Internationally renowned motivational teacher, spiritual instructor, and popular theologian Caroline Myss has created a transcendent work of unique insight and revelation in *Entering the Castle*. This exciting new teaching of contemporary mysticism is also a brilliant synthesis of the psychology of consciousness and of Eastern and Western mystical traditions. Myss provides a highly original inner path to self-knowledge -- which is also the road into a spiritual knowledge of God and your own soul -- as she reveals a necessary external path, one that takes you out into the world to serve God and others as a mystic without a monastery -- without having to retreat into total silence, self-denial, or isolation. As her main template for this extraordinary, modern spiritual journey, Myss uses the beloved, revered writings of *The Interior Castle* by Teresa of Ávila. Adapting Teresa's vision of the soul as a beautiful crystal castle with many floors, or mansions, and many rooms within those mansions, Myss guides us from room to room, helping us meet different aspects of our self, our soul, and our spirit -- preparing us for the ultimate encounter with God and our own divinity. Through intense practices and methods of spiritual inquiry adapted for contemporary life, she helps us to develop our personal powers of prayer, contemplation, and intuition and to ascend the seven levels of soul knowledge that build an ever stronger interior castle of our own -- a soul of strength and stamina. As in all her books, Myss also recounts stories of profoundly moving real-life experiences -- of her own, as well as of her students and of renowned spiritual figures -- that bring home the universal truth of her insights. Presiding over the entire book and journey are the great mystics, ancient and contemporary, of Christianity, Judaism, Islam, and Hinduism with their inspiring lives and discerning spirits. And over all, the benevolence, truth, and gentle and tough love of Teresa of Ávila shine through. Doubtless Myss's most deeply personal, revealing, compassionate, and transforming book yet, *Entering the Castle* is a comprehensive guidebook for the journey of your life -- a journey into the center of your soul. There, peace, God, and a fearless bliss wait for you to discover them...and claim them for your own. This title explains how castles were built, while also providing information about different types of castles. The book also includes step-by-step instructions for projects that allow readers to build their own model of a castle. With only a tube of glue and a pair of scissors, this book becomes a superb model of a 12th century castle. With castle walls, a courtyard, stables, portcullis and the castle

itself, as well as 40 cut-out figures including the Baron, his wife and children, knights, men-at-arms and servants, it makes a everyday scene of castle life. It's three years later, and the grandkids are growing... but so are the life challenges they face! Some of them are dealing with the additional issues created by attending junior high and high school. They're playing football and basketball; participating in cheerleading competitions; building castles and dioramas for school projects; attending birthday parties and swim parties; making and revising their Christmas Lists; and generally keeping their parents and grandparents busy, with all of their activities and interests. There are more and more things they need to learn how to do, such as multiplication and division; how to ride a skateboard, or a bike; how to bake cookies; how to swim without touching the bottom of the pool; how to play the guitar; how to compute the tip to leave at a restaurant; how to download games and apps to a new mobile device; and much more. The questions they pose for Papa and Nana are getting more complex, too. Beginning with simpler questions like "Do whales eat people?"; "Can vampires come in the house if they're not invited?"; and "Is that a boy fish, or a girl fish?" they progress to more complex inquiries, such as, "Can animals talk?"; "Do other planets have days, like we do?"; "Do you believe in global warming?"; "What's it like to be an adult?"; "What do you think about the Big Bang?"; and "Do you believe in God?" Whether they're going to the Zoo; hosting a video game party; deciding which music video to watch first; visiting Papa at work; trying to cross a muddy path in the Nature Walk; reading a popular series of books; posting pictures on social media websites; dancing a Zumba workout; or making a Father's Day card, the activities and mishaps recounted in this book may help you to better appreciate the joy, wonder, and beauty of young people—and reinforce your belief in the ultimate and indispensable value of FAMILY. This book looks at and challenge the traditional teaching views of science and aims to show how scientific exploration and thinking are at the heart of child led, child-centered EYFS provision. After publishing two historical novels, Darlene Matule felt compelled to tackle a current problem—the state of marriage in America—the always legal and often sacred joining of one man and one woman. It is no secret—life has changed drastically since 1956. She asked herself, How can I promote the amazing blessings that marriage can bring—in today's climate? What promise can I bring to college students—today? To others? Matule's answer is *Sixty Shades of Love*. Her memoir reveals how she and her husband are more in love after sixty years than they were on the day they were married—despite spiritual, marital, financial, in-law, and health problems that would cause most couples to shout, "Enough!" *Sixty Shades of Love* shows millennials it is possible to find joy in a sacramental marriage. It encourages baby-boomers to give their vows another chance. It reminds seniors of the fulfillment they already have enjoyed in their own long-term commitment. Through the years, Matule found that communication, faith, determination, and the ability to adapt despite life's surprises resulted in the most precious gift a couple can ever receive—a happy marriage.
