley's vision of the future: ride-hailing services such as Uber and Lyft to take us anywhere; electric cars to make them 'green'; and automation to ensure transport is cheap and ubiquitous. Such promises are implausible and potentially dangerous. As Paris Marx shows, these technological visions are a threat to our ideas of what a society should be. Electric cars are not a silver bullet for sustainability, and autonomous vehicles won't guarantee road safety. There will not be underground tunnels to eliminate traffic congestion, and micromobility services will not replace car travel any sooner than we will see the arrival of the long-awaited flying car. In response, Marx offers a vision for a more collective way of organizing transportation systems that considers the needs of poor, marginalized, and vulnerable people. The book argues that rethinking mobility can be the first step in a broader reimagining of how we design and live in our future cities. We must create streets that allow for social interaction and conviviality. We need reasons to get out of our cars and to use public means of transit determined by community needs rather than algorithmic control. Such decisions should be guided by the search for quality of life rather than for profit.

The New Valley May 24 2020 From the author of The Great Glass Sea, three linked novellas set between the Virginias about men confronting love, loss, and personal demons. Delivers great beauty” —Publishers Weekly, starred review “[Weil’s] language is exquisite, his sentences glorious. . . . Refreshing and engaging.” —Ploughshares

Accidental Empires Nov 10 2021 Computer manufacturing is--after cars, energy production and illegal drugs--the largest industry in the world, and it's one of the last great success stories in American business. Accidental Empires is the trenchant, vastly readable history of that industry, focusing as much on the astoundingly odd personalities at its core--Steve Jobs, Bill Gates, Mitch Kapor, etc. and the hacker culture they spawned as it does on the remarkable technology they created. Cringely reveals the manias and foibles of these men (they are always men) with deadpan hilarity and cogently demonstrates how their neuroses have shaped the computer business. But Cringely gives us much more than high-tech voyeurism and insider gossip. From the birth of the

transistor to the mid-life crisis of the computer industry, he spins a sweeping, uniquely American saga of creativity and ego that is at once uproarious, shocking and inspiring.

Beyond the Valley Dec 23 2022 How to repair the disconnect between designers and users, producers and consumers, and tech elites and the rest of us: toward a more democratic internet. In this provocative book, Ramesh Srinivasan describes the internet as both an enabler of frictionless efficiency and a dirty tangle of politics, economics, and other inefficient, inharmonious human activities. We may love the immediacy of Google search results, the convenience of buying from Amazon, and the elegance and power of our Apple devices, but it's a one-way, top-down process. We're not asked for our input, or our opinions—only for our data. The internet is brought to us by wealthy technologists in Silicon Valley and China. It's time, Srinivasan argues, that we think in terms beyond the Valley. Srinivasan focuses on the disconnection he sees between designers and users, producers and consumers, and tech elites and the rest of us. The recent Cambridge Analytica and Russian misinformation scandals exemplify the imbalance of a digital world that puts profits before inclusivity and democracy. In search of a more democratic internet, Srinivasan takes us to the mountains of Oaxaca, East and West Africa, China, Scandinavia, North America, and elsewhere, visiting the “design labs” of rural, low-income, and indigenous people around the world. He talks to a range of high-profile public figures—including Elizabeth Warren, David Axelrod, Eric Holder, Noam Chomsky, Lawrence Lessig, and the founders of Reddit, as well as community organizers, labor leaders, and human rights activists.. To make a better internet, Srinivasan says, we need a new ethic of diversity, openness, and inclusivity, empowering those now excluded from decisions about how technologies are designed, who profits from them, and who are surveilled and exploited by them.
