A Guide to Computers, Laptops, Smart Phones Dec 05 2021 It isn't fair, but buying a computer is just plain easier for some than it is for others. Those who've purchased and used a computer in the past already have an idea of what they need in a new computer. But those who are new to the computer world could get lost in the myriad of choices available. The short answer to "What should I buy?" is "The best." Of course that answer is extremely subjective because "the best" to one person is certainly different to another. Our definition of "the best" is the fastest and the biggest, but even then the computer newbie confused. Here's a quick rundown of what the computer novice should do and why.
