Nancy Caroline's Emergency Care in the Streets Feb 09 2022 Think back to a time when paramedics didn't exist. When "drivers" simply brought injured patients to the hospital. When the EMS industry was in its infancy. A time before Nancy Caroline. Dr. Caroline's work transformed EMS and the entire paramedic field. She created the first national standard curriculum for paramedic training in the United States. She also wrote the first paramedic textbook: *Emergency Care in the Streets*. The impact that Dr. Caroline had on EMS and health care spanned across the U.S. and abroad. From establishing EMS systems to training paramedics, to providing better nourishment and health care for orphans, her work had a profound impact on humanity. Throughout her life, Dr. Caroline brought a sense of excitement, joy, and humor to her work. The American Academy of Orthopaedic Surgeons is proud to continue Dr. Caroline's legacy. Her sense of excitement and humor live on in this text, which is dedicated to her. The Sixth Edition honors Dr. Caroline's work with a clear, fun, understandable writing style for which she was known. Welcome back a familiar training companion to your classroom! Say hello to Sidney Sinus, AV Abe, and a cast of memorable characters and amusing anecdotes. Make learning for your students more fun!

**Veterinary Clinical Parasitology Oct 05 2021** Veterinary Clinical Parasitology, Eighth Edition, prepared under the auspices of the American Association of Veterinary Parasitologists (AAVP), emphasizes the morphologic identification of both internal and external parasites of domestic animals. Focusing on the tests and information most relevant to daily practice, the book describes accurate, cost-effective techniques for diagnosing parasitic infections in animals. Including clear, easy-to-find information on the distribution, life cycle, and importance of each parasite, Veterinary Clinical Parasitology offers more than 450 images to aid with diagnosis. The Eighth Edition includes a new chapter on immunologic and molecular diagnosis, increased coverage of ticks and new sections on identification of microfilariae and larvae in diagnostic samples. The new edition also features expanded information on quantitative egg counts, detection of anthelmintic resistance and identification of ruminant strongylid larvae. Additional improvements include many new images throughout the book, revised taxonomic information, a new layout featuring tabs by section to improve user-friendliness, and a companion website offering the images from the book in PowerPoint at [www.wiley.com/go/zajac](http://www.wiley.com/go/zajac). Veterinary Clinical Parasitology is a highly practical benchside reference invaluable to clinicians, technicians, and students.

**First Aid at Sea Aug 23 2020** Fully updated 8th edition of this easy-to-access instant guide to emergency first aid for all seafarers. This essential guide to first aid afloat is an essential part of any on-board medical kit. Its waterproof ring-bound pages, colour-coded tabs and clear layout make it easy to use in an emergency. This revised new edition has been updated with latest medical practice, including information relating to Covid-19, expanded information on treating burns, new section on diving accidents, and updates to advice on certain illnesses and first aid kit contents. Clear, easy-to-follow illustrations make it ideal for crew members with limited training in first aid. Key features include: · Concise descriptions of each medical condition · Prioritised lists of treatments · Ringbinding to make the pages easy to turn and enable the book to lie flat · Waterproofed pages to withstand use at sea · A colour-coded thumb index to emergencies for quick reference · Covers all the medical emergencies likely to be encountered at sea · Fully updated in line with current guidelines and best practice Here is some praise for previous editions in the sailing press: 'A highly practical on-board emergency tool written by doctors who sail' – Yachting Monthly 'A handy companion not only detailing medical procedures but providing some information on emergency communications' – Sailing Today

**Security Manual Apr 11 2022** Security Manual provides practical guidance on all aspects of security work and is a ready made source of information for

all members of the security profession, including managers, supervisors and trainers. This eighth edition has been fully restructured to better reflect recent changes in the criminal law, fire protection and security practices. New chapters on powers of arrest, industrial disputes, conflict resolution, dealing with emergencies, cultural awareness and door supervising have been added, including the latest information and procedures that should be adopted in relation to an act of terrorism. The manual continues to pay attention to the law of theft, other criminal offences affecting security and the basics of security practice, and can rightly be regarded as the standard overall work on the subject and a practical reference for existing security practitioners and those who are aspiring to enter the security profession. Security Manual is also ideal for those seeking professional qualifications such as: NVQ Levels 1, 2 and 3 in Security Guarding and for Supervisors; NVQ Level 3 in Investigations; C&G, BIIAB and NCFE qualifications in Door Supervision. Security Manual is the essential guide to this subject, and has been described as 'standard issue for every security officer, along with the uniform'.

Introduction to Technical Services, 8th Edition Dec 15 2019 Used in library schools worldwide, this standard text provides students with a thorough understanding of technical services. Updated and expanded, the eighth edition further emphasizes the rapidly changing environment in which technical services are conducted. The book covers all aspects of the field—from acquisitions to managing the cataloging department—with five new chapters. "Technical Services Issues" includes material related to physical space needs; "E-resources Issues" examines how the growth of e-materials impact technical services work; "Copy Cataloging" reflects the ever increasing need to be more efficient and also to save limited funds for technical services activities; "Overview and Decisions" addresses the issue of why and how the local OPAC has become a gateway to the universe of knowledge; and "Processing Materials" covers the activities involved in making sure items that go into a library's collection are properly identified as belonging to the library and where the item is physically located in the collection. All other chapters have been extensively rewritten and updated to reflect 2010 technical service functions and activities. Complete with helpful illustrations, statistics, and study guide questions, this text is a must for library and information science students!

The Paradoxes of Aid Work Apr 30 2021 This book explores what attracts people to aidwork and to what extent the promises of aidwork are fulfilled. 'Aidland' is a highly complex and heterogeneous context which includes many different occupations, forms of employment and organizations. Analysing the processes that lead to the involvement in development cooperation, emergency relief and human rights work and tracing the pathways into and through Aidland, the book addresses working and living conditions in Aidland, gender relations and inequality among aid personnel and what impact aidwork has on the life-courses of aidworkers. In order to capture the trajectories that lead to Aidland a biographical perspective is employed which reveals that boundary crossing between development cooperation, emergency relief and human rights is not unusual and that considering these fields as separate spheres might overlook important connections. Rich reflexive data is used to theorize about the often contradictory experiences of people working in aid whose careers are shaped by geo-politics, changing priorities of donors and a changing composition of the aid sector. Exploring the life worlds of people working in aid, this book contributes to the emerging sociology and anthropology of aidwork and will be of interest to professionals and researchers in humanitarian and development studies, sociology, anthropology, political science and international relations, international social work and social psychology.
