Gardening is now the favorite leisure pastime in America. Homeowners are realizing the health benefits derived from gardening and the increase in their home's property value. The Illinois Gardener's Guide: Revised Edition is written by the popular gardening expert James Fizzell. It contains easy-to-use advice on the top landscape plant choices (more than 190 entries) for Illinois. It also recommends specific varieties, and provides advice on how to plant, how to grow and how to care for Illinois' best plants. It is a must read for every Illinois gardener. "First edition published as Guide to the vascular flora of Illinois in 1975. Second edition published as Guide to the vascular flora of Illinois, revised and enlarged edition, in 1986. Third edition published as Vascular flora of Illinois." In this updated edition, it's plain to see that the state of Illinois has only gotten weirder. Where there was once just a single Popeye statue in downstate Chester, today the town has monuments to Olive Oyl, Swee' Pea, Bluto, the Sea Hag, and more. The creepy Piasa Bird petroglyph on the bluff in Alton now has a roadside pullout with picnic tables, and the two-story outhouse in Gays has a new

contemplative garden. With almost twice as many destinations as its predecessor, this edition boasts detailed information on each site—address, phone number, website, hours, entry fees, and driving directions—as well as maps, photos, and a wealth of regional history in the descriptions. Some new sites include Henry's Rabbit Ranch, the World's First Jungle Gym, Ahlgrim Acres (a miniature golf course at a funeral home), the Leather Archives and Museum, General Santa Ana's two wooden legs, the World's Largest Sock Monkey, the Friendship Shoe Fence, a truck stop with a marionette show, and a coin-operated fire-breathing dragon. There is more between Chicago and St. Louis than cornfields and plenty of fascinating places in the Windy City that aren't on Michigan Avenue, and here is a chance to see these underappreciated sites throughout the state.

Excerpt from *Illinois State Museum of Natural History: General Guide* This volume is intended to serve as a general introduction to the collections Of the Illinois State Museum. The work Of preparing it has involved considerable investigation since although the museum has been in existence for sixty-three years and contains more than a hundred thousand specimens, no work Of this kind has been previously attempted. Excerpt from *A Reader's Guide to Illinois Literature* Our focus is on literature about Illinois: its history and mythology, its social character and politics; its people and landscape. The authors and bibliographers have reviewed hundreds of works by Illinois writers past and present, Chicago and downstate, selecting from among these some of the finest and best-known books, as well as those that are the most Significant in terms of Illinois subject matter. Many of the titles are obscure; many others would make highbrow literary critics sneer; a few, on the other hand, are

masterpieces by any standard. But, good or bad, we believe that every work mentioned in the Reader's Guide is _worth reading, both for literary pleasure and for instruction in the Illinois character. Excerpt from A Guide to County Records in the Illinois Regional Archives The publication of this guide to the holdings of the Illinois Regional Archival Depository (irad) system is an important outcome of efforts begun nine years ago. Planning for irad began in 1974 when the disposal of materials under Illinois' Local Records Act, administered by the State Archives, first reached appreciable levels. That program was thus successful from the viewpoint of local officials, but it did not address questions of the preservation and research use of permanently valuable records. The new regional system was designed not simply to prevent the disposal of such records, but also to provide access to them in the most practicable fashion. The system directly complements the Archives' holdings of state agency records as well. Building the system demanded extended negotiations, of course, but those efforts were rewarding. Through them Archives staff found that there existed across the state a real interest in the preservation of the public records that re?ect our past. Not only did archivists and histo rians welcome our efforts, but energetic groups of family historians and even many local officials wished us well. By the latter part of 1975 agreements were signed between the Office of the Secretary of State and the six universities which serve as depositories. Each university agreed to provide secure storage space and public access for the records of its geographic area; the Archives undertook to meet the costs of the system's staff of graduate interns, and to supply all coordination and support services necessary; and the National Endowment for the

Humanities contributed a timely and generous grant to meet costs of the first two years' operations. During the Spring of 1976 the first graduate interns were chosen, and the system began to function in August of that year. Since that time it has accessioned more than cubic feet of original records, and reels of microfilmed material, from ninety-five counties of a target of 101. It has built a collection that is especially strong in the areas of public education, probate, taxation, and elections. The State Archives' program has benefited from the regional system in a number of ways. We have broadened and improved our relations with history faculties in the state. We have expanded markedly the reference services we are able to deliver. The graduate interns have formed a recruitment pool for the Archives and, happily, a number of other historical agencies. Our recent publication, *Windows to the Past*, issued in 1982, drew upon the system's holdings for the facsimile documents it contained. Even the format of this present guide is a distinct achievement, as an effective means to deal with problems of record series formation and description that textbook procedures could resolve only by extremely cumbersome forms.
