Broken to Be BeautifulApr 04 2021 Xenia always dreamed of having a perfect marriage and when she was 18 years old she fell in love with Richard. She thought her dreams had come true, but his funny, quirky behaviours very quickly changed into more sinister motives. She then spent 15 years navigating her way through the destructive behaviours of her first husband. Domestic violence was demonstrated through control, manipulation and sexual abuse, even after their separation he sought to control her by using their four children against her, making the next few years even harder than she ever could have imagined. Xenia's honest, candid and raw account of her story creates hope and awareness for every reader. Through the struggle and fight to survive, the warrior that was deeply implanted inside of her, emerged. She found a strength she never knew she could possibly possess. Through her recovery she found the romance she always dreamed of with her soul mate, where she discovered what a perfect marriage really looked like. This is a true story of one woman's battle to overcome domestic violence and discover when all was stripped away, she found what emerged, was a restored woman, able to conquer her past.

No Turning BackNov 23 2022 An exceptional memoir about one man's truly inspirational outlook on living, no

matter the odds. Before you dig into this book, there are a few things I think you should know. First, I was a soldier, and I still talk like one-in other words, I swear. So, if bad words bother you, just squint and pretend you don't see them. I want you to know this book is not about the war in Iraq, and I'm not pushing a political agenda. Even though I'm going to tell you about the day I was wounded and what I went through during rehab, this book's not just some war memoir or a pity party. I just want to share some of my stories with you. This book is not about being wounded. It's not about struggling. This book is about living. It's about life. In this inspiring memoir, Bryan shares his infectious love for life that touches anyone who's faced hardship. *No Turning Back* is a testament to pure hard work, perseverance, and hope for a better life- no matter what shape it takes.

Not a StatistFeb 20 2020 The story of Emma Wilson's harrowing early life experiences which were sharply defined by a tragic act of gun violence that changed her - and her entire family's - lives forever. Wilson witnessed her father fatally shoot her mother when she was just a child. Later, she had a baby at 16. Many might assume that, with the odds against her, she gave up or was visited by more misfortune. The traumas can set one up for a string of lifelong failures. Emma was different, however. Instead of allowing these events to define both her and her future, they did just the opposite: They kindled the fire within her not only to survive, but to succeed. She set her sights on becoming the best mother she could be and a role model to her son, providing him with the safe, happy family life she was not fortunate enough to enjoy, gaining as much higher education as she could, and pursuing distinguished careers in education, the military, an entrepreneur, and an investor in real estate and her community. Trauma at any age turns one's world upside down and leave them completely broken inside and emotionally paralyzed, but the effects of severe childhood trauma are even more serious, virtually guaranteeing an adverse impact on the emotional life, physical health, and overall wellbeing of the sufferer far into adulthood. Wilson chronicles in heart wrenching detail, her battle to overcome losing her mother to death and her father to prison, as well as fighting to build a solid life for

son. Motherhood at such a young age meant that any goal she set, from earning her college degree to advancing in her military career, became that much more complicated and difficult. Still, she persisted in juggling her work, homework, daycare, and myriad other responsibilities, in addition to focusing resolutely on her academic demands in college. Her deep Christian faith is what Wilson considers the stabilizing force in her life, and the fuel that enabled her to persevere even when things were at their bleakest. It also required her to forgive her father and find a new way forward in her life, despite the devastating past. Through hard work and dedication to her son, family, and any task placed before her, Wilson retired as an officer in the United States Army, is the owner and CEO of her own business, Rapid Acquisition Management Solutions, a doting grandmother, and now a published author. "I made sure that these life-changing events shaped my future for success, and never leaned on them as crutches that prevented me from achieving. God offers no guarantee of a life without storms," she declares, "but He does provide the shelter necessary to make it through them." Wilson also imparts that there is no magic trick to succeeding - it requires breaking large goals down into small, attainable ones, effectively prioritizing time, and being persistent and consistent. These habits, she believes, contribute significantly to reaping the benefits of hard work. Wilson's memoir proves that she is a living testimony that it is not events in one's life that held them back, it is how they respond to those events. "Any determined individual can

overcome all odds and shatter every stereotype," she says, "and live a truly happy, productive, and successful life, proving that they are indeed not a statistic.

Loving My LifeMar 03 2021 "LOVING MY LIFE" is a true story about my life from 5 weeks old to present. I have felt the need to write my story since I was a teenager. Writing about my life has been somewhat therapeutic for me because I had to go into my heart and soul to make sure I told my story as it is, sometimes while writing with tears rolling down my cheeks. Some people may wonder why I wrote about my life. Well, I see and hear about children's lives after being some killed by one of their parents or both. I am not speaking about abortion but about the ones that were birthed out, sometimes even the ones that legally adopted (was never adopted). Every child deserves love from their mother and father, or they will spend a lifetime looking for love and lots of times never truly experience that feeling of love that all of was created from by God and is to be a lifetime achievement. I am thankful that I survived and I am alive to allow you to read about it and why I am loving my life.

Death ClutchMay 17 2022 He is the biggest pay-per-view attraction in the world. He is "the Baddest Dude on the Planet." He is Brock Lesnar. For countless fans of professional wrestling and mixed martial arts, Brock Lesnar has long been known for his freakish athleticism, mind-blowing speed, and meteoric rise to the top. Yet despite the fame and fortune that have come with his enormous success, Brock has shunned the media, choosing instead

Now, for the first time, he tells his remarkable story in his own words, describing the journey from his South Dakota farm boy roots to the most popular pay-per-view attraction in the world. In *Death Clutch*, Brock opens up about what it takes not only to succeed in the world's fastest-growing sport but to become the undisputed Heavyweight Champion of the World. He also speaks candidly about the illness that nearly killed him, how it changed him as a fighter and a man, and how it shaped his will to survive. In the end, Brock holds nothing back in this revealing, raw, and ultimately redemptive tale of determination and domination.

Kicking Up Dirt Nov 18 2019 At nineteen, Ashley Fiolek is already the top female competitor in a tough men's sport: motocross, one of the most dangerous extreme sports in the world. Since going pro in late 2007, Fiolek has taken gold at the X Games, twice won the American Women's Motocross Championship, and become the first woman in American motocross history to be signed to a factory team—the highest echelon of industry backing. These remarkable achievements seem even more extraordinary because Fiolek was born profoundly deaf, a handicap that makes everyday life difficult . . . and competition on the track downright treacherous. But Fiolek has never let her disability stand in the way of her dreams, nor has she allowed her gender to limit her career. One of the sport's most talked-about stars, she's changing the way the industry views women. *Kicking Up Dirt* is the remarkable

true story of Ashley Fiolek's ride to greatness—the inspiring tale of a courageous young woman's determination to succeed in the face of truly challenging obstacles.

Get Off Your Knees Feb 14 2022 Growing up, John Robinson never considered himself an inspiration to others. He was born a congenital amputee and stands three foot eight as an adult. Although he has no extension of his arms or legs, he has not been limited in his career or in his personal life. After graduating from Syracuse University's S.I. Newhouse School of Public Communications, he went on to work for NBC affiliates in upstate New York and today is the director of corporate support for WMHT, the public broadcasting television station in Albany. Robinson's success did not come easily. From learning how to dress himself after going away to college, to making new friends and feeling accepted, he struggled to come to terms with his disability and make a life on his own. Although his journey may not be considered "normal," he does not see this as an obstacle, but as an opportunity to succeed and

understand the meaning of responsibility. Robinson writes in an honest, personal voice, showing that a disability does not have to get in the way of an education, a career, a family, or one of his favorite hobbies, golf. *Get Off Your Knees* is a touching story and, as Robinson says, is for "anyone who feels they need inspiration, whether it be an individual with a mental or physical disability, parents of children with disabilities, or someone looking to overcome an obstacle in life."

it's travelling alone, immersing yourself in new cultures and meeting new people. Perhaps it's running ultramarathons in the blistering heat and beating the competition. Perhaps it's conquering your fears. The badass adventurers in this collection are all fearless, intelligent, compassionate and curious about the world – and they all happen to be female. The Little Linebacker Jun 18 2022 Find out what happens when a young boy decides to never say never!

The Adventures of Mthuphi Oct 30 2020 The author in this short parable-like story provides lessons of life in an African rural set-up that touches on core human values (love, respect, Ubuntu, generosity, perseverance, hard work, trustworthiness, courage and hope) in a story form. He makes good use of the African tradition of using stories to espouse and encourage people especially the young to observe these values. While tragic in many ways, the story in this book teaches of hope, renewal, commitment and the power of forgiveness. The author writes from the African renaissance perspective and uses the story to carry reader through generational struggles, conflicts, hurts, successes and triumphs. Although this book is intended to be a teaching tool we do still relate to the characters and their

lives. There is a fair amount of descriptive repetition and yet it is interesting from a learning perspective because it reinforces the knowledge shared. The story is clearly intended as a teaching tool rather than a novel and thus aspects such as the development and descriptions of characters - protagonists and antagonists are not as important. What the characters do is more important and we learn from their trials and successes. The story offers an enjoyable insight into the African village cultural traditions and the dangers and beauty of wildlife in the African countryside. Human nature is human nature and wherever one might find oneself, the central questions and dilemmas are universal and the ethical aspects that arise from the story bear reflecting upon whatever tradition one is from.
