First published in 2007-2009, this series has been fully revised and updated for 2020. Spanning nearly 50 years of family history, the book chronicles the remarkable lives of two creative talents, Martin Sheen and Emilio Estevez. It's a story of father and son set against the backdrop of Hollywood; this narrative is organized around their physical and spiritual journey along the Camino de Santiago, Spain, the thousand-year-old pilgrimage path which traverses Galicia. It is the area from which Sheen's father emigrated to the U.S. and to which Estevez's own son has

returned. *Along the Way* will focus not just on the lives these men have chosen as artists, but also (and most importantly) on the one they have lived together. It is a story of family bonds and artistic advances and setbacks; of good choices and hard choices; of opportunities lost and opportunities found. Sheen and Estevez will share what they have experienced and learned from each other in their forty eight years as father and son, as fathers of sons, as actors and director, as spiritual seekers, and as concerned citizens of the world. Readers will meet them as real people rather than icons, as two men who have accumulated decades of wisdom and insight they are now ready to share.

An insightful volume delving into the enduringly compelling art of ancient Egypt, from a new historical perspective The art and architecture of Egypt during the age of the pharaohs continue to capture the imagination of the modern world. Among the great creative achievements of ancient Egypt are a set of constant forms: archetypes in art and architecture in which the origins of concepts such as authority, divinity, beauty, and meaning are readily discernible. Whether adapted to fine, delicate jewelry or colossal statues, these forms maintain a human face—with human ideas and emotions. These artistic templates, and the ideas they articulated, were refined and reinvented through dozens of centuries, until scenes first created for the earliest kings, around 3000 BCE, were eventually used to represent Roman emperors and the last officials of pre-Christian Egypt. Bill Manley's account of the art of ancient Egypt draws on the finest works through more than 3,000 years and places celebrated masterpieces, from

the Narmer palette to Tutankhamun's gold mask, in their original contexts in the tombs, temples, and palaces of the pharaohs and their citizens.
