However, along with The Yearling and Reap the Wild Wind and Hello, Frisco, Hello, I've also included a few surprises. Above New Orleans Jul 24 2020 The first full-length book of drone photography of the Crescent City, *Above New Orleans* offers readers perspectives never before captured by a camera. Overhead scenes cover the entire metropolis, from the French Quarter to Uptown, from the Mississippi River to Lake Pontchartrain, from Westwego to New Orleans East, and from Gentilly to Gretna. A detailed description accompanies each image, providing insight into the history, geography, and architecture of this dazzling municipality. As this volume demonstrates, the vantage points afforded by the drone-mounted camera reveal fascinating views otherwise unobtainable in the often compact environment of New Orleans. "To me a roofscape is the tout ensemble of urban elements," writes Richard Campanella in the book's preface, "particularly in dense neighborhoods, visible from a perch that is high enough to be synoptical, yet low enough to be intimate. Roofscapes are the intermediary between the more familiar concepts of streetscapes and landscapes; they are the oblique, three-dimensional renderings of cityscapes." Capturing these views of New Orleans required the specialized equipment and expertise of retired Italian engineer Marco Rasi, who has mastered the new technology of drone photography in his adopted hometown. His adept piloting and keen eye made for, in Rasi's words, "the perfect platform to capture those rooftop perspectives I had always savored, as no aircraft or helicopter could ever do." *Above New Orleans: Roofscapes of the Crescent City* beautifully documents the aesthetic wonder of the city's singular urban landscape.

Breathtaking Oct 07 2021 Geared up with two tents, six panniers, two tandem bicycles and one stuffed pink pig, Paula and Lorenz Eber set off from Seattle, Washington to cycle the world with their two daughters, eleven-year old Yvonne, and her thirteen year old sister, Anya. Their dream: to pedal in a complete circle around the world using a carbon free, environmentally friendly way to travel. Their goal: to raise awareness of asthma – a disease that Paula has suffered from her entire life – and the world's desperate need for clean air. *Breathtaking* is the exciting and inspiring true story of their adventures. Readers follow the Ebers across Europe, Asia, the South Pacific and North America as they raise their daughters around the globe. School is conducted outdoors on mountaintops. The responsibilities of parenting have been

expanded to include hunting for an English copy of the latest Harry Potter book. And family togetherness takes on a new meaning as the Ebers must work together to survive a 100-degree heat wave in Italy, drug smugglers in Russia, a broken foot in New Zealand and a tornado in the U.S. Yet, as the family pedals farther and farther away from home, they realize that the greatest challenge they face is the journey that they must undergo within themselves. They spoke about clean air and asthma to more than 150 newspapers, magazines, and TV stations, including Time for Kids, NPR, and PBS’s Roadtrip Nation.
