With contributions and advice from over 40 Specialist Oxbridge Tutors, this is your Ultimate companion to the Oxbridge Interview and a MUST-BUY for those who have an upcoming interview at Oxford or Cambridge. Subjects Included: Medicine, Biology, Psychology, Chemistry, Material Science, Earth Science, Physics, Engineering, Maths, Economics (& Management), English, History, Geography, PPE (Philosophy, Politics, Economics), HSPS (Human, Social and Political Science), Classics, Law, Modern languages (French, German, Spanish, Italian, Portuguese) For more Oxbridge interview & resources, check out www.uniadmissions.co.uk Now in its fifth edition with new and revised content, So you want to go to Oxbridge is the compendium of applying to Oxford and Cambridge, packed full of over eleven years' research on how to excel in the increasingly competitive Oxbridge application process. For centuries, the idea of collegiality has been integral to the British understanding of higher education. This book examines how its values are being restructured in response to the 21st-century pressures of massification and managerialism. Excerpt from Speech on the Commission of Inquiry Into the State of the Universities of Oxford and Cambridge: Delivered by the

Right Hon. W. E. Gladstone, M. P. For the University of Oxford,
on Thursday, July 18, 1850 One of the most popular and
plausible of these, in regard to Oxford, is that, under the present
system, you have no security for the appointment of the most
competent persons to fill the office of tutor; and ingenious
arguments are used, to show how this failure may possibly
occur. But I ask this House to turn from speculation to facts. I will
try the character of the Oxford Tutors by the best test of which
the case admits, and one which, though I do not assert it to be
perfect, will nevertheless be admitted to be adequate: I mean the
honours which they have gained from the University. About the

favourite reading scheme and countless children have learnt to
read with Biff, Chip, and Kipper. We are delighted to unveil its
fresh new look for today's children, teachers and parents, with
lively new covers and fresh artwork. Engaging new artwork and
covers Alex Brychta's unique style of artwork enthralls and
entertains children, and the fresh new look will heighten their
pleasure in reading the stories. With freshly drawn artwork for all
the favourite core stories at Stages 2 - 5 and fantastic new

covers, Oxford Reading Tree is more appealing than ever! Stories children love

The Oxford Reading Tree stories have always captivated children's imagination, inspiring them to read - and the stories and characters in the new editions haven't changed at all. Apart, that is, from an exciting new story at Stage 3, The Egg Hunt, which replaces the Dolphin Pool.

Simplified structure

We have also simplified the structure of the scheme in response to feedback from you: Owls Storybooks become Stages 6 and 7 Storybooks; Magpies become Stages 8 and 9 Storybooks; Wrens at Stages 2 have become patterned stories at Stages 1+ and Stage 2; and Wrens at Stage 3 are now patterned stories at Stage 2.

New teaching support material

In addition to the existing guided reading cards, perfect for use in guided reading sessions, we have brought out new teaching materials to reflect the needs of teachers in today's classroom:

- * Flexible, friendly teacher's notes included FREE with each pack of Oxford Reading Tree books - these are easy to store and will save you hours of preparation!
- * New Take-Home cards for every Storybook from Stages 1 - 9 to help parents or carers get the most out of reading with their child
- * Free resources website at www.oup.com/uk/primary with downloadable photocopy masters
- * New Teacher's Handbook and special edition for Scotland Guidelines from ACS to help authors and editors in preparing scientific texts.

With competition to get into Oxbridge now so fierce, this book goes beyond standard application technique to focus on long-term development of intellectual potential including insight into the power of positive decision-making; how to practise independent and critical thinking skills; and how you can develop extra-curricular knowledge in genuine and impressive ways to stand out from the crowd. The book

includes practical and insider knowledge that can't be found elsewhere - like how to strategically choose your college to boost your chances of admission, and how to interpret and respond to interview questions in a way that demonstrates your intellectual curiosity and academic potential. You'll find sample personal statements; examples of interview questions for all subjects; practical advice on fees and funding; and how to manage parents and peers. There is also a chapter dedicated to International Students. The Cambridge Advanced Learner's Dictionary gives the vital support which advanced students need, especially with the essential skills: reading, writing, listening and speaking. Smart Thesaurus helps you choose the right word * QUICKfind looks up words for you while you are working or reading on screen * UNIQUE! SUPERwrite gives on screen help with grammar, spelling and collocation when you are writing * Hundreds of interactive exercises BIOGRAPHY: GENERAL. As she stood outside the enormous carved wooden gates Joyce shivered in the cold pre-dawn air. She knew the people inside here had all the rights and the likes of her had none. Some of the students had taken advantage of girls from the town and got away with it because their parents were rich or influential. And now she was about to make their beds, clean

their rooms and lug coal up flights of stairs to make their fires ... ' In the 1950s women like Joyce, Nance and Shirley lived in some of the poorest streets in Cambridge and suffered great hardships but every day their work as servants in the colleges took them into an extraordinarily privileged world. Known as 'bedders' (short for 'bedmakers'), they often became close to their charges, mothering them, covering up for them, sometimes falling in love with 'their boys', some of whom would go on to become household names. What happens if I drop an ant? What books are bad for you? What percentage of the world's water is contained in a cow? The Oxbridge undergraduate interviews are infamous for their unique ways of assessing candidates, and from these peculiar enquiries, professors can tell just how smart you really are. John Farndon has collected together 75 of the most intriguing questions taken from actual admission interviews and gives full answers to each, taking the reader through the fascinating histories, philosophies, sciences and arts that underlie each problem. This is a book for everyone who likes to think they're clever, or who thinks they'd like to be clever. And cleverness is not just knowing stuff, it's how laterally, deeply and interestingly you can bend your brain. Guesstimating the population of Croydon, for example, opens a chain of thought from which you can predict the strength of a nuclear bomb ...and that's just the start of it. This is the teacher's handbook introducing Read Write Inc. Phonics - a synthetic phonics reading scheme. It contains step-by-step guidance on implementing the programme, including teaching notes for lessons, assessment, timetables, matching charts and advice on classroom management and developing language comprehension through talk. Oxford English-English-Malay Dictionary (third edition) has proven to be the perfect study companion for intermediate and upper intermediate learners of English. It develops your writing skills and builds your vocabulary. It also helps you learn the most important words to know in English with the Oxford 3000™ keywords. The inclusion of Malay equivalent for meanings of words helps you to build your English vocabulary through Malay, thereby enabling you to use English confidently to communicate with others and to study other subjects. The three billy goats outsmart the hungry troll who lives under the bridge. The mythic status of the Oxbridge man at the height of the British Empire continues to persist in depictions of this small, elite world as an ideal of athleticism, intellectualism, tradition, and ritual. In his investigation of the origins of this myth, Paul R. Deslandes explores the everyday life of undergraduates at Oxford and

Cambridge to examine how they experienced manhood. He considers phenomena such as the dynamics of the junior common room, the competition of exams, and the social and athletic obligations of intercollegiate boat races to show how rituals, activities, relationships, and discourses all contributed to gender formation. Casting light on the lived experience of undergraduates, *Oxbridge Men* shows how an influential brand of British manliness was embraced, altered, and occasionally rejected as these students grew from boys into men. Using an inquiry-based approach to learning, *Oxford Discover* develops the communication skills and thinking skills students need for success in the 21st century. Who are your family and friends? Where can we see colors? How can we make music? *Oxford Discover* uses Big Questions such as these to tap into students' natural curiosity. It enables them to ask their own questions, find their own answers, and explore the world around them. This approach to language learning and literacy, supported by a controlled grammar and skills syllabus, helps students achieve near-native fluency in English. *Oxford Discover* gives teachers the tools to develop children's 21st century skills, creating young thinkers with great futures. Use with *Show and Tell* as part of 9-level course. Derived from the full *Oxford Dictionary of Opera*, this is the most authoritative and up-to-date dictionary of opera available in paperback. Fully revised for this new edition, with over 3,500 entries, it is designed to be accessible to all those who enjoy opera, whether at the opera-house or on record. *

- * Composers and their works
- * Singers and their notable performances
- * Plot summaries and separate entries for well-known roles, arias, and choruses
- * Leading conductors, producers, and designers
- * Opera companies and festivals

Young people in this country are facing a chasm of doubt and instability. Mental health problems are widespread, university fees are rising, job opportunities are drying up, and the prospect of ever owning a home is increasingly out of reach. But this generation is noticeably absent from the opinion columns, comment pieces and news reports of the mainstream media. From the creative minds behind Rife magazine comes this anthology of twenty passionate voices, all under the age of twenty-four, writing across a spectrum of topics that matter to them. It holds a mirror up to the experience of young people in the UK today, with essays on money, mental health, sex, gender, inequality, education, crime and the future. Bracing, honest and set against what can often seem an apocalyptic backdrop, these stories are nevertheless full of ideas and solidarity to draw on through these uncertain times. Directly linked to Oxford's bestselling DP Mathematics resources, this new Course Preparation resource thoroughly prepares students to meet the demands of IB Diploma Programme Mathematics and offers guidance to students deciding whether to take MAA or MAI, and SL or HL. If you are applying to Oxford or Cambridge Universities, you may be required to take one of the Oxbridge-specific admission tests. This text provides all the essential information you need to understand the format and structure of the tests along with vital practice in the sort of questions you will face. The book covers, in detail, the Thinking Skills Assessment (TSA) for both institutions, focusing on critical thinking and problem-solving skills. It includes a practice test with answers and explanations and also guidance on the writing task undertaken by applicants to Oxford. This revised and updated edition includes new material across all parts of the book. It

provides enhanced information on interviews and personal statements, coverage of the Sixth Term Examination Paper (STEP), and expanded sections on the other tests for English, history, physics, mathematics and computer sciences. Rosalie Hutton BSc, MSc, MCIPD, is an Occupational Psychologist who has specialised in the field of assessment and testing for 25 years. As CEO of her own company, Rosalie has designed and published a range of psychological assessment measures and is the co-author of a number of assessment books on multiple-choice questions. Glenn Hutton BA, MPhil, FCIPD, is a consultant to organisations concerned with recruitment and selection by way of assessment or examination. Previously a Police Superintendent and Head of the National Police Training Examinations and Assessment Unit, he co-authors books on criminal law and assessment. Designed for North American students, this special version of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part. Parts I-III (now available in hardcover editions) are built around a narrative detailing the life of Horace, now based more closely on historical sources, which helps students to get to know real Romans--with their daily activities, concerns, and habits--and to develop an understanding of Roman civilization during the time of Cicero and Augustus. Part IV (paperback) is a reader

consisting of extracts from Caesar, Cicero, Catullus, Virgil, Livy, and Ovid. The second edition of the Oxford Latin Course has been carefully designed to maximize student interest, understanding, and competence. It features a clearer presentation of grammar, revised narrative passages, new background sections, more emphasis on daily life and on the role of women, a greater number and variety of exercises, and review chapters and tests. Each chapter opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics--from history to food, from slavery to travel, these engaging essays present a well-rounded picture of Augustan Rome. The Oxford Latin Course, Second Edition offers today's students and teachers an exceptionally engaging and attractive introduction to the language, literature, and culture of Rome--one that builds skills effectively and is exciting to use.

Straight A student, Cambridge graduate, teacher and former A Level examiner Lucy Parsons gives you a complete formula for getting the top grades every time. Starting with unlocking your motivation and fixing your exams mindset, she guides you through a practical system that will banish procrastination and empower you to work towards your exams. Ever wondered what it's like to study at Oxford University? Former student and famous blogger Tilly Rose, a.k.a. 'that Oxford girl', gives you all the insider tips on what to expect at one of the world's top universities. Follow Tilly as she steers you through everything - from applying to Oxford, choosing a college, and preparing for interviews, to college life,

the different societies and student events on offer, and coping with study commitments. This is a fun and accessible guide, packed full of quirky illustrations and beautiful photographs of the colleges and the city itself, giving you a truly unique insight into what it's really like to be a student at Oxford University. This book is intended to help candidates prepare for entrance examinations in mathematics and scientific subjects, including STEP (Sixth Term Examination Paper). STEP is an examination used by Cambridge colleges as the basis for conditional offers. They are also used by Warwick University, and many other mathematics departments recommend that their applicants practice on the past papers even if they do not take the examination. *Advanced Problems in Mathematics* is recommended as preparation for any undergraduate mathematics course, even for students who do not plan to take the Sixth Term Examination Paper. The questions analysed in this book are all based on recent STEP questions selected to address the syllabus for Papers I and II, which is the A-level core (i.e. C1 to C4) with a few additions. Each question is followed by a comment and a full solution. The comments direct the reader's attention to key points and put the question in its true mathematical context. The solutions point students to the methodology required to address advanced mathematical problems critically and independently. This book is a must read for any student wishing to apply to scientific subjects at university level and for anybody interested in advanced mathematics. Essential reading for all armchair detectives, this collection of 33 classic whodunits is the cream of crime writing. As a minority in a predominantly white institution, taking up space is an act of resistance. Recent Cambridge grads Chelsea and Ore experienced this first-hand, and wrote *Taking Up Space* as a guide and a manifesto for change. **FOR BLACK GIRLS:** Understand that your journey is unique. Use this book as a guide. Our wish for you is that you read this and feel empowered, comforted and validated in every emotion you experience, or decision that you make. **FOR EVERYONE ELSE:** We can only hope that reading this helps you to be a better friend, parent, sibling or teacher to black girls living through what we did. It's time we stepped away from seeing this as a problem that black people are charged with solving on their own. It's a collective effort. And everyone has a role to play. Featuring honest conversations with students past and present, *Taking Up Space* goes beyond the buzzwords of diversity and inclusion and explores what those words truly mean for young black girls today. _____ #Merky Books was set up by publishers Penguin Random House and Stormzy in June 2018 to find and publish the best writers of a new generation and to publish the stories that are not being heard. #Merky Books aims to open up the world of publishing, and this year has launched a New Writer's Prize and will soon be launching a #Merky Books traineeship. 'I know too many talented writers that don't always have an outlet or a means to get their work seen, and hopefully #Merky Books can now be a reference point for them to say "I can be an author", and for that to be a realistic and achievable goal... Reading and writing as a kid were integral to where I am today and I, from the bottom of my heart,

cannot wait to hear your stories and get them out into the big wide world.' STORMZY A lighthearted reference to the two forefront institutions shares a wealth of historical facts, figures, and anecdotes that offers insight into their development of prime ministers, Nobel laureates, and other individuals of distinction, in a literary journey to their homogenized elite identity that provides complementary maps, a glossary, and a list of addresses. Presenting the very finest in vulgar humour, The Oxbridge Limerick Book revives the ancient and noble art of the filthy limerick, injects it with a large dose of twenty-first century humour and applies it to the venerable institutions of Oxford and Cambridge, giving every college in the two universities a filthy limerick to call its own. The results will cause hilarity and provoke outrage, with what is quite possibly the best and most original little book of filthy limericks to be published since 1928. "Think You Can Think?" is a practical guide to cracking the Thinking Skills Assessment (TSA), an admissions test required for a number of courses at Oxford and Cambridge universities. Packed full of juicy advice and in-depth analysis, this book gives students the opportunity to pit their logical wits against challenging critical thinking questions and complex exercises. The book includes three mock tests that replicate the real thing - each has a separate answer section and an extensive commentary, enabling students to see the different methods of finding answers as well as understanding the theory and logic behind the questions. Written by Minesh Tanna and a team of Oxbridge graduates and edited by Oxbridge Applications, the independent research consultancy that has helped over 50,000 applicants, "Think You Can Think?" equips you with the skills and expertise required for a logical, enquiring mind, both in the

heat of the examination room and in everyday life. And as for Nelson's pet tortoises ...? You'll find out if you got it right on the inside back cover. Table of contents Do you want to study at one of the most prestigious universities in the country? Updated annually to include all the vital details of the latest admissions procedures, and packed with essential advice to help you win one of the fiercely sought-after places at Oxbridge, *Getting into Oxford & Cambridge* tells you everything you need to know to get on to the course of your choice.
