More Stories about The Great Depression (History is Alive for Kids Book 3) Mar 03 2021 Since man developed various means to influence and control the economy, countries realized that dominance is not just attainable through conquest and military powers, but also through economics. Trade activities from the 15th century evolved from exchanging physical goods and products to trading intangible assets such as stocks and bonds. Stock Markets around the world were later established to help and sustain economic growth. Since then, a country's Stock Market has played an instrumental role in nation-building through financial means. A fall in the exchange would result in a domino effect that can be felt in various sectors and produce adverse consequences such as unemployment and inflation. Throughout history, the economy's soft power has proven time and again that it rivals the hard power of military weapons. If a country's economy falls, all citizens would have to pay its price, and everyone would experience the consequences, whether they like it or not. The Great Depression plagued the United States for more than a decade while simultaneously devastating other countries' economies. This topic offers an overview of the stories that took place in one of history's worst financial predicament. This series features specific significant times in US history that have shaped the nation in one way or another. Each featured event gives a snapshot of that piece of history to show young readers the nation's past, which has been instrumental in molding the country to what it is now. Features include ● Perfect for readers ages 6 - 12 years old ● Non-fiction chapter books perfect for the family ● Easy to read stories any young reader can enjoy ● Brings history alive for young readers to appreciate and remember Each chapter contains a crucial piece that shows what the US has been through as a nation. In reading each one, young readers will have a greater understanding of the rich history they are a part of.

[Poor-bashing](#) Jun 18 2022 The special language of poor-bashing disguises the real causes of poverty, hurts and excludes people who are poor, cheapens the labour of people who have jobs, and takes the pressure off the rich. Swanson, a twenty-five year veteran of anti-poverty work, exposes the ideology of poor-bashing in a clear, forceful style. She examines how media "poornography" operates when reporters cover poverty stories. She also reveals how government and corporate clients use poor-bashing focus groups. To make the book even more useful Swanson includes key chapters on the history of poor-bashing.

[Between Heaven and Earth](#) Dec 12 2021 *Between Heaven and Earth* explores the relationships men, women, and children have formed with the Virgin Mary and the saints in twentieth-century American Catholic history, and reflects, more broadly, on how people live in the company of sacred figures and how these relationships shape the ties between people on earth. In this boldly argued and beautifully written book, Robert Orsi also considers how scholars of religion occupy the ground in between belief and analysis,

faith and scholarship. Orsi infuses his analysis with an autobiographical voice steeped in his own Italian-American Catholic background--from the devotion of his uncle Sal, who had cerebral palsy, to a "crippled saint," Margaret of Castello; to the bond of his Tuscan grandmother with Saint Gemma Galgani. Religion exists not as a medium of making meanings, Orsi maintains, but as a network of relationships between heaven and earth involving people of all ages as well as the many sacred figures they hold dear. Orsi argues that modern academic theorizing about religion has long sanctioned dubious distinctions between "good" or "real" religious expression on the one hand and "bad" or "bogus" religion on the other, which marginalize these everyday relationships with sacred figures. This book is a brilliant critical inquiry into the lives that people make, for better or worse, between heaven and earth, and into the ways scholars of religion could better study of these worlds.

The University Jul 19 2022 The twenty-first century is lurching chaotically into a perilous and uncertain future. Once vibrant and creative, the University—now large, anachronistic, and bureaucratic—has all but exhausted its capabilities to respond to challenges and threats from within and without. Years of hypocrisy and power politics have taken their toll on the would-be “second Caltech.” Now, everything is going wrong. A cynical attempt to fire a popular young teacher, Alistair Higham, explodes as students, parents, alumni, and the professors’ professional organization come to the aid of the teacher. Investigation by the professional organization brings other injustices to light. It seems likely that the University will be censored and will lose its accreditation. The neighborhood around the University rises in protest over the latter’s ham-handed attempt to have a block of lower-middle-class houses razed to make room for a parking lot. Tight connections with industry make the University a partner in dumping toxic wastes in poor Mexican American neighborhoods and in mining in mountain wildernesses. Eventually, a crafty liaison with the oil industry comes to a head as the University is revealed to be an indirect participant in genocide in Quetzalgalpa, a remote and war-ravaged Central American country

Islam's Mandate Sep 21 2022 This work is based on the religion of Islam and the fundamental Muslims who live by Islamic Sharia law and associate themselves with Sunni Islam, or the Shi'a philosophy of the 6th imam. Islam's Mandate separates 80 % of the Muslim ummah (family) who live in Third World countries who cannot read or write from the radical world of Islam, as well as others who continue to associate themselves with the Muslim family, but have strayed from the teachings of Muhammad and are less than Islam's Muslim in their way of life. In the book, the author deals with 1500 year old beliefs of the fundamentalist, Islam's true Muslim. The questions asked and answered are, what is the true nature of Islam, and who are the real Islam Muslims in the mosques who stay hidden behind closed doors. Those who must defend against radical Islam must take them time to understand the Jihadist. It is time America pulls its head out of Muslim sand that is soaked with blood from 1500 years of Islamic aggression, and deals with the reality of what was once an oppressed tribal cult in the Arabian Desert, but is now a dominating, brutal, and repressive theocracy spreading to every corner of this planet.

Why Democracies Need an Unlovable Press Feb 20 2020 Journalism does not create democracy and democracy does not invent journalism, but what is the relationship between them? This question is at the heart of this book by world renowned sociologist and media scholar Michael Schudson. Focusing on the U.S. media but seeing them in a comparative context, Schudson brings his understanding of news as at once a story-telling and fact-centered practice to bear on a variety of controversies about what public knowledge today is and what it should be. Should experts have a role in governing democracies? Is news melodramatic or is it ironic - or is it both at different times? In the title essay, Schudson even suggests that journalism serves the interests of free expression and democracy best when it least lives up to the demands of media critics for deep thought and analysis; passion for the sensational event may be news at its democratically most powerful. Lively, provocative, unconventional, and deeply informed by a rich understanding of journalism’s history, this work collects the best of Schudson’s recent writings, including several pieces published here for the first time.

The Curious Incident of the Dog in the Night-time Nov 18 2019 Winner of the Whitbread Book of the Year 'Outstanding...a stunningly good read' Observer 'Mark Haddon's portrayal of an emotionally dissociated mind is a superb achievement... Wise and bleakly funny' Ian McEwan The Curious Incident of the Dog in the Night-Time is a murder mystery novel like no other. The detective, and narrator, is Christopher Boone.

Christopher is fifteen and has Asperger's Syndrome. He knows a very great deal about maths and very little about human beings. He loves lists, patterns and the truth. He hates the colours yellow and brown and being touched. He has never gone further than the end of the road on his own, but when he finds a neighbour's dog murdered he sets out on a terrifying journey which will turn his whole world upside down.

Christians Under Siege Apr 16 2022 Christians Under Siege, is a comprehensive study of the war on Christian values that started in the Arabian Desert, and which now reaches into Americas schools and workplace. Barrack Hussein Obama declared that the United States is not a Christian Nation. Historian Patrick Roelle disagrees. To deal with Islams terrorist we must understand Islams Terrorist. Islam rose out of the Arabia Desert because the strong oppressed the weak. The world of Islam is not just a religion, its a form of government. We are at a crossroads. Some wish to cancel God from the equation, enslave us to a future of debt we cannot repay, place our energy dependence on the Muslim world while we lock our resources in the ground, and transfer our wealth in exchange for government subsidies that will keep us subdued, and we are falling for it. Joseph Goebbels, propaganda expert and Reich Minister of Public Enlightenment and Education, for Nazi Germany once said: If you tell a lie big enough and keep repeating it, people will eventually come to believe it. The American Muslim community has successfully employed these methods these past fifty years to indoctrinate our elected officials and the mainstream press in this country. Christians Under Siege paints the true picture.

Reasons to Stay Alive Feb 14 2022 Order THE COMFORT BOOK. Available now! THE NUMBER ONE SUNDAY TIMES BESTSELLER WHAT DOES IT MEAN TO FEEL TRULY ALIVE? Aged 24, Matt Haig's world caved in. He could see no way to go on living. This is the true story of how he came through crisis, triumphed over an illness that almost destroyed him and learned to live again. A moving, funny and joyous exploration of how to live better, love better and feel more alive, Reasons to Stay Alive is more than a memoir. It is a book about making the most of your time on earth. 'I wrote this book because the oldest clichés remain the truest. Time heals. The bottom of the valley never provides the clearest view. The tunnel does have light at the end of it, even if we haven't been able to see it . . . Words, just sometimes, really can set you free.'

Nineteen Eighty-Four Jul 07 2021 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

More Stories about The Birth of America (History is Alive for Kids Book 1) May 17 2022 In the past, there was no other way to map the world except for exploration. The Europeans have been at the forefront in the Age of Discovery as they journeyed to new horizons. The Spanish and Portuguese monarchs sent numerous ships to uncharted waters to expand territories, gain wealth and resources, and spread their beliefs. The explorers found themselves having a hard time traveling from Europe to Asia as the only known route at the time was through the vast African continent. Thus, they sought to find other ways to make the journey more efficient. Around this time, people already knew that the Earth was round, so the colonizers traveled westward to find another sea route. Despite their best efforts, none were successful in finding Asia. Instead, they saw a massive continent with millions of natives already inhabiting the lands. Soon after, the colonization of the Americas begins. Upon setting foot in America, Christopher Columbus saw different species of animals and plants, various unique landforms, and native Americans who were living in their own societies. Because of his loyalty and allegiance to the Spanish Kingdom, Columbus added the already inhabited lands to the Empire's collection of territories. Since then, the Americas have been a target of European exploration and exploitation. This series features specific significant times in US history that have shaped the nation in one way or another. Each featured event gives a snapshot of that piece of history to show young readers the nation's past, which has been instrumental in molding the country to what it is now. Features include ● Perfect for readers ages 6 - 12 years old ● Non-fiction chapter books perfect for the family ● Easy to read stories any young reader can enjoy ● Brings history alive for young readers to appreciate and remember Each chapter contains a crucial piece that shows what the US has been through as a nation. In reading each one, young readers will have a greater understanding of the rich history they are a part of.

What Every Person Should Know About War Oct 10 2021 Acclaimed New York Times journalist and author Chris Hedges offers a critical -- and fascinating -- lesson in the dangerous realities of our age: a stark look at the effects of war on combatants. Utterly lacking in rhetoric or dogma, this manual relies instead on bare fact, frank description, and a spare question-and-answer format. Hedges allows U.S. military documentation of the brutalizing physical and psychological consequences of combat to speak for itself. Hedges poses dozens of questions that young soldiers might ask about combat, and then answers them by quoting from medical and psychological studies. • What are my chances of being wounded or killed if we go to war? • What does it feel like to get shot? • What do artillery shells do to you? • What is the most painful way to get wounded? • Will I be afraid? • What could happen to me in a nuclear attack? • What does it feel like to kill someone? • Can I withstand torture? • What are the long-term consequences of combat stress? • What will happen to my body after I die? This profound and devastating portrayal of the horrors to which we subject our armed forces stands as a ringing indictment of the glorification of war and the

concealment of its barbarity.

Bringing History Alive through Local People and Places Dec 24 2022 A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. *Bringing History Alive through Local People and Places* puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork Finding and visiting local museums, archives and heritage sights Choosing and using resources Using significant people, events and buildings to link with national history Environmental education and sustainable development through local history Understanding the links between history and everyday life Planning and assessing history. Based on the latest research and practice in the field, *Bringing History Alive through Local People and Places* offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children.
