Waking Up in Winter Dec 20 2019 Internationally recognized coach and New York Times bestselling author Cheryl Richardson has toured the world empowering others to make lasting change. But when Richardson's own life no longer worked as it once had, a persistent, inner voice offered unmistakable guidance: it was time to reevaluate her life to uncover what really mattered. *Waking Up in Winter* is the candid and revelatory account of how at midlife, Richardson found renewed contentment and purpose through a heroic, inward journey. The unfolding story, told through intimate journal entries, follows Richardson from the first, gentle nudges of change to a thoughtfully reimagined life – a soulful, spring awakening. With an experienced coach's intuition and an artist's eye, Richardson reexamines everything – her marriage, her work, her friendships, and her priorities – gracefully shedding parts of the self that no longer serve along the way. In the end, she not only discovers what really matters at midlife, she invites readers to join her in the inquiry process by providing thought-provoking questions designed to usher them through their own season of transformation. Offering up Richardson's most powerful teaching tool yet – her own life – *Waking Up in Winter* takes readers on a brave, spiritual adventure that shows us all how to live a more authentic and meaningful life.

Do Walk May 25 2020 One morning in 2011, Libby DeLana stepped outside her New England home for a walk. She did the same thing the next day, and the next. It became a daily habit that has culminated in her walking over 25,000 miles - the equivalent of the earth's circumference. In *Do Walk*, Libby shares the transformative nature of this simple yet powerful practice. She reveals how walking each day provides the time and space to reconnect with the world around us; process thoughts; improve our physical

wellbeing; and unlock creativity. It is the ultimate navigational tool that helps us to see who we are - beyond titles and labels, and where we want to go. With stunning photography, this inspiring and reflective guide is an invitation to step outside, and see where the path takes us.

Sexuality and Citizenship Apr 04 2021 Sexual citizenship has become a key concept in the social sciences. It describes the rights and responsibilities of citizens in sexual and intimate life, including debates over equal marriage and women's human rights, as well as shaping thinking about citizenship more generally. But what does it mean in a continually changing political landscape of gender and sexuality? In this timely intervention, Diane Richardson examines the normative underpinnings and varied critiques of sexual citizenship, asking what they mean for its future conceptual and empirical development, as well as for political activism. Clearly written, the book shows how the field of sexuality and citizenship connects to a range of important areas of debate including understandings of nationalism, identity, neoliberalism, equality, governmentality, individualization, colonialism, human rights, globalization and economic justice. Ultimately this book calls for a critical rethink of sexual citizenship. Illustrating her argument with examples drawn from across the globe, Richardson contends that this is essential if scholars want to understand the sexual politics that made the field of sexuality and citizenship studies what it is today, and to enable future analyses of the sexual inequalities that continue to mark the global order.

The 48 Laws of Power Jun 25 2020 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

But it's not a game to Bryan. He's seen the Dark Man, because the Dark Man took his brother five years ago. He's tried to tell himself that it was his imagination, that the Devil's Footsteps are just stones and the Dark Man didn't take Adam. But Adam's still gone. And then Bryan meets two other boys who have their own unsolved mysteries. Someone or something is after the children in the town. And it all comes back to the rhyme that every local child knows by heart: Thirteen steps to the Dark Man's door, Won't be turning back no more . . .
