Exam Board: AQA Level: GCSE Subject: Biology
First Teaching: September 2016 First Exam: June
2018 AQA approved. Develop your students'
scientific thinking and practical skills within a
more rigorous curriculum; differentiated practice
questions, progress tracking, mathematical
support and assessment preparation will
consolidate understanding and develop key skills
to ensure progression. - Builds scientific
thinking, analysis and evaluation skills with

dedicated Working Scientifically tasks and support for the 8 required practicals, along with extra activities for broader learning - Supports students of all abilities with plenty of scaffolded and differentiated Test Yourself Questions, Show You Can challenges, Chapter review Questions and synoptic practice Questions - Supports Foundation and Higher tier students, with Higher tier-only content clearly marked - Builds Literacy skills for the new specification with key words highlighted and practice extended answer writing and spelling/vocabulary tests FREE GCSE SCIENCE TEACHER GUIDES These will be provided for free via our website. To request your free copies please email science@hodder.co.uk Approved by AQA, the Student Book offers high quality support you can trust. // Written by experienced Media Studies teachers and examiners. // Knowledge, understanding and skills are developed through the textbook and presented in a highly accessible way. // Includes practical approaches to developing skills, and contemporary case studies of media industries throughout. // The Non-Examined Assessment is supported with a chapter containing clear, student-focused guidance. // Contains practical suggestions for effective ways to deliver the subject content. // Designed for students of all ability levels with extension questions and tasks to stretch and challenge the most able learners. New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning

and revision. Written for the AQA AS/A Level Further Mathematics specification for first teaching from 2017, this print Student Book covers the Mechanics content for AS and A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills development and the synoptic nature of the course. Includes answers to aid independent study. This book has entered an AQA approval process. New 2017 Cambridge A Level Maths and Further Maths resources help students with learning and revision. Written for the OCR AS/A Level Mathematics specifications for first teaching from 2017, this print Student Book covers the content for AS and the first year of A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills development and the synoptic nature of the course. Includes answers to aid independent study. "Cambridge International AS and A Level Computer Science Coursebook delivers an accessible guide to theoretical and practical skills in Computer Science, with a clear progression of tasks that help to consolidate and

develop knowledge. Cambridge International AS and A Level Computer Science Coursebook offers students detailed descriptions of the concepts, reinforced with examples that outline complex subject matter in a clear way. Alongside fundamental definitions, higher level programming skills are developed through the explanation of processes and consolidated by practical exam-type questions for students to attempt."-- Publisher description. The Collins Cambridge International AS & A Level Physics course promotes a rich and deep understanding of the 9702 syllabus (for examination from 2022) and development of practical skills. This Student's Book provides in depth coverage of the Cambridge International AS & A level Physics syllabus. This text was written by experts in their field and allows students to develop practical skills in a range of contexts, deepen understanding of key concepts and make links between topics. Students are given regular opportunities to practice and revisit skills and understanding, and evaluate their learning throughout the course. Exam Board: Cambridge Assessment International Education First teaching: 2020; First examination: 2022 - Develop and strengthen practical skills throughout with assignments and experimental skills features and regular opportunities to handle, apply and evaluate data - Deepen understanding by making connections between topics. The prior understanding reviews and end of chapter mind maps provide starting points to build upon -

Build self-awareness and take control of learning using the questions and opportunities for reflection throughout the book - Challenge and strengthen learning with stretching extension questions - Prepare for examinations with exam-style questions - Full teacher support also provided including syllabus mapping, notes on common misconceptions, a wealth of activities and regular assessments including prior knowledge reviews, mid-chapter formative and end of chapter exam-style summative tests Collins is working with Cambridge Assessment International Education towards endorsement of this title. Exam board: AQA, Edexcel, OCR and WJEC Eduqas Level: AS / A-level Year 1 Subject: Maths First teaching: September 2017 First exams: June 2018 Left your A-level Maths revision to the last minute? Don't panic! Revise and prepare the year 1 / AS topics for your AS or A-level Maths exam in just one week using this effective, concise and manageable revision guide. * A revision planner that breaks all the essential topics down into a manageable 7-day programme* Concise explanations ensure topics can easily be covered in no more than 60 minutes* Summary boxes provide a final recap of the key points* Quick test questions to check recall and understanding* Exam-style questions for exam preparation The only textbook that completely covers the Oxford AQA International AS & A Level Biology specification (9610), for first teaching in September 2016. Written by experienced authors, the engaging, enquiry-based

approach ensures a thorough understanding of complex concepts and provides exam-focused practice to build assessment confidence. Help students to develop the scientific, mathematical and practical skills and knowledge needed for assessment success and the step up to university. It ensures that students understand the bigger picture, supporting their progression to further study, with synoptic links and a focus on how scientists and engineers apply their knowledge in real life. Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision. Written for the AQA AS/A Level Further Mathematics specification for first teaching from 2017, this print Student Book covers the Statistics content for AS and A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills development and the synoptic nature of the course. Includes answers to aid independent study. This book has entered an AQA approval process. Written for the

WJEC/Eduqas A/AS Level Computer Science specifications for first teaching from 2015, this print student book helps students build their knowledge and master underlying computing principles and concepts. The student book develops computational thinking, programming and problem-solving skills. Suitable for all abilities, it puts computing into context and gives students a real-life view on professional applications of computing skills. Answers to end-of-chapter questions are located in the free online teacher's resource. A Cambridge Elevate enhanced edition is also available. A new series of bespoke, full-coverage resources developed for the 2015 A Level English qualifications. Endorsed for the AQA A/AS Level English Language specifications for first teaching from 2015, this print Student Book is suitable for all abilities, providing stretch opportunities for the more able and additional scaffolding for those who need it. Helping bridge the gap between GCSE and A Level, the unique three-part structure provides essential knowledge and allows students to develop their skills through a deeper study of key topics, whilst encouraging independent learning. An enhanced digital version and free Teacher's Resource are also available. This title is endorsed by Cambridge Assessment International Education to support the full syllabus for examination from 2022. Confidently navigate the updated Cambridge International AS & A Level Biology (9700) syllabus with a structured

approach ensuring that the link between theory and practice is consolidated, scientific skills are applied, and analytical skills developed. - Enable students to monitor and build progress with short 'self-assessment' questions throughout the student text, with answers at the back of the book, so students can check their understanding as they work their way through the chapters. - Build scientific communication skills and vocabulary in written responses with a variety of exam-style questions. - Encourage understanding of historical context and scientific applications with extension boxes in the student text. - Have confidence that lessons cover the syllabus completely with a free Scheme of Work available online. - Provide additional practice with the accompanying write-in Practical Skills Workbooks, which once completed, can also be used to recap learning for revision. big day. Manage your own revision with step-by-step support from experienced examiners Sandie Harrison and David Milner. This guide also includes a Questions and Answers section with exam-style questions, student's answers for each question, and examiner comments to ensure you're exam-ready. - Plan and pace your revision with the revision planner - Use the expert tips to clarify key points - Avoid making typical mistakes with expert advice - Test yourself with end-of-topic questions and answers and tick off each topic as you complete it - Practise your exam skills with exam-style questions and answers

This title has not been through the Cambridge endorsement process. Our Revision Workbooks are designed to help students develop vital skills throughout the course and build their confidence in preparation for the exam, with guided questions, unguided questions, practice papers and a full set of answers. This book prepares students and teachers for the requirements of the 2015 AQA A Level English Language and Literature specification. Structured and written to develop the skills on which students will be assessed in the exams and coursework, students of all abilities, through the source texts, book features and approach, will be able to make clear progress. The book offers students the opportunity to build on skills acquired at GCSE, extending them into their A Level course, ensuring that they are fully prepared for the assessment requirements of the qualifications and

that students become successful, independent all-round learners. Building on years of development work on earlier editions, this brand new book includes the latest thinking and research, thus maintaining relevance and instilling confidence. Whether students are taking AS or A Level AQA English Language and Literature, this resource offers guidance and activities to help all students achieve their potential. This fully updated and accessible textbook combines Year 1 and Year 2 content for the refreshed OCR specification with brand new cases, activities and features to provide comprehensive support for the A level course. Written by experts Nigel Briggs, Nick Price and Richard Wortley, and edited by Sue Teal, the content is carefully tailored to the OCR specification. - Develop conceptual understanding with full coverage of all topics in the OCR A level specification in one book. - Establish a firm understanding with key term definitions and tables of relevant cases and legislation for each topic. - Build sound knowledge and analysis throughout the course with knowledge-based questions and revision summaries at the end of each chapter. This Student Book is endorsed by OCR - This title fully supports the specification - It has passed OCR's rigorous quality assurance programme - It is written by curriculum experts

Exam Board: Edexcel Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2016 Endorsed by Edexcel Develop and assess your students'

knowledge and mathematical skills throughout A Level with worked examples, practical assessment guidance and differentiated end of topic questions with this Edexcel Year 1 student book - Identifies the level of your students' understanding with diagnostic questions and a summary of prior knowledge at the start of the Year 1 Student Book - Provides support for all 16 required practicals with various activities and questions, along with a 'Practical' chapter covering procedural understanding and key ideas related to measurement - Mathematical skills are integrated throughout with plenty of worked examples, including notes on methods to help explain the strategies for solving each type of problem - Offers plenty of practice with Test Yourself Questions to help students assess their understanding and measure progress - Encourages further reading and study with short passages of extension material - Develops understanding with free online access to Test yourself Answers and an Extended Glossary. Edexcel A level Chemistry Year 1 Student Book includes AS level. Get your best grades with this exam-focused text that will guide you through the content and skills you need to prepare for the big day. Manage your own revision with step-by-step support from experienced examiner and author David Bevan. This guide also includes a Questions and Answers section with exam-style questions, student's answers for each question, and examiner comments to ensure you're exam-ready. - Plan and pace your

revision with the revision planner - Use the expert tips to clarify key points - Avoid making typical mistakes with expert advice - Test yourself with end-of-topic questions and answers and tick off each topic as you complete it - Practise your exam skills with exam-style questions and answers This title has not been through the Cambridge endorsement process. This is an OCR endorsed resource Encourage students to learn independently and build on their knowledge with this textbook that leads students seamlessly from basic biological concepts to more complicated theories. - Develop experimental, analytical and evaluation skills with activities that introduce the practicals required by OCR and other experimental investigations in Biology - Provide assessment guidance with synoptic questions and multiple choice questions throughout the book, and revision tips and skills all in one chapter - Strengthen understanding of key concepts with contemporary and engaging examples, illustrated with accessible diagrams and images - Give students the opportunity to apply their knowledge and understanding of all aspects of practical work with Test Yourself Questions and Exam Practice Questions - Offer detailed guidance and examples of method with a dedicated 'Maths in Biology' chapter and mathematical support throughout - Develop understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries OCR A Level Biology

Student Book 1 includes AS Level New 2017 Cambridge A Level Maths and Further Maths resources help students with learning and revision. Written for the AQA A Level Mathematics specification for first teaching from 2017, this print Student Book covers the content for the second year of A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills development and the synoptic nature of the course. Includes answers to aid independent study. This book has entered an AQA approval process. A dictionary for students studying AS/A-Level Media Studies. A new series of full-coverage resources developed for the AQA 2016 A/AS Level Geography specification. This full-colour Student Book covers all core and optional units for the AQA AS and A Level Geography specification for first teaching from September 2016. Students are encouraged to develop links between physical and human topics, understand systems, processes, and acquire geographical skills. Helping to bridge the gap from GCSE to A Level, it also provides support for fieldwork skills and for the geographical investigation at A Level. A 'Maths for geographers' feature helps students develop and apply their mathematical and statistical skills, and a range of assessment-style questions support

students in developing their exam skills. This practical write-in workbook is the perfect companion for the coursebook. It contains step-by-step guided investigations and practice questions for Cambridge International AS & A Level Biology teachers and students. Through practical investigation, it provides opportunities to develop skills- planning, identifying equipment, creating hypotheses, recording results, analysing data, and evaluating. The workbook is ideal for teachers who find running practical experiments difficult due to lack of time, resources or support. Sample data- if students can't do the experiments themselves - and answers to the questions are in the teacher's resource.

AS/A Level Maths for AQA - Core 1: Student Book

Created specifically for the AQA A/AS level English literature A specification for first teaching from 2015, this print student book is suitable for all abilities, providing stretch opportunities for the more able and additional scaffolding for those who need it. Helping bridge the gap between GCSE and A level, the unique three-part structure focuses on texts within a particular time period and supports students in interpreting texts and reflecting on how writers make meaning. This is the ideal dictionary for AS and A2 students. Unlike other dictionaries, the terms here are all directly relevant to AS/A-level biology. All the entries are clearly and concisely defined with diagrams and further explanation where appropriate. In many cases,

entries are cross-referenced to related terms and concepts and include the guidance of the author, experienced examiner Alan Clamp, on how the term should be used correctly. The Essential Word Dictionary is the perfect reference companion, whether students are new to the subject, part way through their course or revising for their exams. We are working towards endorsement of this title for the Edexcel A level specification from 2016. Develop all four language skills with exam-style practice and a thematic approach to the latest specification. - Ease the transition from GCSE to AS with transitional sub-units covering AS themes - Equip students with the tools for film and literary analysis - Build grammar and translation skills with theme-related practice . Exam Board: AQA Level: AS/A-level Subject: Computer Science First Teaching: September 2015 First Exam: June 2016 This title has been approved by AQA for use with the AS and A-level AQA Computer Science specifications. AQA A-level Computer Science gives students the chance to think creatively and progress through the AQA AS and A-level Computer Science specifications. Detailed coverage of the specifications will enrich understanding of the fundamental principles of computing, whilst a range of activities help to develop the programming skills and computational thinking skills at A-level and beyond. - Enables students to build a thorough understanding of the fundamental principles in the AQA AS and A-Level Computer Science specifications, with detailed

coverage of programming, algorithms, data structures and representation, systems, databases and networks, uses and consequences. - Helps to tackle the various demands of the course confidently, with advice and support for programming and theoretical assessments and the problem-solving or investigative project at A-level. - Develops the programming and computational thinking skills for A-level and beyond - frequent coding and question practice will help students apply their knowledge of the principles of computer science, and design, program and evaluate problem-solving computer systems. Bob Reeves is an experienced teacher with examining experience, and well-respected author of resources for Computing and ICT across the curriculum. Officially endorsed by OCR, this inspiring student book has been carefully designed to match the new OCR A Level Geology specification and has been written by experienced Geology authors and teachers. // Its engaging visual style and clear explanations support and motivate you throughout the course and help you thoroughly prepare for your assessments // Highly illustrated with large, clear diagrams and a wide range of geological photographs to illustrate the key information and content. // Case studies and key term definitions help you connect theory and reality, allowing you to apply your understanding of earth science to the examination. // Contains support for the mathematics component of the course throughout to help you develop your maths

skills. // Includes practice questions with answers to test your knowledge and help introduce you to the new assessment criteria. // This book offers targeted support to meet the demands of the 2015 AQA A Level English Language specification. Offering up-to-date material, and flagging AS specification requirements, it builds the skills students will be assessed on. From a highly experienced and trusted author team, this new book aims to help all students achieve their potential. Level & Subject: AS / A-level Year 1 Maths
First teaching: September 2017 First exams: June 2018 Prepare to excel in the new linear A-level Mathematics with this student book suitable for use with all UK exam boards. It covers all the pure, mechanics and statistics content needed for AS and A-level Year 1 for the 2017 A-level Mathematics specifications, and combines comprehensive and supportive explanations with plenty of exam-style practice. Written by expert authors, this Student Book will:
* prepare you for linear assessment with topic links and exam-style practice questions in every chapter, plus an additional exam review chapter to extend and challenge
* help you take control of your learning with prior knowledge checks to assess readiness and end-of-chapter summaries that test understanding
* support you through the course with detailed explanations, clear worked examples and plenty of practice on each topic, with short answers in the book and full worked solutions available to teachers
* build the key A-level

skills of problem-solving, modelling, communicating mathematically and working with proofs, with questions to test these skills in every section* give you plenty of practice in working with your exam board's large data set with specially designed activities in the Statistics chapters* set maths in the real-world contexts that emphasise practical applications and develop your skills using technology in maths. Includes free Student ebook to give you flexibility to study and wherever and whenever you like. Comprehensive student-friendly resources designed for teaching Cambridge International AS and A Level English Language (syllabus 9093). The core aim of this Coursebook is to help students to develop and apply the key skills they need to achieve in AS and A Level English Language. They will build the skills needed for assessment through frequent activities. Divided into two distinct parts for AS and A Level studies, the book covers a wide range of reading skills, such as understanding aspects of style, voice and tone. It also addresses the conventions of key kinds of writing and spoken language, from scripted speeches to travel articles, and looks at how they can capture these conventions in their own work. The only textbook that completely covers the Oxford AQA International AS & A Level Physics specification (9630), for first teaching in September 2016. Written by experienced authors, the engaging, international approach ensures a

thorough understanding of complex concepts and provides exam-focused practice to build assessment confidence. Help students develop the scientific, mathematical and practical skills and knowledge needed for Oxford AQA assessment success and the step up to university. Ensure students understand the bigger picture, supporting their progression to further study, with synoptic links and a focus on how scientists and engineers apply their knowledge in real life. Providing complete syllabus support (9709), this stretching and practice-focused course builds the advanced skills needed for the latest Cambridge assessments and the transition to higher education. Engaging, real world examples make mathematics relevant to real life. These engaging and accessible textbooks provide detailed coverage of the new 2017 OCR A level Law specification. From leading law authors Jacqueline Martin, Richard Wortley and Nicholas Price, it is comprehensive, authoritative and updated with important changes to the law. Important, up-to-date and interesting cases and scenarios highlight key points. Discussion and activity tasks increase your students' understanding of more difficult concepts. Examination practice, practice questions and self-test questions to help your students prepare for their exams
