The Moon Travelers reads like no other book. Turning each page was like unravelling a puzzle, the words interwoven with mystery and uniqueness. I fully recommend!" -Katie-bree via Goodreads "I have very few 5 Star ratings, but I couldn't help but give this new author all 5! I'm excited to follow her and see what she comes up with next! *The Moon Pool* Oct 29 2020 The first scholarly edition of a classic science fiction novel. One of the most gripping fantasies ever written, *The Moon Pool* embodies all the romanticism and poetic nostalgia characteristic of A. Merritt's writings. Set on the island of Ponape, full of ruins from ancient civilizations, the novel chronicles the adventures of a party of explorers who discover a previously unknown underground world full of strange peoples and super-scientific wonders. From the depths of this world, the party unwittingly unleashes the Dweller, a monstrous terror that threatens the islands of the South Pacific. Although Merritt did not invent the lost world novel, following in the footsteps of Sir Arthur Conan Doyle, Burroughs and others, he greatly elaborated upon that tradition. This new edition includes a biography of the author, and an introduction detailing Merritt's many sources and influences, including the occult, mythological, and scientific discourses of his day.

**The Moon Hoax?** May 04 2021 This book is about the American moon-landings - and about the doubts expressed ever since concerning the reality of these landings. Were the images of men on the moon really just a huge and cleverly executed hoax? Eversberg explains the best-known claims and conspiracy theories, and analyses the evidence with the help of detailed full-colour images, as well as numerous film documents that can be accessed directly from the book. He addresses both the persistent older claims and more recently devised doubts. The book will inform and entertain a wide range of readers interested in space exploration and tells a gripping story covering physics, politics and history.

Escape to a fantastic world teeming with magical creatures of course. What Nick doesn't realize is the fantastic can be more perilous than the future. On Earth, Nick Lyons and his friends fear the deadly geneva virus, live under the ever-watchful eye of the nannydrones, and fight to stay out of the US's many refugee camps. Nick's grandfather and his mysterious friend offer an escape to a better world. Surprisingly, this new world is the moon, and it's teeming with life-breathing airships, mysterious volcano born nymphs, fire-breathing winged lions, and magic at the tip of your tongue. The catch is Nick must also accept the role of protector over the merfolk, who are being hunted down by the sinister sheriff and his thousand-eyed monsters. *I Cry Gray Mountains on the Moon* Nov 17 2019 A collection of 198 Literary Objects. Autobiography, fiction, literary experiments, spanning over twenty years of writing. The first three entries: One Saturday morning amidst cartoons and commercials I stuck my tongue out far as I could, closed my eyes, touched the tip to the screen scooted back licking everywhere inside my mouth. Then got on my knees shuffled up and pressed the top of my tongue flat on the screen for half-a-minute. That night I had nightmares:::the screen cracking and me dissolving. The next morning I named the flavor 'Silver.' In the evenings Mom would say 'Looks like you kids've been fingerpainting the tv again.' She'd go grab the Windex and the towel from the refrigerator handle. I smell glasses when I take them from the cupboard. They contain an odor of mustiness and usage:::such contradictions are

always sweet. I rinse them under tap water I mistook a stain on my sheet for a potato chip.

**Dark of the Moon** Dec 19 2019 "A historically rich reworking of Theseus and the Minotaur . . . A world and story both excitingly alien and pleasingly familiar" (Kirkus Reviews, starred review). Ariadne is destined to become a goddess of the moon. She leads a lonely life, filled with hours of rigorous training by stern priestesses. Her former friends no longer dare to look at her, much less speak to her. All that she has left are her mother and her beloved, misshapen brother Asterion, who must be held captive below the palace for his own safety. So when a ship arrives one spring day, bearing a tribute of slaves from Athens, Ariadne sneaks out to meet it. These newcomers don't know the ways of Krete; perhaps they won't be afraid of a girl who will someday be a powerful goddess. And indeed, she meets Theseus, the son of the king of Athens. Ariadne finds herself drawn to the newcomer, and soon they form a friendship—one that could perhaps become something more. Yet Theseus is doomed to die as an offering to the Minotauros, that monster beneath the palace—unless he can kill the beast first. And that "monster" is Ariadne's brother . . . "Fans of historical fiction and Greek myths should be pleased." —Booklist "Barrett offers clever commentary on the spread of gossip and an intriguing matriarchal version of the story. Fans of Greek mythology should appreciate this edgier twist on one of its most familiar tales." —Publishers Weekly

**The Moon Shines Down** May 16 2022 *The Moon Shines Down* by Margaret Wise Brown Illustrated by Linda Bleck Forgotten for decades in a dusty, tucked-away trunk, *The Moon Shines Down* brings to life once more the unmistakable voice of Margaret Wise Brown. This soon-to-be classic allows a whole new generation of children to discover, cherish, and enjoy the artistry of this beloved author. Never before published, *The Moon Shines Down* on children all over the world from right next door to across the sea, from where "a Dutch boy dreams" and "cowbells ring" to "across the sea in the Far, Far East", through the familiar

prayer: I see the Moon And the Moon sees me. God bless the Moon, And God bless me. Margaret Wise Brown (1910–1952) was a pioneer of children’s literature, choosing to write the stories that children wanted to hear—rather than those that grown-ups wanted to tell. She is best known for her now classic *Good Night Moon* and *Runaway Bunny*, which remain among the world’s best-selling children’s books. Margaret was a prolific writer, and, at the peak of her career, she had over 100 books in print. Her untimely death left numerous manuscripts and ideas behind in various stages of completion. After a time, these were tucked away in a cedar trunk and largely forgotten. It is from this forgotten trunk that *The Moon Shines Down* was rescued. Illustrator Linda Bleck began her artistic career as a child, drawing on rolls of old blueprint paper supplied by her architect father. Later, she helped her mother, a freelance illustrator for Hallmark, paint in the details of her intricate drawings. Linda’s work has appeared in *The New Yorker*, *Time Magazine*, and the *Wall Street Journal*. She is also the writer and illustrator of the “Pepper the Dog” series, which won the National Parenting Publication Award. Linda and her family now live in southern Wisconsin . . . where the moon shines down on them, one and all. *The Story Behind the Lost Manuscript . . . The Moon Shines Down* from MARGARET WISE BROWN, the Author of *Goodnight Moon* *The Moon Shines Down* is being published for the first time 56 years after the death of the beloved children’s author Margaret Wise Brown. Amazingly, this unpublished manuscript lay incomplete and forgotten in a cedar trunk in a Vermont barn. When it was discovered, the onionskin paper had yellowed and the paperclips that held the pages together had rusted. Children’s book publisher, Laura Minchew, a longtime fan of Brown, took on the challenge to complete the work. Based on the New England Sampler prayer, “God Bless the Moon and God Bless Me,” this soon-to-be bedtime classic is a prayer for God’s blessing on all the world’s children.
