The Poetry of Religious Sorrow in Early Modern England Jul 20 2022 In early modern England, religious sorrow was seen as a form of spiritual dialogue between the soul and God, expressing how divine grace operates at the level of human emotion. Through close readings of both Protestant and Catholic poetry, Kuchar explains how the discourses of 'devout melancholy' helped generate some of the most engaging religious verse of the period. From Robert Southwell to John Milton, from Aemilia Lanyer to John Donne, the language of 'holy mourning' informed how poets represented the most intimate and enigmatic aspects of faith as lived experience. In turn, 'holy mourning' served as a way of registering some of the most pressing theological issues of the day. By tracing poetic representations of religious sorrow from Crashaw's devotional verse to Shakespeare's weeping kings, Kuchar expands our understanding of the interconnections between poetry, theology and emotion in post-Reformation England.

Kasher in the Rye Jun 19 2022 A hopeful and inspiring "act of comedic magic" from
comedian—and now memoirist!—Moshe Kasher (Artie Lange, #1 New York Times bestselling
author of *Too Fat to Fish*). Rising young comedian Moshe Kasher is lucky to be alive. He started
using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years.
By the time he was 15, he had been in and out of several mental institutions, drifting from
therapy to rehab to arrest to...you get the picture. But *Kasher in the Rye* is not an "eye opener" to
the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a
young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an
abduction. Only not officially. She stole them away from their father and they moved to Oakland
, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He
was more than just out of control-his mother walked him around on a leash, which he chewed
through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris,
with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a
Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud
funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Design for a Vulnerable Planet Sep 29 2020 We inhabit a vulnerable planet. The devastation
caused by natural disasters such as the southern Asian tsunami, Hurricanes Katrina and Ike, and

the earthquakes in China's Sichuan province, Haiti, and Chile—as well as the ongoing depletion and degradation of the world's natural resources caused by a burgeoning human population—have made it clear that "business as usual" is no longer sustainable. We need to find ways to improve how we live on this planet while minimizing our impact on it. Design for a Vulnerable Planet sounds a call for designers and planners to go beyond traditional concepts of sustainability toward innovative new design that fosters regeneration and resilience. Drawing on his own and others' experiences across three continents, Frederick Steiner advocates design practice grounded in ecology and democracy and informed by critical regionalism and reflection. He begins by establishing the foundation for a more ecological approach to planning and design, adopting a broad view of ecology as encompassing human and natural, urban and wild environments. Steiner explores precedents for human ecological design provided by architect Paul Cret, landscape architect Ian McHarg, and developer George Mitchell while discussing their planning for the University of Texas campus, the Lake Austin watershed, and The Woodlands. Steiner then focuses on emerging Texas urbanism and extends his discussion to broader considerations beyond the Lone Star State, including regionalism, urbanism, and landscape in China and Italy. He also examines the lessons to be learned from human and natural disasters such as 9/11, Hurricane Katrina, and the BP oil spill. Finally, Steiner offers a blueprint for designing with nature to help heal the planet's vulnerabilities.

In pulsating, polluted Kathmandu and an idyllic village on a river island at the foot of the Himalayas, 'Doctor Jane' and her engineer husband Simon hope to make a difference: Jane to fulfil her vision to heal and advocate for the poor, Simon to avert the floods that threaten to devastate the land every monsoon season. The Nepali people are accepting of whatever fate flings at them and here the family find sanity, compassion and joy with baby David, who in England was little more than an 'interesting case'.
