When Jenny Chang teamed up with her husband and sister to start an Internet security company, she struggled with juggling a new business, family life, and the demands of traveling. But Trend Micro, Inc.- founded in 1988 with \$5,000 in seed money-grew into a Nikkei 225 company making more than \$1 billion per year in revenue and with operations in more than twenty countries. In this business book/memoir, she looks back at how she and her partners capitalized on the global threat of cyber-crime, turning a fledgling company into an amazing growth story. Chang does much more than just revisit the company's history: She shares the story of the three founders and their vision, and she reveals all the details behind how they transformed the security industry-and their own lives-in ways they never imagined. The statistics are staggering: security losses in the billions, unauthorized computer usage in 50 percent of businesses, \$2 million spent per company on a single virus attack. The Black Book on Corporate Security offers a wide range of solutions to these challenging problems. Written by the brightest minds in the field, each of the essays in this book takes on a different aspect of corporate security. Individual chapters cover such topics as maintaining data safety, fighting online identity theft, managing and protecting intellectual property in a shared information environment, securing content, and much more. Written in clear, intelligible language, the book is designed around a "spy" motif that presents advanced information in a simple, entertaining format. Each spread features an "Insider Notes" sidebar, while the research conducted specifically for the book is displayed in easy-to-read charts accompanied by author analysis. Case studies, a glossary, and a resource index multiply the book's utility. InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. Do you want to earn up to a 3007% annual return on your money by two trades per day on Trend Micro Inc 4704 Stock? Reading this book is the only way to have a specific strategy. This book offers you a chance to trade 4704 Stock at predicted prices. Eight methods for buying and selling 4704 Stock at predicted low/high prices are introduced. These predicted prices are very close to the lowest and highest prices of the stock in a day. All methods are explained in a very easy-to-understand way by using many examples, formulas, figures, and tables. The BIG DATA of the 4966 consecutive trading days (from August 17, 2000 to June 26, 2020) are utilized. The methods do not require any background on mathematics from readers. Furthermore, they are easy to use. Each takes you no more than 30 seconds for calculation to obtain a predicted price. The methods are not transient. They cannot be beaten by Mr. Market in several years, even until the stock doubles its current age. They are traits of Mr. Market. The reason is that the author uses the law of large numbers in the probability theory to construct them. In other words, you can use the methods in a long time without worrying about their change. The efficiency of the methods can be checked easily. Just compare the predicted prices with the actual price of the stock while referring to the probabilities of success which are shown clearly in the book (click the LOOK INSIDE button to read more information before buying this book). Depending on the number of investors who are interested in this book, the performance of the methods from the publication date will be added to the book after one year, and will be stated here in the description of the book too. You will then see that the methods in this book are outstanding or not. The book is very useful for Investors who have decided to buy the stock and keep it for a long time (as the strategy of Warren Buffett), or to sell the stock and pay attention to other stocks. The methods will help them to maximize profits for their decision. Day traders who buy and sell the stock many times in a day. Although each method is valid one time per day, the information from the methods will help the traders buy/sell the stock in the second time, third time or more in a day. Beginners to 4704 Stock.
