A full-text reporter of decisions rendered by Federal and State courts throughout the United States on Federal and State employment practices problems. What happens when teachers share power with students? In this profound book, Ira Shor—the inventor of critical pedagogy in the United States—relates the story of an experiment that nearly went out of control. Shor provides the reader with a reenactment of one semester that shows what really can happen when one applies the theory and democratizes the classroom. This is the story of one class in which Shor tried to fully share with his students control of the curriculum and of the classroom. After twenty years of practicing critical teaching, he unexpectedly found himself faced with a student uprising that threatened the very possibility of learning. How Shor resolves these problems, while remaining true to his commitment to power-sharing and radical pedagogy, is the crux of the book. Unconventional in both form and substance, this deeply personal work weaves together student voices and thick descriptions of classroom experience with pedagogical theory to illuminate the power relations that must be negotiated if true learning is to take place. Valiant Be is a remarkable memoir of pain and resilience, and a gripping history of a family that is at once dysfunctional and deeply loving. Heather's earliest memories revolved around her parents' purchase and refurbishment of a gristmill beside the Don River, on the outskirts of Toronto. As World War 2 raged, so did tensions at home; Heather's father was a passionate artist with a mercurial temper, and her mother was a writer who wrote and published a book about their marriage. Although Heather's young life was chaotic, she learned resourcefulness from her parents, and never doubted their care. Then, at the age of four, Heather experienced a deeply traumatic incident that would change her forever and lead her to spend fifteen years in therapy for complex post-traumatic stress disorder. Still, her courage never wavered. Told through a series of vignettes, this vibrant collection of stories follows the author through childhood, university, marriage, mothering, teaching, and working as a calligrapher. Tender, revelatory, and always full of humour, this book is both a valuable time capsule and a fascinating look at how drastically the world can change in a single lifetime.
