### The Little Book of Big History Dec 20 2022

From the Big Bang to the future of our planet, The Little Book of Big History divides history into manageable but comprehensive time frames, encompassing the cosmos, the stars, life and everything in between. Big History is the attempt to understand and condense the entire story of the cosmos, from the Big Bang to the current day. Combining methods from history, astronomy, physics and biology to draw together the big story arcs of how the universe was created, why planets formed and how life developed, this creates a unique perspective from which to understand the place of mankind in the universe. Excited by the alternative 'framework for all knowledge' that is offered by this approach, Bill Gates is funding the Big History Project, which aims to bring the subject to a wider audience around the world. The Little Book of Big History breaks down the main themes of Big History into highly informative and accessible parts for all readers to enjoy. By giving a truly complete timeline of world events, this book shines a whole different light on history as we learned it and makes us think of our history - and our future - in a very different way.

The author has had access to fresh archive material and has interviewed many of the surviving men who were associated with Ferguson. The appeal of the Fergie lay in its lightness and utility, and also in the system of mechanized farming of which it was a part. Throughout the book, reference is made to the implements which lay at the heart of the system. Stuart Gibbard has won "Tractor and Machinery" magazine's award for the best British tractor book five years running.

The Dawn of Everything Nov 14 2019 THE NEW YORK TIMES BESTSELLER AND SUNDAY TIMES, OBSERVER AND BBC HISTORY BOOK OF THE YEAR FINALIST FOR THE ORWELL PRIZE FOR POLITICAL WRITING 2022 'Pacey and potentially revolutionary' Sunday Times 'Iconoclastic and irreverent ... an exhilarating read' The Guardian For generations, our remote ancestors have been cast as primitive and childlike - either free and equal, or thuggish and warlike.

Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a reaction to indigenous critiques of European society, and why they are wrong. In doing so, they overturn our view of human history, including the origins of farming, property, cities, democracy, slavery and civilization itself. Drawing on path-breaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we begin to see what's really there. If humans did not spend 95 per cent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of history may be less set in stone, and more full of playful possibilities than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable

intellectual range, animated by curiosity, moral vision and faith in the power of direct action. 'This is not a book. This is an intellectual feast' Nassim Nicholas Taleb 'The most profound and exciting book I've read in thirty years' Robin D. G. Kelley

Everything I Never Told You Mar 19 2020

'There is much here that might impress Pulitzer and Man Booker judges...Ng brilliantly depicts the destruction that parents can inflict on their children and on each other' Mark Lawson, Guardian Lydia is the favourite child of Marilyn and James Lee; a girl who inherited her mother's bright blue eyes and her father's jet-black hair. Her parents are determined that Lydia will fulfill the dreams they were unable to pursue - in Marilyn's case that her daughter become a doctor rather than a homemaker, in James's case that Lydia be popular at school, a girl with a busy social life and the centre of every party. But Lydia is under pressures that have nothing to do with growing up in 1970s small town Ohio. Her father is an American born of first-generation Chinese immigrants, and his ethnicity, and hers, make them conspicuous in any setting. When Lydia's body is found in the local lake, James is consumed by guilt and sets out on a reckless path that may destroy his marriage. Marilyn, devastated and vengeful, is

determined to make someone accountable, no matter what the cost. Lydia's older brother, Nathan, is convinced that local bad boy Jack is somehow involved. But it's the youngest in the family - Hannah - who observes far more than anyone realises and who may be the only one who knows what really happened. And if you loved *Everything I Never Told You*, don't miss Celeste Ng's second novel *Little Fires Everywhere* What readers are saying: 'Devastating...A truly tragic but devastatingly well written book' 'Ng is a true craftsman. I implore you to read this. Also my favourite ending of a novel so far this year' 'This is the best book I have read this year' 'Really enjoyed this book, deeply moving, sad and thought provoking'

A Little of Everything Aug 24 2020 Yesterday's general store was today's Costco, Home Depot and Superstore rolled into one - and then some. General stores sold a little of everything through the years - groceries, hardware, dry goods, caskets, corsets, spinning wheels, furniture, appliances, feeds, seeds, kerosene, gasoline, lotions and potions for man or beast, and of course candy, ice cream and pop. "General stores usually had the look of an overstuffed warehouse, and if you wanted something, they had it buried somewhere ... you only had to ask." Not only was the general store a one-stop shop, it was a place to meet and greet, gossip, solve world problems and tell tales, tall and true, a pillar of rural community life until done in by mail order catalogues, big box stores and shopping malls. Mike Parker mourns the passing of general stores more than most because his family owned and operated the Bear River Trading Company for forty years, a "sprawling emporium" that traced its beginnings to the age of sail. Until Mike's dad retired in the late 1970s, the

Bear River Trading Company was still a place of business where commercial salesmen called, wheels of cheese were displayed in a glass case, bulk kerosene was sold from the barrel and nails from a bin, purchases were wrapped in butcher's paper and tied with twine, customers phoned in weekly grocery orders for home delivery and the "men folk" gathered to swap hunting and fishing stories. The days of the general store may be long gone but thanks to Mike are not forgotten.

Illustrated with more than 500 images, *A Little of Everything* has something for everyone. For those who remember the sights, sounds and smells of an old-fashioned general store, this book will be a walk down memory lane. For those less fortunate who missed out on the waning days of the general store or are just looking for a good read with a touch of history, *A Little of Everything* opens another window to the past in Mike's long-time quest to shine light on Nova Scotia's old days, old ways.

Along the way, the author, Daniel Hertz, becomes a devoted meditation practitioner and an award-winning teacher and counselor. A pivotal part of the journey is a nearly monthlong stay at a mountain shrine in India where Hertz meets a swami who eventually arranges his marriage. The story merges lively classroom scenes from his thirty-one years as a teacher and counselor in the Minneapolis Public Schools with his twenty-six-year adventure as a student and faculty member at the Meditation Center in Minneapolis. Looking back over his life, Hertz sees that true healing began when he accepted that the one thing in life certain to happen is change.
