**Allegory and Enchantment** Jan 16 2020 Jason Crawford explores the emergence of modernity by investigating the early modern poetics of allegorical narrative. He focuses on four major allegorical narratives produced in the period: William Langland's *Piers Plowman*, John Skelton's *The Bowge of Courte*, Edmund Spenser's *The Faerie Queene*, and John Bunyan's *The Pilgrim's Progress*.

**The Making of Heritage** May 12 2022 This volume explores the process of heritage making and its relation to the production of touristic places, examining several case studies around the world. Most existing literature on heritage and tourism centers either on its managerial aspects, the tourist experience, or issues related to inequality and identity politics. This volume instead establishes theoretical links between analyses of heritage and the production and reproduction of places in the context of the global tourist trade. The approach adopted here is to explore the production of heritage as a complex process shaped by local and global discourses that can have a deep impact on several policies and legislations. Heritage itself has now become not only a global discourse, but also a global practice, which may eventually lead to the use of heritage as a field for hegemony. From these perspectives, heritage making may be incorporated in the world economy, mainly through the global tourism trade. The chapters in this book stress the need for identifying the intrinsic political implications of these processes, relocating their study in political, economic and social settings. Combined with a diversified set of theoretical approaches and research methods, guided by a common thematic rationale, *The Making of Heritage* is at the forefront of current debates about

heritage.

**Anti-Tales** Feb 15 2020 The anti-(fairy) tale has long existed in the shadow of the traditional fairy tale as its flipside or evil twin. According to André Jolles in *Einfache Formen* (1930), such *Antimärchen* are contemporaneous with some of the earliest known oral variants of familiar tales. While fairy tales are generally characterised by a “spirit of optimism” (Tolkien) the anti-tale offers us no such assurances; for every “happily ever after,” there is a dissenting “they all died horribly.” The anti-tale is, however, rarely an outright opposition to the traditional form itself. Inasmuch as the anti-hero is not a villain, but may possess attributes of the hero, the anti-tale appropriates aspects of the fairy tale form, (and its equivalent genres) and re-imagines, subverts, inverts, deconstructs or satirises elements of these to present an alternate narrative interpretation, outcome or morality. In this collection, Little Red Riding Hood retaliates against the wolf, Cinderella’s stepmother provides her own account of events, and “Snow White” evolves into a postmodern vampire tale. The familiar becomes unfamiliar, revealing the underlying structures, dynamics, fractures and contradictions within the borrowed tales. Over the last half century, this dissident tradition has become increasingly popular, inspiring numerous writers, artists, musicians and filmmakers. Although anti-tales abound in contemporary art and popular culture, the term has been used sporadically in scholarship without being developed or defined. While it is clear that the aesthetics of postmodernism have provided fertile creative grounds for this tradition, the anti-tale is not just a postmodern phenomenon; rather, the “postmodern fairy tale” is only part of the picture. Broadly interdisciplinary in scope, this collection of twenty-two essays and artwork explores various manifestations of the anti-tale, from the ancient to the modern including romanticism, realism and surrealism along the way.

**Enchantment and Disenchantment** Mar 10 2022 In a famous episode of the eighteenth-century masterpiece *The Dream of the Red Chamber*, the goddess Disenchantment introduces the hero, Pao-yü, to the splendors and dangers of the Illusory Realm of Great Void. The goddess, one of the divine women in Chinese literature who inspire contradictory impulses of attachment and detachment, tells Pao-yü that the purpose of his dream visit is "disenchantment through enchantment," or "enlightenment through love." Examining a range of genres from different periods, Wai-ye Li reveals the persistence of the dialectic embodied by the goddess: while illusion originates in love and desire, it is only through love and desire that illusion can be transcended. Li begins by defining the context of these issues through the study of an entire poetic tradition, placing special emphasis on the role of language and of the feminine element. Then, focusing on the "dream plays" by T'ang Hsien-tsu, she turns to the late Ming, an age which discovers radical subjectivity, and goes on to explore a seventeenth-century collection of classical tales, *Records of the Strange* from the Liao-chai Studio by P'u Sung-ling. The latter half of the book is devoted to a thorough analysis of *The Dream of the Red Chamber*, the most profound treatment of the dialectic of enchantment and disenchantment, love and enlightenment, illusion and reality. Originally published in 1993. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

*Disenchantment with Democracy* Sep 04 2021 "For a very long period of human history, direct

physical violence used to be one of the main means of obtaining power, wealth, and prestige, as well as social control, socialization of children and regulation of social relations. Human societies were also developing various ways of controlling and curtailing direct violence, primarily the in-group one. Major changes in the social functions of violence were associated with the development of liberal thought and liberal institutions - the free market and the democratic political system. Liberal culture and liberal mentality have delegitimized all kinds of physical violence, except as defence of human rights and freedoms"--

**Enchanting a Disenchanted World** Nov 06 2021 This study is about Disney, malls, cruise lines, Las Vegas, the World Wide Web, Planet Hollywood, credit cards, and all other ways we now consume. It discusses the fundamental change that our society has undergone because of the way and the level at which we consume.

**The Disenchantment of the Orient** Dec 15 2019 A historical narrative of how Israeli expertise in Arab affairs has contributed to the creation of cultural separatism between Jews and Arabs, a separatism that exacerbates the conflict between the two peoples.

*The Disenchantment of Secular Discourse* May 20 2020 "This book presses us to look harder at closely held beliefs and to question deeply rooted premises and commitments with which we are perhaps too comfortable."---Richard W Garnett Noire Dame Law School --

**Disenchantment** Oct 25 2020

Development And Disenchantment In Rural Tunisia Mar 30 2021 The author traces the history of the fertile lower Medjerda Valley in rural Tunisia since colonial times, with a focus on national agricultural development policies, arguing that development programs have seldom taken into account the political and economic realities of the rural population.

**The Subject of Modernity** Aug 15 2022 The question of modernity has provoked a vigorous debate in the work of thinkers from Hegel to Habermas. Anthony J. Cascardi offers an historical account of the origins and transformations of the rational subject of self as it is represented in Descartes, Cervantes, Pascal, Hobbes and the Don Juan myth.

**PEIRCEAN PRINCIPLES AND DISENCHANTMENT WITH THE SOCIAL SCIENCES.** Sep 16 2022

**The Problem of Disenchantment** Nov 18 2022 Challenges the conventional view of a [disenchanted] and secular modernity, and recovers the complex relation that exists between science, religion, and esotericism in the modern world. Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine (by excluding magic and value from the realm of science, and reason and fact from the realm of religion) as the [disenchantment of the world.] Egil Asprem argues for a conceptual shift in how we view this key narrative of modernity. Instead of a sociohistorical process of disenchantment that produces increasingly rational minds, Asprem maintains that the continued presence of [magic] and [enchantment] in people's everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries. Drawing on a wide range of early twentieth-century primary sources from theoretical physics, occultism, embryology, radioactivity, psychical research, and other fields, Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value, meaning, and the limits of knowledge. [The Problem of Disenchantment is, in its entirety, extraordinarily well researched, argued, and written]representing at once the most complete and nuanced treatment of the notion of

disenchantment within this network of scientific, religious, philosophical, and esoteric discourses and currents. □ □ Nova Religio

**Vision and Disenchantment** Aug 03 2021 A challenging and persuasive interpretation of poems too often seen as part of a coherent and accepted literary tradition.

**After Disbelief** Sep 23 2020 An intimate, philosophic quest for eternity, amidst the disenchantments and disappointments of our time "Anyone who, in our age of disbelief, longs to believe in God will find Mr. Kronman worth reading."--Andrew Stark, Wall Street Journal "Aims to persuade America's 'relentlessly rational' elites to acknowledge the existence of 'divinity.' . . . Kronman's ambition is to repair 'the schism between those for whom religion continues to matter and those who view it with amusement or contempt.'"--Tunku Varadarajan, Wall Street Journal Many people of faith believe the meaning of life depends on our connection to an eternal order of some kind. Atheists deride this belief as a childish superstition. In this wise and profound book, Anthony Kronman offers an alternative to these two entrenched positions, arguing that neither addresses the complexities of the human condition. We can never reach God, as religion promises, but cannot give up the longing to do so either. We are condemned by our nature to set goals we can neither abandon nor fulfill, yet paradoxically are able to approach more closely if we try. The human condition is one of inevitable disappointment tempered by moments of joy. Resolutely humanistic and theologically inspired, this moving book offers a rational path to the love of God amidst the disenchantments of our time.

**Speaking of Magic: Enchantment and Disenchantment in Music's Modernist Ordinary** Apr 30 2021 "Speaking of Magic: Enchantment and Disenchantment in Music's Modernist Ordinary" tracks a predominant fantasy of music in global liberal-capitalist culture: music as "the only real

magic." Although discussion of music's "magic" has been characterized as a vestige of Romanticism, I argue that it became a cornerstone of ordinary or everyday music discourse at the turn of the twentieth century, around the time that sociologists defined "modernity" as mostly bereft of magic and configured the aesthetic, and especially music, as its remaining stronghold. Juxtaposing claims of magic in ordinary music discourse with a coeval archive of these "disenchantment" narratives, I trace music's institutionalization as a rare magic in the long historical moment from around 1900 to the present. This history reveals that music remains commonly experienced as "the only real magic" to the extent that it offers not only enjoyable but deeply ameliorative forms of affective connection felt to be scarce in other domains of life. As such, it points to the immense healing power that music has accrued over the last century while also adumbrating the conditions of scarcity from which this potency has emerged.

**The Ontology of Gods** Jul 02 2021 This volume offers a novel philosophical thesis on the ontology of religion, and proposes a new conceptual repertoire to deal with supernatural religion. Jibu Mathew George offers an interdisciplinary perspective on the source and dynamics of religious ideation upon which belief and faith are based, at the fundamental levels of human reasoning. Using Max Weber's concept of "Disenchantment of the World" as a point of departure, this book endeavors to provide a pioneering philosophical and psychological understanding of the nature of enchantment, disenchantment, and possible re-enchantments as they pertain to the occidental cultural history in Weberian retrospect.

Disenchantment Jul 14 2022

The Disenchantment of Reason Oct 13 2019 This book is an examination of nineteenth-century interpretations of Socrates by Hegel, Kierkegaard, and Nietzsche in the light of the contemporary

debates over rationality in the modern world. These interpretations of Socrates have fundamentally influenced modern and postmodern thought, and their complexity reflects both an attraction to, and a fear of, the peculiarly modern concept of reason that Socrates is read as embodying. Socrates is seen in this book as an emblematic figure through which the constitutive tensions between enlightenment and romanticism in modern thought can be understood. In the concluding chapter, Harrison analyzes the claims of discursive reason versus those of deconstruction in the postmodern conflict over the figure of Socrates.

Confronting Secularism in Europe and India Jul 22 2020 Can secularism continue to provide a foundation for political legitimacy? It is often claimed that one of the cultural achievements of the West has been its establishment of secular democracy, wherein religious belief is respected but confined to the sphere of private belief. In more recent times, however, political secularism has been increasingly called into question. Religious believers, in numerous traditions, have protested against the distortion and confinement that secularism imposes on their faith. Others have become uneasily aware of the way in which secularism no longer commands universal assent in the way it once did. Confronting Secularism in Europe and India adds to this debate by staging a creative encounter between European and Indian conceptions of secularism with a view to continuing new and distinctive trajectories of thought about the place and role of secularism in contemporary times. Looking at political secularism, the relationship between secularism and religion, and religious and secular violence, this book considers whether there are viable alternatives to secularism in Europe and in India.

Charisma and Disenchantment: The Vocation Lectures Feb 21 2023 A new translation of two celebrated lectures on politics, academia, and the disenchantment of the world. The German

sociologist Max Weber is one of the most venturesome, stimulating, and influential theorists of the modern condition. Among his most significant works are the so-called vocation lectures, published shortly after the end of World War I and delivered at the invitation of a group of student activists. The question the students asked Weber to address was simple and haunting: In a modern world characterized by the division of labor, economic expansion, and unrelenting change, was it still possible to consider an academic or political career as a genuine calling? In response Weber offered his famous diagnosis of “the disenchantment of the world,” along with a challenging account of the place of morality in the classroom and in research. In his second lecture he introduced the notion of political charisma, assigning it a central role in the modern state, even as he recognized that politics is more than anything “a slow and difficult drilling of holes into hard boards.” Damion Searls’s new translation brings out the power and nuance of these celebrated lectures. Paul Reitter and Chad Wellmon’s introduction describes their historical and biographical background, reception, and influence. Weber’s effort to rethink the idea of a public calling at the start of the tumultuous twentieth century is revealed to be as timely and stirring as ever.

**The Search for Meaning in Film and Television** Jun 20 2020 This book is concerned with the difficulties faced by modern Westerners in their search for a meaningful life. It sheds light on this enduring cultural dilemma through a close reading of four popular film and television narratives.

[At the Violet Hour](#) Feb 26 2021 At the Violet Hour offers a richly historicized, trenchant look at the interlocking of literature with violence in British and Irish modernist texts.

**Max Weber's Theory of Modernity** Nov 13 2019 Weber’s theory of meaning and modernity is articulated through an understanding of his account of the way in which the pursuit of meaning in the modern world has been shaped by the loss of Western religion and how such pursuit gives sense

to the phenomena of human suffering and death. Through a close, scholarly reading of Weber's extensive writings and Vocation Lectures, the author explores the concepts of 'paradox' and 'brotherliness' as found in Weber's work, in order to offer an original exposition of Weber's actual theory of how meaning and meaninglessness work in the modern world.

The Disenchantment of the World Jan 08 2022 Marcel Gauchet has launched one of the most ambitious and controversial works of speculative history recently to appear, based on the contention that Christianity is "the religion of the end of religion." In *The Disenchantment of the World*, Gauchet reinterprets the development of the modern west, with all its political and psychological complexities, in terms of mankind's changing relation to religion. He views Western history as a movement away from religious society, beginning with prophetic Judaism, gaining tremendous momentum in Christianity, and eventually leading to the rise of the political state. Gauchet's view that monotheistic religion itself was a form of social revolution is rich with implications for readers in fields across the humanities and social sciences. Life in religious society, Gauchet reminds us, involves a very different way of being than we know in our secular age: we must imagine prehistoric times where ever-present gods controlled every aspect of daily reality, and where ancestor worship grounded life's meaning in a far-off past. As prophecy-oriented religions shaped the concept of a single omnipotent God, one removed from the world and yet potentially knowable through prayer and reflection, human beings became increasingly free. Gauchet's paradoxical argument is that the development of human political and psychological autonomy must be understood against the backdrop of this double movement in religious consciousness--the growth of divine power and its increasing distance from human activity. In a fitting tribute to this passionate and brilliantly argued book, Charles Taylor offers an equally provocative foreword. Offering interpretations of key concepts

proposed by Gauchet, Taylor also explores an important question: Does religion have a place in the future of Western society? The book does not close the door on religion but rather invites us to explore its socially constructive powers, which continue to shape Western politics and conceptions of the state.

**Revolution and Disenchantment** Jun 13 2022 The Arab Revolutions that began in 2011 reignited interest in the question of theory and practice, imbuing it with a burning political urgency. In *Revolution and Disenchantment* Fadi A. Bardawil redescribes for our present how an earlier generation of revolutionaries, the 1960s Arab New Left, addressed this question. Bardawil excavates the long-lost archive of the Marxist organization Socialist Lebanon and its main theorist, Waddah Charara, who articulated answers in their political practice to fundamental issues confronting revolutionaries worldwide: intellectuals as vectors of revolutionary theory; political organizations as mediators of theory and praxis; and nonemancipatory attachments as impediments to revolutionary practice. Drawing on historical and ethnographic methods and moving beyond familiar reception narratives of Marxist thought in the postcolony, Bardawil engages in "fieldwork in theory" that analyzes how theory seduces intellectuals, cultivates sensibilities, and authorizes political practice. Throughout, Bardawil underscores the resonances and tensions between Arab intellectual traditions and Western critical theory and postcolonial theory, deftly placing intellectuals from those traditions into a much-needed conversation.

*The Language of Disenchantment* Mar 18 2020 *The Language of Disenchantment* explores how Protestant ideas about language inspired British colonial critiques of Hindu mythological, ritual, linguistic, and legal traditions.

*Disenchantment with Market Economics* Apr 11 2022 The life-worlds and personal experiences of

workers and employees in three enterprises in East Berlin at the moment of political and economic upheaval stand at the centre of the book. It sets out in 1989 at the moment of the fall of the Berlin Wall witnessing the confrontations with the market economy and examining the reinterpretations of the socialist past as the political and economic changes take place. *Disenchantment with Market Economics* captures a unique moment in history and unveils myths and promises of liberal market economy from the perspective of those who lived through the break down of the planned economy at their workplaces in East Berlin. While Western managers regarded the expansion of their businesses towards Eastern Europe as a civilising mission, the East German employees reacted with complex strategies of individual adaptation and resistance.

Disenchanted Oct 05 2021 At some point in our life, we all must reconcile our beliefs and values with reality. Intelligent, attractive and strong willed, Tiah Young had been groomed for success. An entrepreneur by 15 and across the country by 17, Tiah was ready to take the world by storm. However, she was not ready for what would happen next. On the brink of adulthood, she was diagnosed with a chronic disease. Suddenly her future looked very different than she had envisioned. Without the sense of a goal, individual activity would cease to have any meaning.

The Philosophy of Reenchantment Feb 09 2022 This book presents a philosophical study of the idea of reenchantment and its merits in the interrelated fields of philosophical anthropology, ethics, and ontology. It features chapters from leading contributors to the debate about reenchantment, including Charles Taylor, John Cottingham, Akeel Bilgrami, and Jane Bennett. The chapters examine neglected and contested notions such as enchantment, transcendence, interpretation, attention, resonance, and the sacred or reverence-worthy— notions that are crucial to human self-understanding but have no place in a scientific worldview. They also explore the significance of

adopting a reenchanted perspective for debates on major concepts such as nature, naturalism, God, ontology, and disenchantment. Taken together, they demonstrate that there is much to be gained from working with a more substantial and affirmative concept of reenchanted, understood as a fundamental existential orientation towards what is seen as meaningful and of value. The Philosophy of Reenchantment will be of interest to scholars and advanced students in philosophy—especially those working in moral philosophy, metaphysics, philosophy of religion, theology, religious studies, and sociology.

**The Disenchantment of the Orient** Aug 23 2020 A historical narrative of how Israeli expertise in Arab affairs has contributed to the creation of cultural separatism between Jews and Arabs, a separatism that exacerbates the conflict between the two peoples.

Political Trust and Disenchantment with Politics Dec 19 2022 Political Trust and Disenchantment with Politics contributes fresh empirical findings to research on the relationship between trust and participation. The results indicate that the citizens of European societies and beyond are far from an universal retreat from the political sphere.

Sacral Kingship Between Disenchantment and Re-enchantment Nov 25 2020 France and England are often seen as monarchies standing at opposite ends of the spectrum of seventeenth-century European political culture. On the one hand the Bourbon monarchy took the high road to absolutism, while on the other the Stuarts never quite recovered from the diminution of their royal authority following the regicide of Charles I in 1649. However, both monarchies shared a common medieval heritage of sacral kingship, and their histories remained deeply entangled throughout the century. This study focuses on the interaction between ideas of monarchy and images of power in the two countries between the execution of Mary Queen of Scots and the Glorious Revolution. It

demonstrates that even in periods when politics were seemingly secularized, as in France at the end of the Wars of Religion, and in latter seventeenth- century England, the appeal to religious images and values still lent legitimacy to royal authority by emphasizing the sacral aura or providential role which church and religion conferred on monarchs.

*Disenchantment* Apr 18 2020 *Disenchantment* is war poetry by C. E. Montague that depicts the sense of frustration soldiers had with their leaderships and their countrymen. Centered around the happenings of the Great War, it describes the callous behavior of the rich against the poor during a time of need. It depicts a powerful view of Britain in the First World War which could have been, as suggested, avoided.

*Beyond the Witch Trials* Dec 27 2020 *Beyond the witch trials* provides an important collection of essays on the nature of witchcraft and magic in European society during the Enlightenment. The book is innovative not only because it pushes forward the study of witchcraft into the eighteenth century, but because it provides the reader with a challenging variety of different approaches and sources of information. The essays, which cover England, Netherlands, Spain, Italy, Germany, Scotland, Finland and Sweden, examine the experience of and attitudes towards witchcraft from both above and below. While they demonstrate the continued widespread fear of witches amongst the masses, they also provide a corrective to the notion that intellectual society lost interest in the question of witchcraft. While witchcraft prosecutions were comparatively rare by the mid-eighteenth century, the intellectual debate did not disappear; it either became more private or refocused on such issues as possession. The contributors come from different academic disciplines, and by borrowing from literary theory, archaeology and folklore they move beyond the usual historical perspectives and sources. They emphasise the importance of studying such themes as the aftermath of witch

trials, the continued role of cunning-folk in society, and the nature of the witchcraft discourse in different social contexts. This book will be essential reading for those interested in the decline of the European witch trials and the continued importance of witchcraft and magic during the Enlightenment. More generally it will appeal to those with a lively interest in the cultural history of the late seventeenth and eighteenth centuries. This is the first of a two-volume set of books looking at the phenomenon of witchcraft, magic and the occult in Europe since the seventeenth century.

**The Power of the Sacred** Jun 01 2021 ""Disenchantment" is a key term in the self-understanding of modernity. But what exactly do we mean when we use this concept? What was its original meaning when Max Weber introduced it? And can the conventional meaning or Max Weber's view really be defended, given the present state of knowledge about the history of religion? This book is an attempt to divest this concept of its enduring enchantment. The first chapters of the book deal with the three empirical disciplines history, psychology and sociology of religion to develop an understanding of religion that then lays the groundwork for what is presented in chapter 4, namely the most thorough study of Weber's views on disenchantment that has ever been undertaken. It turns out that Weber's use was highly ambiguous and that his grand narrative leading from the prophets of ancient Judaism to the crisis of meaning on the eve of the First World War collapses when we recognize this ambiguity. This makes it possible to construct an alternative that takes into account the dynamics of ever new sacralizations, their normative evaluation in the light of the values of a universalist morality and the dangers of the misuse of religion in connection with the formation of power. This book constitutes a challenge - for believers and non-believers alike"--

Writing disenchantment Oct 17 2022 It has become axiomatic that First World War literature was disenchanted, or disillusioned, and returning combatants were unable to process or communicate

that experience. In *Writing disenchantment*, Andrew Frayn argues that this was not just about the war: non-combatants were just as disenchanting as those who fought, and writers such as D. H. Lawrence and Virginia Woolf produced some of the sharpest criticisms. Its language already existed in contemporary sociological and historical accounts of the problems of mass culture and the modern city, whose structures contained the conflict and were strengthened during it. Archival material, sales data and reviews are used to chart disenchantment in a wide range of early twentieth-century war literature from novels about fears of invasion and pacifism, through the modernist novels of the 1920s to its dominance in the War Books Boom of 1928–30. This book will appeal to scholars and students of English literature, social and cultural history, and gender studies.

**The Vocation Lectures** Jan 28 2021 Originally published separately, Weber's 'Science as a Vocation' and 'Politics as a Vocation' stand as the classic formulations of his positions on two related subjects that go to the heart of his thought: the nature and status of science and its claims to authority; and the nature and status of political claims and the ultimate justification for such claims. Together in this volume, these newly translated lectures offer an ideal point of entry into Weber's central project: understanding how, as Weber put it, "in the West alone there have appeared cultural manifestations [that seem to] go in the direction of universal significance and validity."

*The Myth of Disenchantment* Jan 20 2023 A great many theorists have argued that the defining feature of modernity is that people no longer believe in spirits, myths, or magic. Jason A. Josephson-Storm argues that as broad cultural history goes, this narrative is wrong, as attempts to suppress magic have failed more often than they have succeeded. Even the human sciences have been more enchanted than is commonly supposed. But that raises the question: How did a magical, spiritualist, mesmerized Europe ever convince itself that it was disenchanting? Josephson-Storm traces the

history of the myth of disenchantment in the births of philosophy, anthropology, sociology, folklore, psychoanalysis, and religious studies. Ironically, the myth of mythless modernity formed at the very time that Britain, France, and Germany were in the midst of occult and spiritualist revivals. Indeed, Josephson-Storm argues, these disciplines' founding figures were not only aware of, but profoundly enmeshed in, the occult milieu; and it was specifically in response to this burgeoning culture of spirits and magic that they produced notions of a disenchanted world. By providing a novel history of the human sciences and their connection to esotericism, *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past.

**Evangelical Disenchantment** Dec 07 2021 "David Hempton looks at evangelicalism through the lens of well-known individuals who once embraced the evangelical tradition, but later repudiated it. The author recounts the faith journeys of nine creative artists, social reformers, and public intellectuals of the nineteenth and twentieth centuries"--Publisher description.
