Supermarket checkout girl Tracy Pringle has a very lively imagination indeed. In front of her, as she blip-blips herself into a daydream, walk past not boring housewives with screaming children or tired office clerks, but the likes of Lord Byron, Lawrence of Arabia and Princess Leia. It comes as no surprise, then, that she turns a blind eye when Her Majesty herself pops a packet of Mr Kipling's Bakewell tarts into her handbag without paying. Obviously, the management sees it differently, and Tracy is given the sack on the spot and forced to find herself another job. But nothing can prepare her for the new life that awaits her at the Taste of Persia restaurant, where she is flung headlong into a clash of cultures, languages, dinner plates, religions and a rather tricky domestic arrangement... When I woke up this morning and went to my regular coffee house, I had no idea my life was about to change forever. Cael's devastatingly handsome smile and his intense green eyes are swoon worthy enough by themselves, but add in an air of mystery and this guy is the whole package. The excitement I never knew I was missing in my life. As we grow closer, we find out the fate of two worlds is in our hands. And now we must work together to find allies to prevent a cycle of destruction that could end all life as we know it. Each time we touch, we feel a connection. I'm drawn to him in ways that I don't understand. For as long as I can remember, I've had a recurring nightmare, and now I find out that Cael has the same dream. But what does it mean? I know I can trust him with my life, but can I also trust him with my heart? The fourth installment of the best-selling Cherry Blossom Girls series has everything you've come to expect from the series: hot mutants, ridiculous action, meta fiction galore, new powers and new supers! Cherry Blossom Boy... Sounds dumb, right? But then again, this whole story has definitely come out of left field, and that was before the media got involved. If you guessed I'd be painted as a terrorist, framed by my own government, and my newfound infamy would lead to even more books sold and more enemies made, you'd be right. With my novels flying off the shelves, my story spreading across America, and the Cherry Blossom Girls finally working as a team, I should have been pretty much set. And I would be happily living my life if it weren't for the fact that we were being hunted, threatened at every turn we make. But I got an angle this time, something that should level the playing field. All I can say is that it's been a long time coming... Warning: Cherry Blossom Girls 4 contains a harem; gamelit LitRPG humor/stats; violence; telepathic, shifter, teleportation, mimic, vector and vampiric superpowers used for auto theft, mind games, and the exploitation of the general public. This series was inspired by The Tick, Stranger Things, Deadpool, Vonnegut's Breakfast of Champions, and the anime Elfen Lied. It's meta fiction at points, but you should know that by now. It also has a fair bit of humor and

insight aimed at the gamelit community. "Ruth doesn't want to be famous, she just wants to be seen and accepted for who she is. And she is prepared to defy her father to take part in a Hero talent contest to create a new team for Element City. However, she doesn't count on a team of villains from the 1970s waking themselves up, in order to bring Havoc to the present day. Neither do Martin and Hayley, who inadvertently stumble upon the villain's plot, and find themselves risking their lives to save their ultimate target: the TV show's contestants." He got up, went to work, forced people to balance their scales- either through taking lives or forced penance- went home, spent time with his daughter, slept with one of his girlfriends, and went to sleep. Only to repeat the pattern over and over and over. Life was the furthest thing from mundane that it could ever be. Warner's life had changed when his daughter had been nearly fatally injured, plunging Warner into a world of paranormal creatures, monsters, and magic that he'd never known existed. Then he came out the other side as the arbiter of Retribution. He now personally hands out justice to any and all he comes across. Warner has been using his powers considerably since then. Cutting down all who would stand before him and attempt to stop him in his personal crusade. The price he is forced to pay for such power is catching up to him. Catching up to him and forcing him to pay... with interest. Spending more of his time sick and wretched after overuse of the power, he must now begin to wonder about the balance in his own life. Each time he finds himself throwing up golden vomit that turns to blood, he has to wonder just how much damage he is causing to his own body. Except a great change in the world is coming. One that will force a reckoning no one wishes, with Warner becoming a massive lightning rod for it. The very world trembles with the actions he's taken, and quails in fright at what he must do next. Warning and minor spoiler: This novel contains graphic violence, undefined relationships/harem, unconventional opinions/beliefs, and a hero who is as tactful as a dog at a cat show. Read at your own risk. Short of money, the inventor Thomas Edison is captivated by the charismatic figure of J.P. Morgan, the 'world's banker'. Accepting Morgan's offer of almost unlimited cash in return for helping the man change the way the world does business, Edison sees himself descend from being a godlike inventor to becoming complicit in the invention of the electric chair. Ever more enmeshed in Morgan's personal life, he becomes infatuated by a world of privilege and power, where duty and desire, faith and immorality are thrown into conflict, ultimately threatening his own spiritual and creative survival. Riding on the high of success after last semester, it looks like Nick's path through Valcav Academy to become the world's greatest superhero is clear. But the

life of a superhero-in-training is always changing. Milton, Brint, Whisp, and the Guardian Guild are back in the conclusion to the Station Cores series! After the events that previously occurred near the northeastern border of the Kingdom, Milton has a lot of work to do. Not only does the Station Core have to hide his dungeon from the rampaging hordes originating from the Quizard Mountains, but he has to find somewhere to put thousands of children who are heading towards his dungeon for safety. If that wasn't bad enough, Milton also has to find a place for millions of other citizens to live; even though they don't even know who or what the Station Core is, they are counting on him to keep them safe. With that safety, though, comes a chance at something that they never thought they'd have: power...and revenge. Milton isn't just going to build more habitations for them to stay comfortably in his new Underground Kingdom; no, he has a proposition for them that they would be fools to ignore. The acquisition of new abilities means that the need for an immediate education on how to control those new powers is paramount. Strangely enough, it's time for some new students to enroll in Milton's new Guardian University. But will they be able to learn well and fast enough to get the revenge they seek? In the end, they'll have to - especially if they want to take on and defeat the army fielded by...the other Core. Contains LitRPG and GameLit elements such as level progression and experience, optional tables, no harems, and a heavy Dungeon Core emphasis. Every time I think I've finally gotten a handle on things, something new comes up that throws a wrench in my plans. That wrench could be the sudden death of a newfound friend; or an encounter with a band of powerful young Supers; or the moment the Cherry Blossom Girls and I are on the cusp of greatness, only to get broadsided by darkness. The death, the anguish, the intensity. The good times, the camaraderie, the conspiracy. This is my story, my triumphant saga, and it's one you won't soon forget...Warning: Cherry Blossom Girls 3 contains a harem; gamelit LitRPG humor/stats; violence; telepathic, shifter, teleportation and vampiric superpowers used for auto theft, mind games, and the exploitation of the general public. After learning to harness his ability to modify any item he owns, he now runs a corporation that is rapidly expanding. Legion. After tangling with the local Heroes guild they've finally settled into a semblance of stability. Sounds great on paper. Run your company, make money, be your own boss, settle down. Except that with running a business, comes an inordinate amount of responsibilities. Like making sure everything keeps running and your people are paid. Worrying about the longevity of his company, Felix begins to expand into other cities. So they've packed up the car, put in all the requisite forms, gotten the approvals, and set out to start Legion up in a new city. The problem though is the local government had no idea who they were selling permits to. Approving forms for. To Felix and Legion. And now they're about to find out. Charles Murphy's superpower is useless. He can turn into a churro. In a world where 1% of the population has powers, he's quite below average; many would say he's completely useless. And they have. At length. For years. Despite his deep-seated desire to be a hero, his ability isn't glamorous and can't be used to fight crime, so he and a small cadre of similarly useless supers are relegated to Omega Team and told explicitly that all they will ever need to do is sit there and look pretty. And while waiting to be called up to the big leagues, they might as well get laid, right? Dangerous secrets will send the Omegas on an adventure none of them could have anticipated. Can they step up to the plate and become the heroes they were meant to be? Warning: this book contains explicit content and ridiculous situations that are suitable only for adults. But not, like, adult-y adults. More like teenagers who have adult bodies. (It's lowbrow, it's what I'm saying.) Reader discretion strongly advised. 18+ only. Monster Hero Monster Harem Monster Hilarious The world's only savior might need saving. When haughty

Pitted against a freak show of creatures viler than him, an evil scientist hell-bent on bending hell, and the most terrible thing ever conceived on this planet: shark infested volcanoes... AKA Sharkanoes! It will be up to Trevor and his newfound Tele-Powers to unite a band of beautiful monster women to stop the horror... If he doesn't screw it up first! Warning: The Telephantasma Series is a comedy filled to the brim with monsters, monster sex, harems, swearing, zany characters, punishing puns, atrocious alliteration, and pulse-pounding peril that will take your money, punch you in the face, and leave you with flowers. Now, anything the introverted college student writes becomes true, and with its power, he'll finally be able to take revenge on the bullies who have tormented him over the years. There's just one problem. A group of assassins will do anything to get the pen, he accidentally made a entire squad of dancers into slaves, and his best friend somehow got an all-powerful mech. It can be read first or second, either way works. My passion in life? Saving animals. I'm the person they call when a cat has kittens under their shed or a stray dog shows up with no collar and tags. Be it dark or rain or foggy night, I'm there for friends of fur, scale, and feather alike. I just never expected one of my rescue calls to be a werewolf pup. Not like I knew it when I showed up, but something was definitely different about him. His snout was too round, his ears too pointed, and I'd thought he was a coydog; one of those dog-coyote mixes that showed up now and then. That was before he bit me. And even an alpha pup can change an innocent mortal like me into a shapeshifting powerhouse. Flung into a new world where submission might mean death and pack politics rule the secret supernatural society, I'm lost but not alone. With the pup's father, Hudson, and his packmates leading me through this strange environment, I feel as though I could take on the

world. They have everything I need; confidence, power, money. And I'm everything they could ever want. But how do we come to terms with the fact that it feels as if we've always been together? As if we all belong as a group? I haven't been on a date in years, now I have four gorgeous, rich werewolves chasing me. What's a girl to do? This book is intended for mature audiences. Adults only. This is a fated mates straight omegaverse reverse harem where the girl gets all the guys. Why choose if you don't have to? Light M/M references included. In my dreams, I remember bits and pieces of my past life. I was a queen and in love with my guard. All the queens before me had harems, both for protection and to help them wield their elemental powers. I was the first to refuse this, wanting only one man to be mine. It led to my death. Now fate has granted me a second chance. Five men are destined to become my guards and join my harem. With lavender eyes that seem to stare straight to my soul, Davin intrigued me from the moment we first met. Part of me wonders if he is supposed to be mine.
